6th Year Geography Trip

In October, our 6th year Geography students went to Kippure Wicklow, to carry out a geological survey on the River Liffey, as part of their Leaving Certificate project.

Student Response was positive, “Geography would be much better as a practical subject!”

Shylocks Revenge Play

Shylock's revenge was organised by Ms Brennan, it was led by two people Marcus Bale and Niel.

Niel did the technical side of the play, he used sound effects and pictures to elevate the play and keep it interesting.

Marcus Bale played all of the characters, his style of acting was very unique as he had to play many characters at once, engaged with the audience throughout and pointing out parts that will be important in exams.

6th Year Higher Options

Tejashree P says “Higher Options was a fulfilling experience for all 6th years who attended in September. There were various representatives from colleges across the country and even internationally. This allowed every student to explore all of their options. All college representatives were friendly and helpful, providing a lot of clarity, especially to those who were sure about their future pathway. There were also other career options for show here, including the Gardaí, the army etc”

European Languages Day

International Bake-Off

The international bake-off took place on Wednesday the 24th of September, during International Languages week in the school. The event was a huge success, with many pupils bringing beautiful desserts from a multitude of different countries.

Samhain Week

Fancy Dress-Up Day

Samhain Week

1st Year Halloween Party

Exchange Trips

In September and October, Coláiste Pobail Setanta welcomed students from Spain, France and Germany. During their time in Ireland, students and their teachers had the opportunity to observe lessons in our school as well as visiting Causey Farm and Glendalough. Students got to taste a full Irish and bake some Irish Soda Bread.

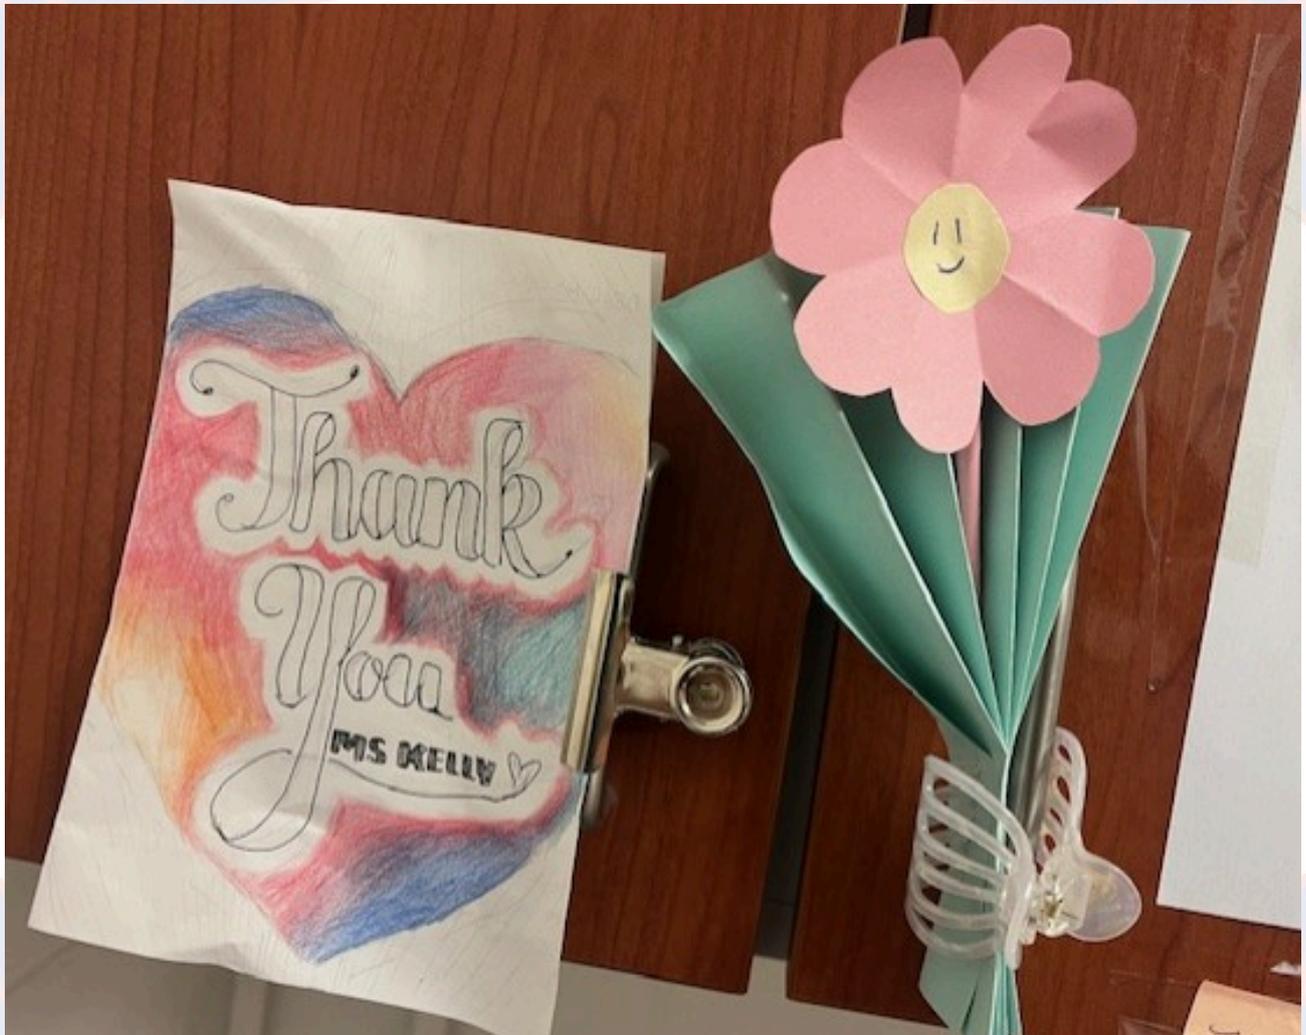

They also had the opportunity to learn more about the history of Dublin and 'make a splash' on the Viking Splash tour of our City.

Both students and staff were delighted to also help teach our visitors how to play Gaelic Football (and who knows, one day they might be lifting Sam themselves!). We also held a céilí mór in order to teach and practice a few new jigs and reels!

World Teacher Day

Normally, this day is on the 5th of October, however that was on a Sunday, so the occasion was celebrated on the 3rd of October in the school. To show our appreciation to teachers, students made paper flowers and cards for teachers. The day was lovely and we would like to thank Ms. Brennan for facilitating the event.

Maths Week

Our School celebrated Maths week from the 13th of October to the 17th of October, numerous activities took place. But a student favourite was the Math jokes. The maths department and Liam McD worked on gathering Maths jokes from the whole school.

Liam's account of the week stated:

"I enjoyed reading the Maths jokes on the intercom this year. Despite being on the intercom many times, it was never as enjoyable as getting people to laugh.

My favourite part of the week was playing 'The Green and Red of Mayo' over the intercom."
