IN THEIR OWN
WORDS

TY is a great year to develop your personal self and not just academically. It is not a year you would want to miss.

My work experience placements opened the possibility of primary teaching to me, as I had only been thinking of Secondary teaching beforehand. They have also made me very aware that there is no fate worse than a retail job...

Mini-company really helped me to improve my problem-solving skills and allowed me to make money!

Photography was amazing. I learned so much about lighting and angles and rules on how to take a photo

Politics...one of my top picks for Leaving Cert and doing the TY module showed me that I was making the right decision

Law was very interesting as we looked at why we have laws and the consequences that occur when they are broken. The trip to Cloverhill was very grim.

A lightbulb is centered on a yellow background. The bulb is glowing, and its filament is visible. A black wire extends from the bottom of the bulb. Above the bulb, there are several black lines radiating outwards, resembling sun rays. The text "TY STUDENT OF THE YEAR" is written in white, bold, uppercase letters across the middle of the bulb.

**TY STUDENT OF
THE YEAR**

Congratulations!
