***Did you know the cost of green improvements to your home can be significantly offset through federal, state, local, and utility credits and incentives?***

### Federal

**Home Improvements** – Tax Relief, Unemployment Insurance Reauthorization, and Job Creation Act of 2010

**Efficient Cars** – Federal Tax Credit Options

*Improvements / Purchases made in 2010 will be claimed on your 2010 taxes (filed by April 15, 2011)*

**Tax Incentives Assistance Project (TIAP)** – Appliances, New Homes, Retrofits to Existing Homes

**Brochure: Residential Energy Efficiency Incentives (TIAP)**

### State

**[The Database of State Incentives for Renewables & Efficiency \(DSIRE\)](#)**

**[US Department of Energy - Energy Efficiency and Renewable Energy by State](#)**

**[National Association of State Energy Officials – Funding Opportunities and Resources](#)**

### Local

**[The Database of State Incentives for Renewables & Efficiency \(DSIRE\)](#)**

**[Energy Star's Appliance Rebate Locator](#)** (by zip code)

### Utility

**[The Database of State Incentives for Renewables & Efficiency \(DSIRE\)](#)**

**[Programs and Incentives Information from the Edison Electric Institute](#)**

---

***Did you know special financing and funding is available for green home purchase and improvements?***

### Financing and Funding for Green Homes and Improvements

**[Energy Efficient Mortgages](#)** – from the U.S. Department of Housing and Urban Development (HUD)

**[Energy Efficient Mortgages](#)** – from Residential Energy Services Network (RESNET)

**[Green Financing Programs](#)** – from myEnergyLoan

**[Funding Opportunities](#)** – directory from the U.S. Environmental Protection Agency (EPA)

**[\* [Agents – add local EEM provider info with link here] ]**

### Home Energy Audits

The first step towards an energy-efficient home is to conduct an energy audit to find out where your home is losing energy. They range around \$500 depending on the size of your home. An audit performed by a Certified Rater can include many different tests. A report is generated with recommendations. Verification of improvements developed from the report can be a major selling point. Remember to check with your local utility to see if they offer free or discounted energy audits for their customers.
