

Leaving Certificate Business – New Specification (From September 2025)

The new Leaving Certificate Business course helps students understand how the world of business operates in Ireland and internationally. It builds financial and business literacy, develops informed decision-making, and shows students how business shapes the economy and their everyday lives. The revised specification focuses on real-world enterprise, leadership, and how businesses respond to economic, social, and technological change.

Students explore four key strands:

- **Investigating Business**
- **Exploring the Business Environment**
- **Understanding Enterprise**
- **Leading in Business**
- **Being Informed and Making Informed Decisions**

The updated course emphasises active learning, problem-solving, and contemporary business challenges.

Assessment includes new components beyond the traditional written exam, reflecting modern business skills and competencies
