

Roof Neglect, Repairs, and Bad Patios

Tips to Go By:

- 1) After heavy winds above 40-50 miles/hour and hail the size of golf balls, file insurance claim ASAP
(or 1-2 years after incident)
- 2) Get your roof checked every 3-5 years *(sealants expire)*
- 3) Fix the roof before putting house on market
- 4) For Patios: Flat roof and shingles do not mix
(roof needs to be at an angle if shingles are used).
- 5) Not shiny shingles are good; shiny shingles are bad/shot
