# "Your Full Service Real Estate Firm"

## **SELLERS!**

I don't want to just LIST your property, I want to SELL your property! To us, it's pretty simple: For a property to sell it has to be priced right and advertised well. If your property is overpriced, no amount of advertising will increase your odds of selling. If your property is under advertised, how will potential buyers see it? Advertising at Primm Real Estate Firm, LLC includes and will include internet listings at [www.primmrealty.com](http://www.primmrealty.com), [www.realtor.com](http://www.realtor.com), Yahoo Real Estate, Oodle Real Estate, Trulia Real Estate, Googlebase Beta, paper publications such as the Carroll News ([www.thecarrollnews.com](http://www.thecarrollnews.com)), The Galax Gazette ([www.galaxgazette.com](http://www.galaxgazette.com)), the Twin County Real Estate Guide, and property advertisements such as yard signs and directionals. The majority of our past buyers have been located out of state and use the internet as their main source of property shopping.

## **BUYERS!**

Whether you prefer to view listings on an easy to navigate website or listings in the local newspaper and real estate publications, Primm Real Estate Firm, LLC will try to give you the most accurate, informative, and up to date information and pictures available. Each real estate listing on our website [www.primmrealty.com](http://www.primmrealty.com) will offer expandable pictures showcasing the interior and exterior of the property when available along with seasonal land photos also. Listings will also be showcased in the Twin County Real Estate Guide and local newspapers on a rotating basis. As members of the Southwest Multiple Listing Service, Primm Real Estate Firm, LLC is able to expand out beyond our current listings to find your dream property! Call us first for information or to schedule an appointment to view other firm's properties.

Hello. My name is Ashley C. Primm.

I would like to write for a moment about my interests, the goals I have accomplished and hope to accomplish, and the reasons I think you should do business with my firm. I also look forward to meeting with you and getting to know your interests as well.

I will start out by giving a nod to my hometown of Hillsville, VA where I was born, raised, and still live today. I could not have picked a better place to grow up than in the mountains of Carroll County! My parents are Clinton and Wanda Jane Primm, both life-long residents of Carroll County. I attended Carroll County High School where I lettered in football and baseball, in which I received all district and regional honors. After graduation, I attended Wytheville Community College where I received two Associate Degree's in Business Administration and General Studies.

After graduation, I decided to attend the Moseley Dickinson Academy of Real Estate in Roanoke, VA. I must say that it was the best move I have ever made! From the very first class, I was fascinated with the whole real estate process! After completion of state and national testing, I started listing and selling property in the Twin County area April 2001.

After seven years in the business, I feel that I have been very successful. Since starting my career, I have reached and even superseded goals I had set for myself which included selling over 4.3 million dollars in sales volume (2006), averaging two listings per month, and being named the "Top Producer" for 2004, 2005, 2006, and 2007 with my last firm. In 2002, I also earned my appraiser trainee license and am presently working with Alderman Appraisal company.

I feel like this has been a great start and although I am very pleased about reaching these goals, I continue to set higher goals for myself and my firm. The higher I set my goals, the more people I can help to have a wonderful home selling or home buying experience!

Thank you for giving me and my firm a chance to provide you with professional real estate service.

Thank You, Ashley C. Primm
