LEGASEAY WATER SOLUTIONS

Water You Need. Where You Need It.

SOFT WATER BENEFITS

Having a water softener in your home brings wonderful benefits to your skin. Your skin will feel soft and smooth after showers. You'll no longer feel the need to put layers and layers of lotion on.

100% OF CUSTOMERS SAY THEY CAN FEEL A DIFFERENCE

- ✔ Soft water will make it easier to lather soap and get clean
- ✔ Skin is soft and less irritated with soft water
- ✔ Scalp won't dry out like it does with hard water

SAVE YOUR APPLIANCES!
HARD WATER CAN DAMAGE FIXTURES AND APPLIANCES OVER TIME. A WATER SOFTENER PROTECTS YOUR HOME FROM HARD WATER BUILD UP.

Benefits Of Having a Reverse Osmosis System

- Receiving better than bottled water quality
- Decrease use of plastic water bottles
- Unlimited access to clean drinking water

@LegaSeayWaterSolutions

Water Treatment Services

Reverse Osmosis

The RO Systems we install have a five part system. It will remove between 90-99% of impurities in the water. This includes any metals or harmful compounds.

Water Softeners

Our Water Softeners provide extremely dependable and high quality water for your home. We use all Clack valves for residential applications - Clack has been in the business for years providing dependable solutions that will take care of you and your home.

Water Well Pressure Tanks

We know that all wells are different. We send in a water sample from your well and get the water quality report. After that we can provide you with solutions for your well.
