19th June 2026

Dear Parents/Guardians,

We would like to share an update on the recent 'Have your Say' Primary School Survey that was sent to school communities throughout Ireland before Christmas.

Firstly, we would like to thank all families who took the time to participate. Our school specific results are included in the Aladdin Notice. We had a 46% response rate (140 out of 305 households responded).

The survey was consultative and no decisions have been made based on the results. Whilst there are no immediate changes planned, the Department of Education and Youth has asked schools to review their results and consider next steps, if any, in consultation with their communities. Any potential changes would require further consultation and formal approval processes.

If you have any further feedback to give on the survey, please contact us in writing via email:

admin@maryhelpofchristians.ie with 'Primary School Survey' in the subject line.

This part of the consultation process will remain open to you until September 30th 2026.

We recognise that views on these matters can differ. The Board of Management of Mary, Help of Christians GNS is committed to respecting all perspectives and ensuring transparency in any future discussions.

We will continue to keep you informed as this process develops.

Yours sincerely,

Renee Moran

Principal

On behalf of the Board of Management
