

My Buyer Services:

I design a Buyers' guide **tailored** to the Buyer's requests for Property, Neighborhood, Budget constraints, and market values.

The Buyers guide will have **detailed** information on each listing.

I **listen** to my Buyers and connect with their concerns on this journey. Sometimes, we need to change our **search plans**.

I **communicate** with an in-depth knowledge of each home shown to the clients. This may include the construction of the home, developers, past repairs, amenities, and neighborhood features.

**Educating** the Buyer on the Buying processes until we close. I am there **every step** of the way.

Every Buyer will have their **home inspected** with a professional company, and some cases an individual licensed plumbers, electricians, roofers, and contractors.

Every Buyer will receive a **Home Warranty program**.

Buyers will move into a **professionally cleaned** home. I will guarantee this service!
