

# CRAFTMASTER HOMES, LC

25 YEARS OF QUALITY BUILDING IN THE HILL COUNTRY

## DESIGN/BUILD & *Remodel*

We normally design the homes we build. Each house is customized to give you the Texas Hill Country style of architecture incorporating limestone, cedar and metal roofs. Here are some of the design elements:

- Metal Roofs and Lots of beautiful Hill Country stone
- Wide Porches and Decorative Interior Beams
- Stained and Scored Concrete Floors
- Granite Counter-tops
- Beautiful Tile or Hardwood Floors
- Super Energy Efficient Materials and Equipment
- Environmentally Sensitive Building Practices

We are a full service builder and remodeler who can design, build or remodel your home from scratch. We can handle all aspects of the home-building and remodeling process.
