

New Month and New chance to
improve your attendance!!!

Why is attendance so important for success? Here is just a few examples!

- **Academic Success:**

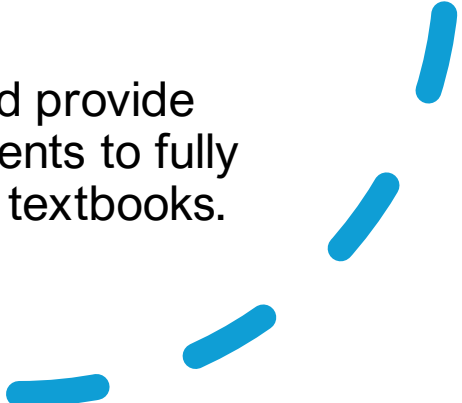

Regular attendance helps students understand lessons as they are taught. Missing classes often leads to gaps in knowledge, making it harder to keep up and perform well on tests and assignments.

- **Better Grades**

Students who attend school consistently are more likely to earn higher grades because they receive direct instruction, participate in discussions, and complete in-class activities.

- **Stronger Understanding of Material**

Teachers explain concepts, answer questions, and provide examples during class. Being present allows students to fully grasp subjects instead of relying only on notes or textbooks.

What's happening?

On **Friday the 27th of March** there will be a **raffle** with an Easter Hamper up for grabs!

How can I get a raffle ticket?

Any student who has **full school attendance** will be given a raffle ticket

BUT also

Any **student who has improved their school attendance** will get a raffle ticket! (Ms. Quirke has taken record of your current attendance level on Vs Ware)
