

Getting your AC/HVAC ready

for *Fall/Winter*

Home Owner Check List

Before calling, check for:

1. Air filters (*allergens*)
2. Leaks
3. Carbon Monoxide (*for gas systems*)
4. Old Units-units made before 2008
(*it is best to replace entire system than to find discontinued parts*)

Home Owner Replacements

For any amount of water,

1. COMPLETELY change out the duct system
2. Mold remediation: use a professional (*for the walls*)
3. DIY: do not go over 20% bleach
4. Newer outdoor units: the circuits would be ruined
5. Indoor units: insulation would be affected
