Versatile Log Duplex with Idyllic Mountain Views

Two completely separate homes, both with an idyllic mountain setting and mountain views. You'll appreciate the floor plans that include an expansive, covered deck, year-round creek views (and sounds), a walk-out basement and open kitchens. One side has newer stainless steel appliances and the other boasts a gorgeous real stone fireplace. Think of the possibilities: live in one side and rent the other; rent both sides monthly; live in both sides? You decide!
