

Health & Safety Manager

We are looking for a Health & Safety Manager to join our busy Operations Team

Purpose of the role - Reporting to the Head of Operations, the Health & Safety Manager will be responsible for providing support to managers to deliver H&S best practice across the site, driving and support a positive health and safety culture and behaviours, monitor and report on health and safety risks and hazards in the workplace and management of emergency procedures and carry out accident and incident and near-miss investigations as required.

Main duties & responsibilities

- Ensure the workplace possesses an ideal and safe working environment to protect the health of staff and visitors
- Inspect and evaluate all equipment, practices and procedures in accordance with safety legislation and government regulations
- Develop, implement and monitor health and safety policy, programs and plans
- Predict all kinds of potential risks, identify their causes and recommend measures to prevent or minimize them
- Set up emergency plans and educate employees how to handle such situations
- Increase health and safety awareness across all levels and departments
- Conduct safety inspections
- Identify and implement a process to analyse production performance
- Lead and assist colleagues at all levels in carrying out health and safety measures
- Prepare, review and update appropriate sections of the company's emergency procedures manual
- Ensure all operatives within the operations department are fully training on essential health & safety within the workplace
- Coordinate and provide necessary training in the areas of safety like fire drills, first aid, accidents etc
- Monitor and arrange training as and when required
- Work with the HR Manager to ensure the company is compliant in Health & Safety matters

Person specification

- In depth knowledge of environment, health and safety regulations
- Strong oral and written communication skills
- Competent and goal orientated with experience in health and safety management
- NEBOSH & ISOH qualification is essential
