6thYear Update

Dates:

- The CAO information night is on Wed 4th Nov from 19:00 in the Presentation Room in school.
- Reports are due out on Mon 9th Nov. This is slightly delayed due to the industrial action.
- The 6th Year PTM is on Thursday 12th Nov from 16:00 – 18:30 in the gym.

Info:

- In the first half term of the year 6th year students completed a module about revision and organisation.
- On their reports there will be a "Target Grade" for each exam subject. This is a ***student chosen*** target, and is part of our support programme for students to help them prepare for the Leaving Cert. A blank indicates that your child has not decided on a target. These target grades will form the basis for conversations at the PTM and for the student to have with their career guidance teacher.
- Students have also been provided with a tracking spreadsheet to help them track their progress throughout the year.
- The first week back after midterm is **Revision Week**. Over the course of the week each exam subject teacher will show the students a revision strategy that works for their subject. This is to help students find a method of studying that works for them.
- 1:1 Career Guidance meetings have begun
- All 6th year students have full access to examrevision.ie, and online website to support them with their revision.
- On Monday 3rd November, 6th year students will be receiving a talk from NUI Galway.
- School will be closed due to staff training on Nov 16th. Supervised study will be available in school for 6th years on this day.
