

Parents/Guardians guide to setting up Enrol.

Step 1: To gain access, you must click on the Forgot Password button. Enter your email address, and click on the send button.

Step 2: You will receive an email from the system (if the email address entered is associated with an account) and you must click on the link provided. This will take you to the MIT/Enrol system where you can enter a new password to continue.

Step 3: Once your new password has been created, you can login and continue to pay fees as normal.

Please note that the link will expire 2 hours after the initial request. If this happens, you can click on the Forgot Password option again.
