

Hi, I'm Jack Soceka.

This site gives you much more flexibility than most. You can search in the Advanced Search section for sold as well as active properties and you can enter more specific criteria than other sites. You can search all across our state of Wisconsin across multiple MLS boards including a few adjoining counties in Iowa, Illinois and Michigan. That's good.

But there are limitations to what ALL real estate websites allow you to search for by yourself.

For example, if you want to search for property with ACTUAL waterfront on a lake without having your waterfront property results mixed in with river frontage and a lot of water view property results you need to contact me and let me send you these listings. I can also set you up through the South Central Wisconsin MLS to receive MLS sheets on every new listing with actual waterfront in your desired area the minute any company enters that listing into the system. You can also get an MLS sheet when any property in your selected area gets an offer on it. If you want to know when each property closes and what it sold for you can have that too.

I hope to earn your business.

Please use the Contact Me or the Dream Home Finder buttons to describe what you are looking for or call me at 608-438-8140.
