Gender gap in Bonus

Not applicable

Gender Pay Gap Statement 2024

All salary scales in operation within the school are approved by the Department of Education and agreed centrally with the Department of Public Expenditure. The board of management does not have flexibility to apply off scale salaries to any specialist skillsets.

The point on which a new hire commences is agreed centrally with the Department of Education and set out in circular 47/2020 which states appointments are made at the minimum point of the scale.

On occasion, where a new hire is moving from an existing public service post, the new employee may be appointed at their current scale point.

The board of management adheres to all public service pay scales and any pay agreements. This ensures that everyone is paid fairly for undertaking the same or a similar role.

Applications for new vacant posts are invited from all, and any suitably qualified candidates can apply.

This report was generated by the Statistics section in the Department of Education and Youth.
