

# Get Your “MOVE ON”

## Moving Tips

Over the years we've managed to pick up a few tricks of the trade. Whether we are helping with your move or not, dig into our cache of moving tips. They make moving easy — easy moves make people **happy**.

1. Tape boxes on top and bottom. It is cheaper and more efficient to move boxes than loose items BUT don't make it too heavy to carry (*books for example*).
2. Clearly label all of your boxes according to their content and handling instructions (*e.g.: "Fragile," "Top Load Only"*). You can also categorize the boxes by room using color coordinated sticker dots.
3. Overdue on the bubble wrap with sensitive items or rare pieces.
4. Don't close on the new home on the same day as moving!
5. Always move cash, jewelry, and other precious items yourself.
6. Movers should not move any flammable materials such as gas, propane, ammo, etc.
7. Only unloaded guns would be moved in special packaging or trucks.
8. Your change of address info is available at no charge at your local post office. Change your address online here at [www.moversguide.usps.com](http://www.moversguide.usps.com).
9. Be careful not to schedule any important engagements on the evening or day of the move.
10. Pack things you will need right away (*clothes, toiletries, phone, keys, current bills, important papers, etc.*) and move these yourself.
