STUDENT CAR USE POLICY

(Deimhnithe ar an 15-05-24)

STUDENT CAR USE POLICY

INTRODUCTION:

The management of the school would prefer that students did not drive to school. The local area is very well served by public transport. The sole responsibility in relation to the laws in respect of driving and ownership of cars rests with the students and their parents/guardians. The school accepts no responsibility in relation to these matters. In certain instances it may be necessary for students to drive to and from school. If students are being afforded this responsibility by their parent(s)/guardian(s), then it is very important that they treat this responsibility with maturity and a strong awareness of safety. The first priority of the school is the welfare of all students in our care. The purpose of this policy is to outline the guidelines within which students who have the use of a car must conform.

PARENTS:

If parents decide to grant permission to their daughter(s)/son(s) to drive to school they must inform the Principal of this decision by email to po@colaistemhuire.ie. Following this parents will be required to countersign the agreement below.

DRIVERS:

1. Students who drive must do so in a responsible manner at all times, following all road rules and showing due courtesy to and respect for the safety of all other road users.
2. Students are not permitted to park their cars on the school premises.
3. Students must park their cars in a responsible and safe manner and must not obstruct the property of the residents within the vicinity of the school.
4. Cars must remain parked for the duration of the school day. Students are not permitted to use their car during school hours, this includes lunch time and P.E. times.
5. Students are not permitted to go to their car for any reason or at any stage during the school day.

PASSENGERS:

Mostly due to distraction and peer pressure, serious car accidents involving young drivers occur more frequently when there are passengers in the car. It is important to note that the school is not in a position to monitor students in cars and it is therefore imperative that parents provide clear direction to their daughter(s)/son(s) in strictly adhering to this policy. For safety reasons the school reminds students and parents/guardians that passengers are not permitted in cars driven by other students at any time during the school day and would strongly recommend that passengers are not permitted between school and home. Likewise, we would strongly advise students not to accept lifts in cars driven by other students, friends or inexperienced drivers.

BREACH OF SCHOOL POLICY - DRIVERS:

Students who drive to school and who in any way breach this policy will be suspended for a minimum of 2 days. Any complaints received about students, about their driving, their parking or about their cars in general will be referred directly to parents/guardians and it will be the responsibility of parents/guardians to deal with any complaints that are made.

BREACH OF SCHOOL POLICY - PASSENGERS:

Students who are found to be passengers in cars driven by other students, friends or inexperienced drivers may also be subject to suspension.

The support of all concerned parties in ensuring the safety of all students within our collective care is greatly appreciated by the school and this policy is a positive step towards the safety of all.

I _____ (student's name) agree to adhere strictly to terms of this policy.

Student's signature: _____

Parent's/Guardian's signature: _____

Date: _____
