MATERIAL CONNEXION'S GLOBAL NETWORK

FULL-SERVICE LIBRARIES

A licensed library that serves as the exclusive licensee within a respected territory, open to members and with all of the same resources.

SATELLITE LIBRARIES

A scaled-down version of our full-service library, satellite libraries cater to members but utilize fewer materials and a smaller staff.

EDUCATIONAL LIBRARIES

Libraries housed inside of educational institutions, open only to students and faculty, operating on a smaller scale.

OUR MATERIAL LIBRARY IS OUR FOUNDATION

Material ConneXion Global Headquarters, New York, USA

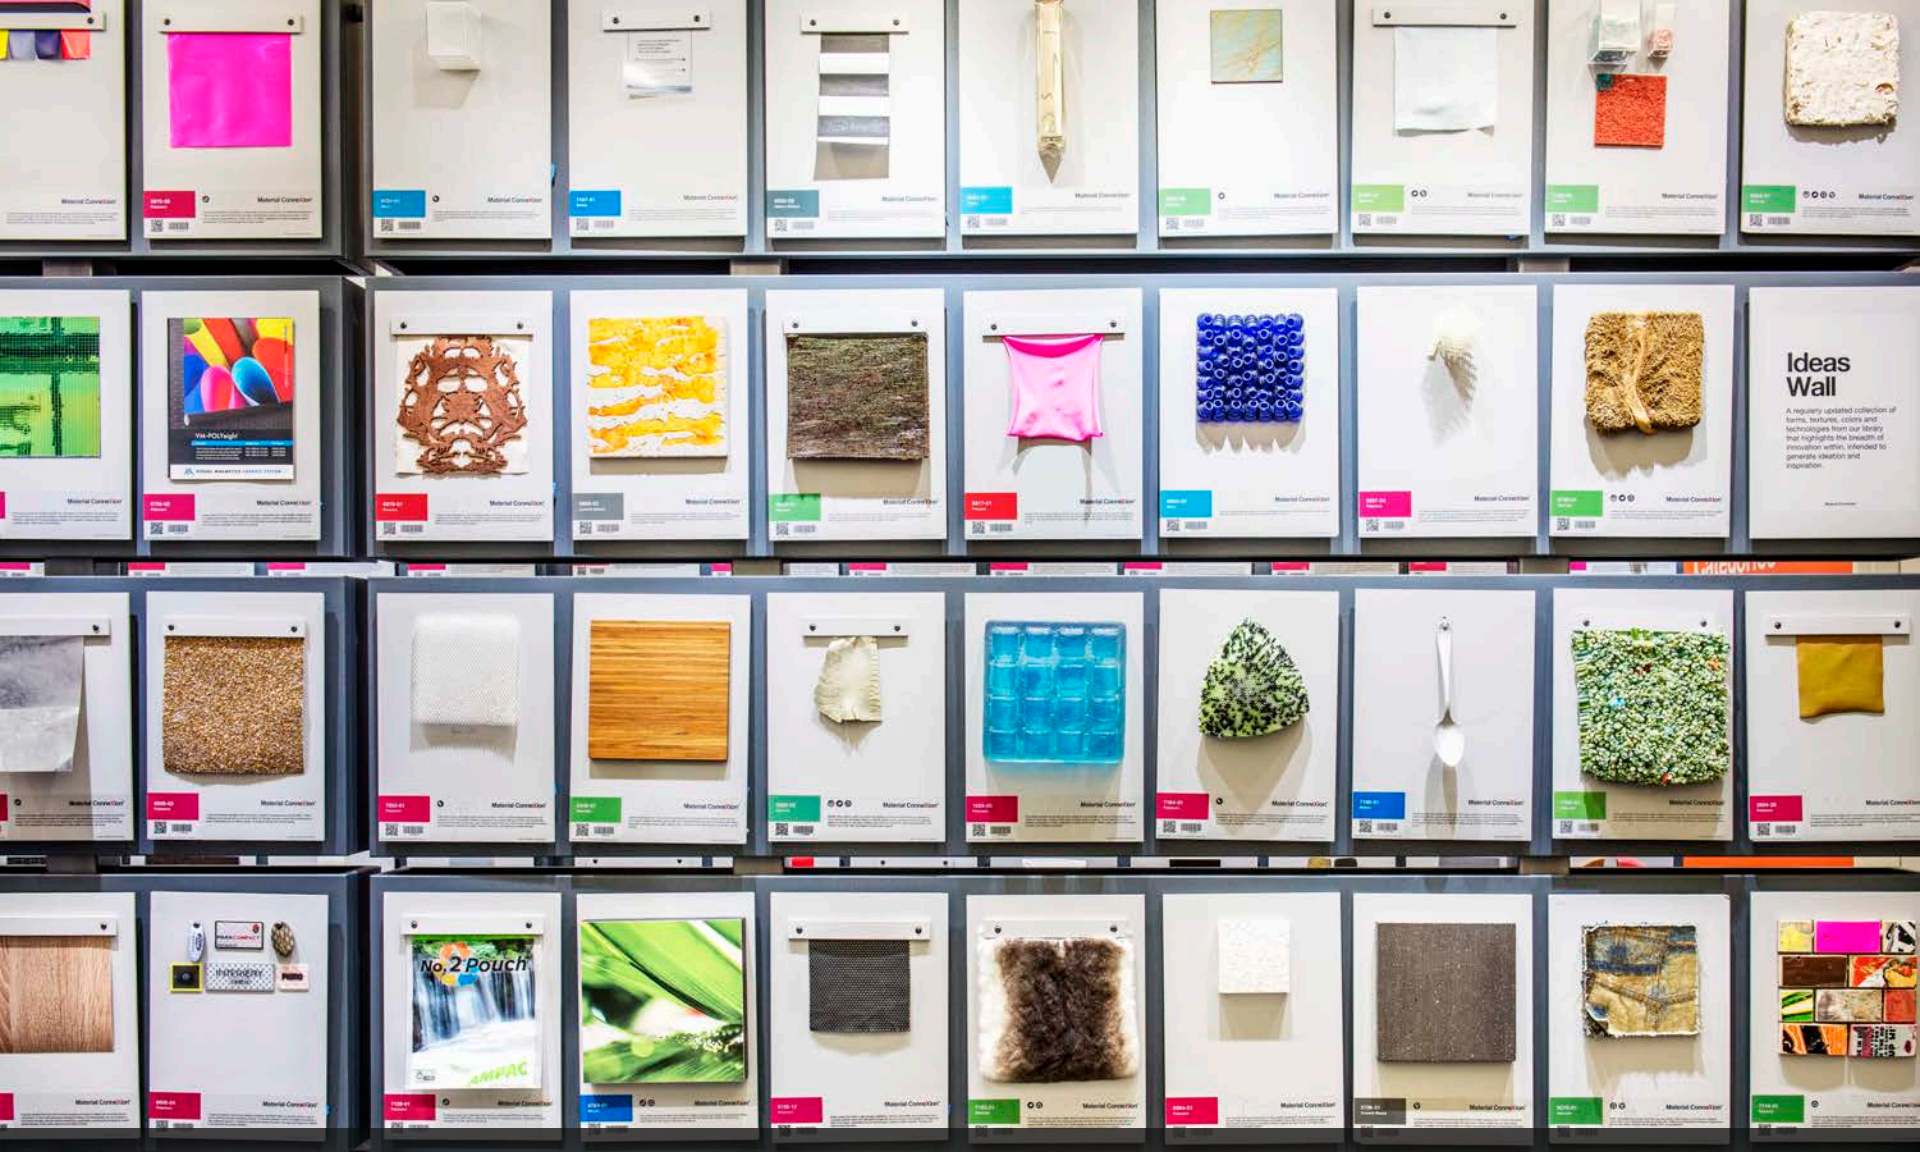

Material ConneXion[®]

The Library

THE LIBRARY CATEGORIES

We organize our collection according to chemical composition rather than intended use to encourage outside-the-box thinking. The categories are scientific in nature, but are tailored to suit the design community.

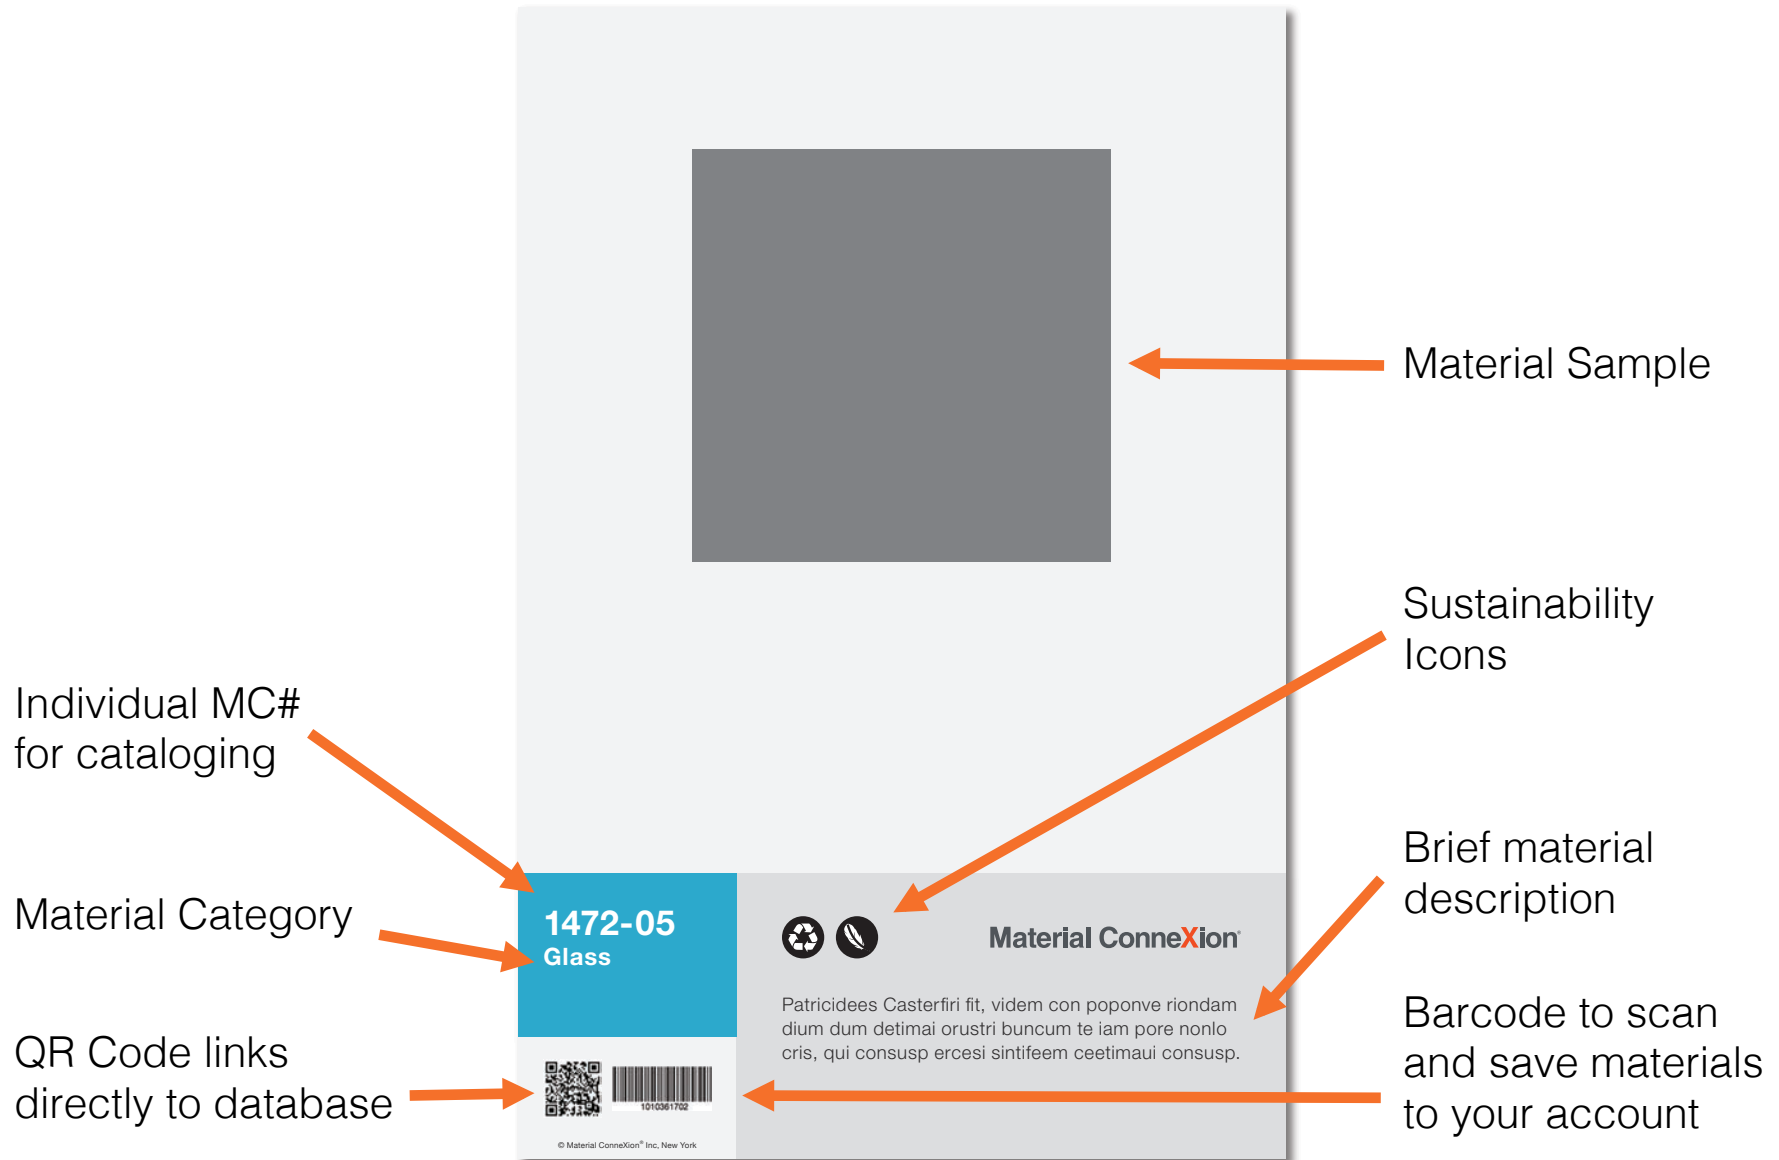

THE LIBRARY DISPLAY SYSTEM

Our patented tabula system offers an interactive way to engage with the materials, and makes it easy to manage and add to your own library.

ANATOMY OF A TABULA

THE LIBRARY CATALOGING SYSTEM

Each material is assigned a unique, two-part “MC#”

MC# 5128-05

The first number is the material manufacturer number.

The second number tells us that this is the 5th material we've sourced from manufacturer 5128.

MC#5128-01

MC#5128-02

MC#5128-03

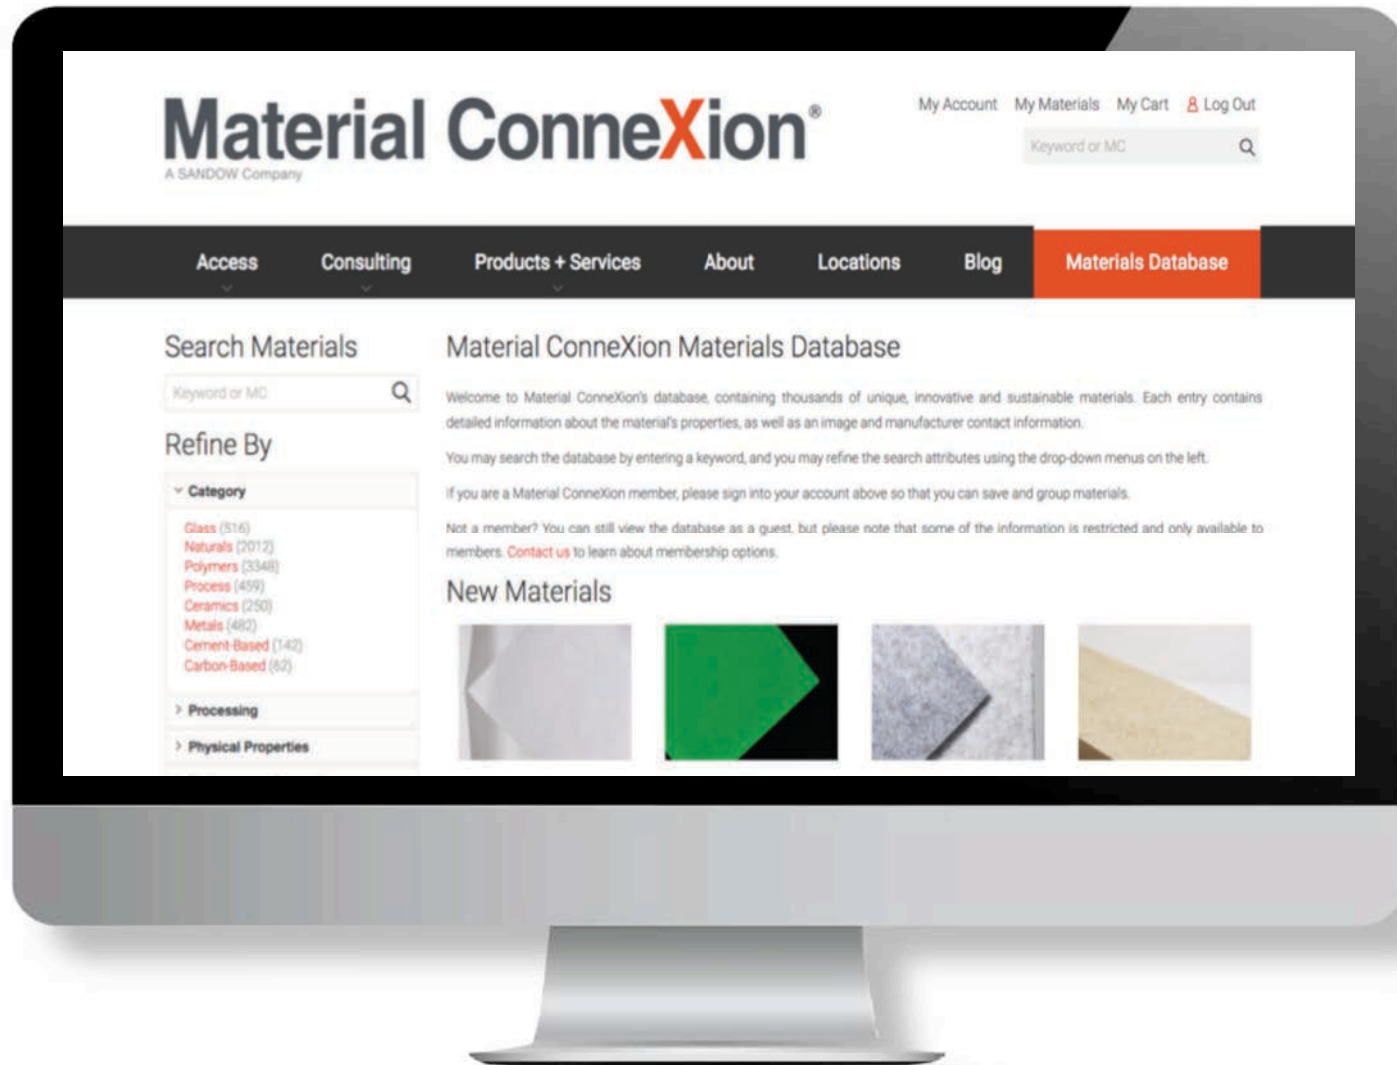

MC#5128-04

MC#5128-05

AN EASY-TO-USE DATABASE

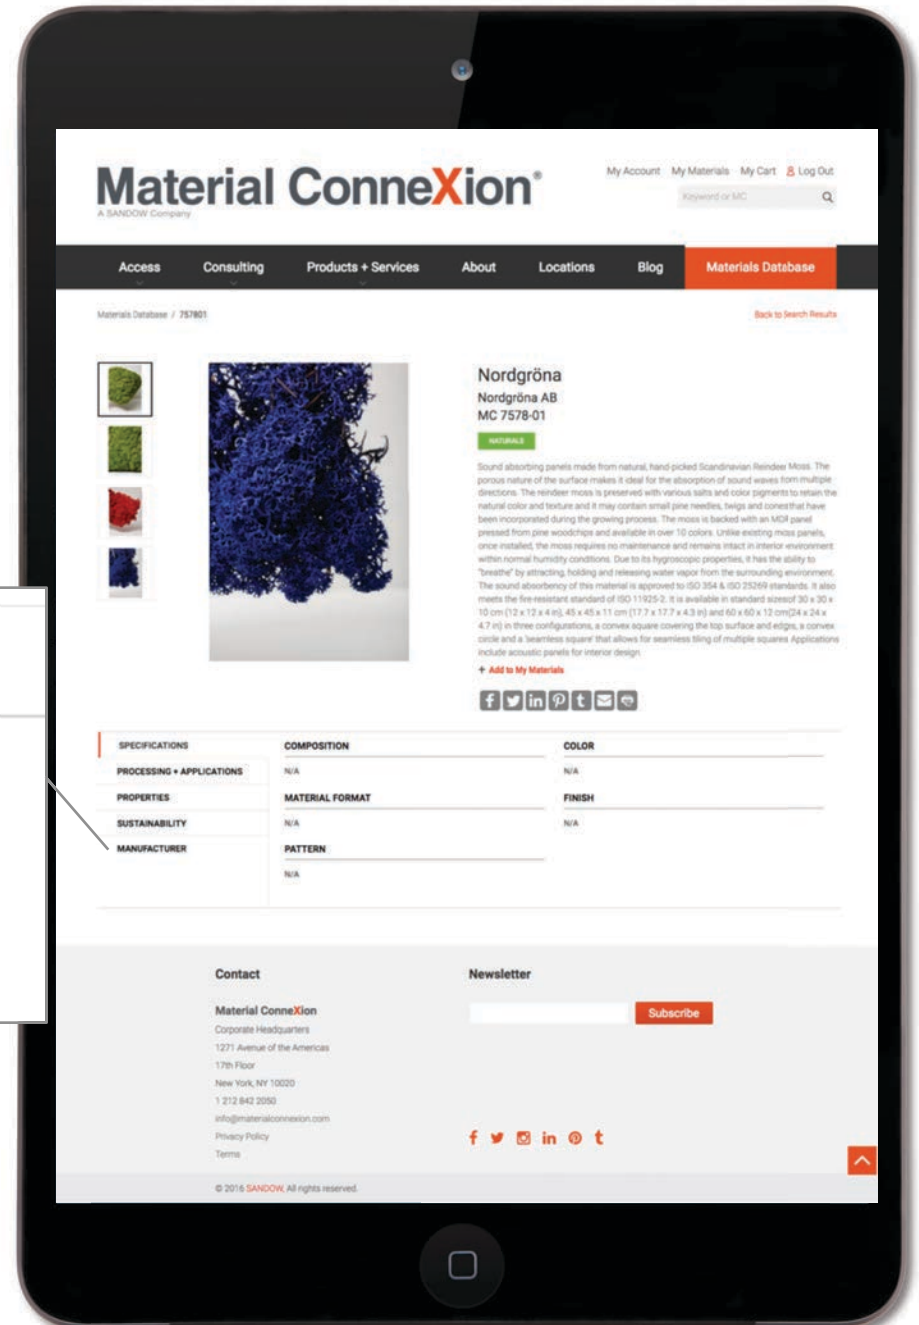

Our physical library is supplemented by our proprietary database.

AN EASY-TO-USE DATABASE

Access comprehensive product information, technical specifications, images, application information and manufacturer contact details for every material in our database.

ACADEMIC MEMBERSHIPS

Embed material literacy into
your design teaching.

ACADEMIC ACCESS MEMBERSHIP

\$4,500 per year

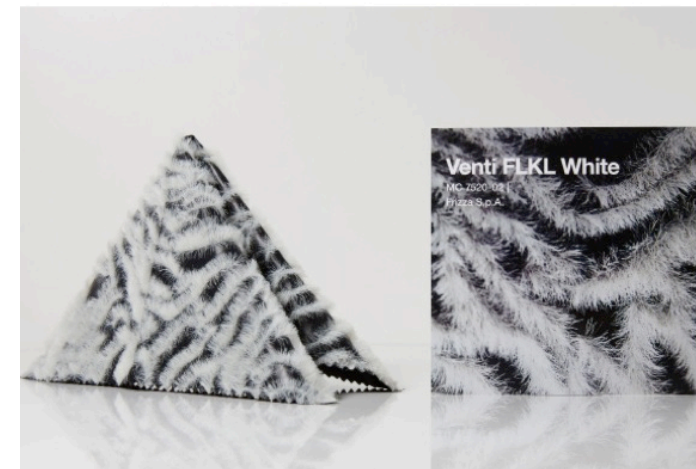

- University-wide, IP-based database access for students, faculty and staff
- NYC library access – We welcome and encourage individual student and class trips to our library

ACTIVE MATTER MEMBERSHIP

\$6,300 per year

- University-wide, IP-based database access for students, faculty and staff.
- NYC flagship library access
- 4 boxes per year
- 15 cutting-edge materials in every box
- Tags explaining each material's technical characteristics
- Information cards explaining the innovation behind each material
- Introduction and overview of the materials contained within each box
- Manufacturer contact details for every material

MATERIAL LIBRARY CREATION

\$100,000 / year*

- 1500 materials selected by Material ConneXion delivered to you over the course of 3 years **
- University-wide, IP-based database access for students, faculty and staff
- On-site training in our New York headquarters for your staff

*Shipping and other out of pocket expenses not included

**Number of materials and length of agreement may change

HOW IT WORKS

1. SELECT & SHIP

- You share guidelines for selection with us (i.e. interest in healthy materials)
- We select 500 materials for you according to your guidelines and our expertise
- We share our selection with you for review and confirmation
- Upon confirmation, we start tabula production (90 days needed)
- Once production is complete, we ship you your materials

HOW IT WORKS

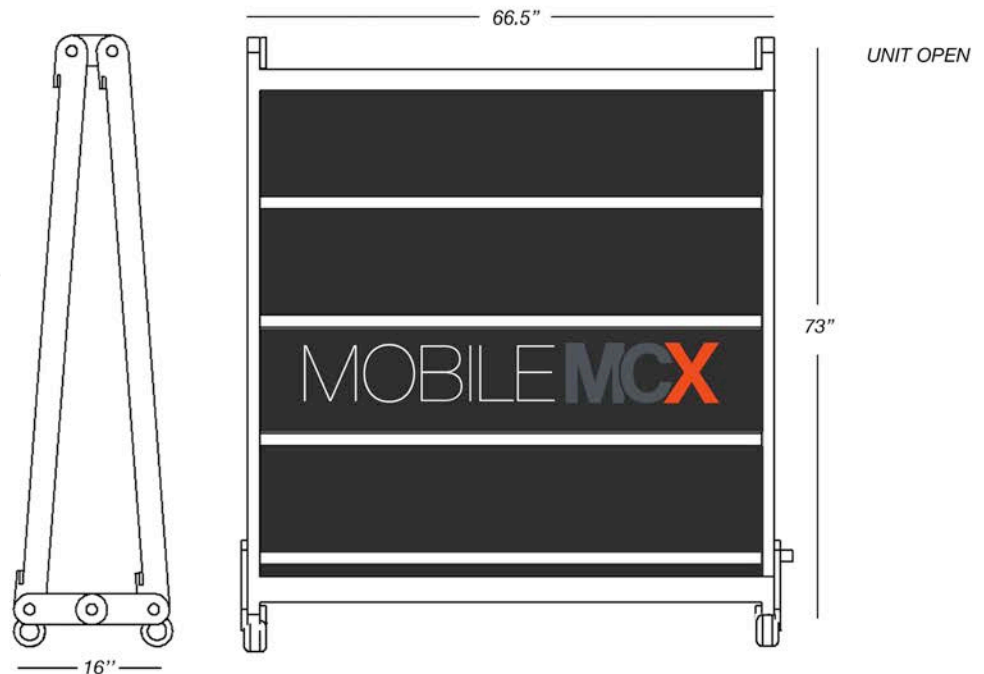

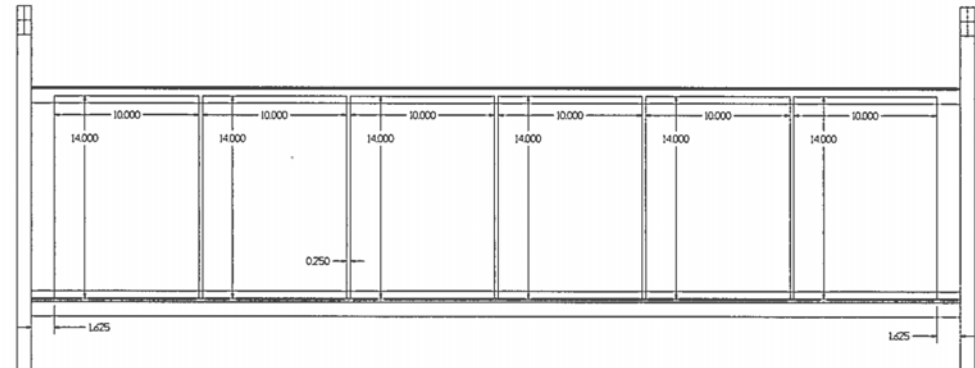

2. INSTALL

SHELVING

Material ConneXion will help you design an optimal environment for your materials library by providing you with display specifications that can be customized to fit any space.

MOBILE MCX

Our mobile unit gives its users the flexibility of unrestricted inspiration and education. Easily move the unit from place to place, use it to display your material mood board or for specific classes.

HOW IT WORKS

3. UPDATE

We will add 500 materials to your collection every year so that your collection reflects the utmost in material innovation. We will continue to work with your team to ensure that your material library supports your students and enhances your teaching.
