

First-Year Phone Away Box Initiative 2026–2027

As part of our commitment to supporting student learning, concentration, digital wellbeing and positive social interaction, Creagh College is introducing a Phone Away Box initiative for all incoming First-Year students for the 2026–2027 school year.

Each morning, First-Year students will complete the required Phone Away digital check-in and place their mobile phone, on silent mode, into their designated Phone Away Box located inside their locker door. Phones will remain securely stored there during the school day and may only be accessed with the permission of a member of staff.

Action Required – First-Year Parents/Guardians

Before Monday, 31st August, we ask all parents/guardians of incoming First-Year students to complete our short Phone Away Box Parent/Guardian Agreement & Phone Registration Form.

The form includes:

- acknowledgement of the Creagh College Mobile Phone Policy;
- registration of your child's mobile phone, including their IMEI number;
- confirmation that you have discussed the Phone Away arrangements with your child; and
- an opportunity to notify the school of any exceptional circumstances requiring consideration.
