## Ranch Animals

### Sheepdogs

Some ranchers use dogs to move sheep. The dogs help the farmer keep the sheep together. Sometimes wolves attack the sheep. The sheepdogs can keep the wolves away. Sheepdogs are good helpers.

### Ponies

Ponies are not baby horses. They are grown-up horses that are small. Ponies never grow to be more than five feet tall. Some are only three feet tall! Ponies are nice for children to ride.

### Rabbits

There are many kinds of tame rabbits. Some are white with pink eyes and long ears. Others are brown with floppy ears. Rabbits have many babies. One pair of rabbits can have fifty-six baby rabbits in a year!

### Chickens

Hens lay eggs. The hen will sit on her eggs for three weeks. When the chicks are hatched, she takes good care of them. She gathers them under her wings when it is cold. She will fight dogs and hawks for her chicks.
