

# Erasmus+ Mobility - June 2024

**Cuxhaven,  
Germany**

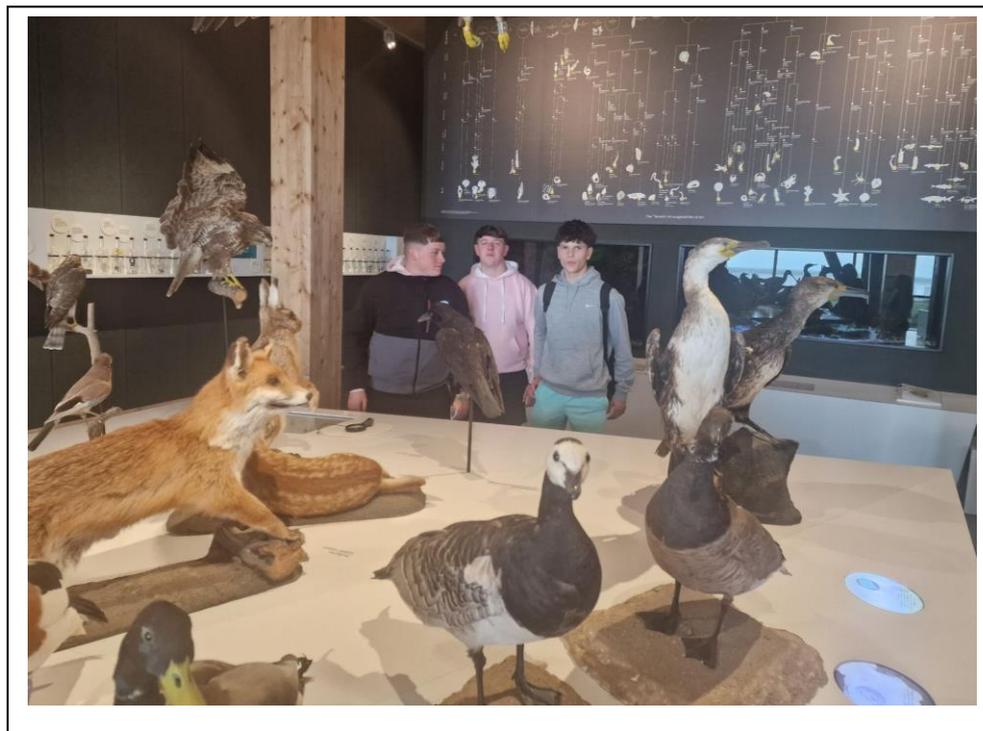

## **Building Success!**

**In June 2024, our fifth-year students embarked on another exciting Erasmus+ mobility to Cuxhaven, Germany. The adventure began with a flight to Hamburg, followed by a scenic train journey to the coast, where our students were warmly welcomed by host families and immersed themselves in authentic German life.**

**On the evening of our arrival, we enjoyed a trip on the town train along the picturesque coastline to a UNESCO World Heritage site—a perfect introduction to the cultural richness that Erasmus+ offers.**

From the very start, students were surrounded by opportunities to learn, explore, and connect. During the visit, we attended classes at Amadeus-Abendroth Gymnasium, gaining valuable insights into the German education system and experiencing its distinctive approach to teaching and learning.

**Along with our partner students we travelled to Bremen to see all this enchanting city has to offer.**

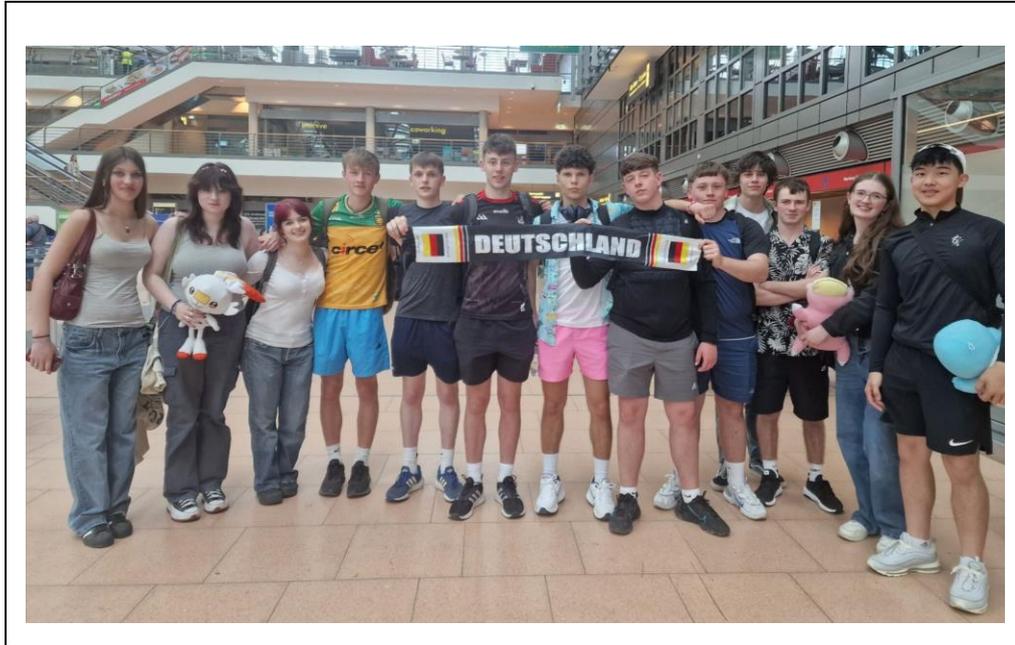

**A highlight of this mobility was a day trip to Berlin, where students explored the rich history and vibrant culture of Germany's capital city.**

**This unforgettable experience provided valuable insights into the country's heritage and modern identity.**

**Back in Cuxhaven, we collaborated with our German partners on a fascinating project focused on ancient languages—Plattdeutsch and Gaelic.**

**Together, we shared common phrases from each language and supported one another in mastering some of the more challenging pronunciations, creating a fun and interactive learning environment that celebrated linguistic diversity.**

**From cultural immersion to language learning and collaborative projects, every aspect of this mobility strengthened friendships,**

**broadened horizons, and reinforced the immense value of international cooperation.**
