6<sup>th</sup> March 2026

Dear Parent/Guardian,

I previously contacted you in December 2025 regarding the Computer Science coursework, outlining that is worth 30% of their final mark (the two exams in May 2026 making up the other 70%).

The starting date for the coursework was back in early December 2025, the deadline of Thursday 19<sup>th</sup> March 2026 is fast approaching.

To further support my students and in order to give them the best chance of success in this project, I have already opened my classroom at lunchtimes on Mondays. Very few students have availed of this opportunity.

I am now offering the following additional session next week:

- **Friday 13<sup>th</sup> March from 1.00pm – 2.00pm.**

Attendance is not compulsory but it offers the students additional time to manage their time, their workload and keep to deadlines, in order to receive a grade they deserve.

Please encourage your child to use this time and attend this extra session.

Any questions or concerns regarding the Computer Science project or this arrangement please do not hesitate to contact me.

Thank you for your continued support.

Yours sincerely

**Tim Slight**
