Dear Parents/Guardians of Third Year students,

As our Third Year students prepare for the upcoming State Examinations, timetabled classes for Third Year students will conclude this Friday, May 22nd @ 13:10. This is to allow students dedicated time for self-study, revision, organisation of materials, and final preparation in advance of the Junior Cycle examinations.

To continue to support students in their preparation, a Junior Certificate Study Centre will operate in the school from Monday, May 25th to Thursday, May 28th inclusive in Room 06. This supervised study environment will provide students with a quiet and structured space to revise and prepare for their examinations if required.
Attendance at the Junior Certificate Study Centre is subject to the school's normal school-day times, routines, conditions, and expectations in relation to attendance, behaviour, uniform, and engagement.

Equally, a reminder of the excellent supports available through the ExamRevision.ie platform, including topic videos, quizzes, exam-focused summaries and revision resources which can greatly support students in their final preparation for the Junior Cycle examinations."

Further details in relation to times and arrangements for the Study Centre will issue shortly.

We thank you for your continued support and wish all of our Third Year students the very best as they begin their State Examination journey.

Le gach dea-mhéin,
Andrew Mc.Namara
