Credit Suisse FI Enhanced Big Cap Growth ETNs due October 22, 2018

FIBG

Commencement of Trading on the Exchange: October 24, 2013

Issuer/Trust: Credit Suisse AG

Primary Listing Exchange: NYSE Arca

The purpose of this information circular is to outline various rules and policies that will be applicable to trading in this new product on the Exchange, as well as to provide certain characteristics and features of the Notes.

Background Information on the Notes

Credit Suisse AG (the “Issuer”) has issued Exchange Traded Notes (“ETNs” or “Notes”) due October 22, 2018 that are linked to the performance of the Russell 1000 Growth Index Total Return Index (the “Index”). The ETNs do not guarantee any return of principal at maturity and do not pay any interest during their term.

The return on the ETNs is linked to a leveraged participation in the performance of the Index. The Index seeks to track the large cap growth segment of the U.S. equity market and includes those Russell 1000[®] companies (each, an “Index Component”) that are determined to have higher price-to-book ratios and higher forecasted growth values relative to the equity universe. The intraday level and the official Closing Level of the Index are expected to be reported by the Index Sponsor on Bloomberg page “RU10GRTR <Index>”. At any time on any Trading Day that the intraday level of the Index is not reported by the Index Sponsor on Bloomberg page “RU10GRTR <Index>”, the intraday level of the Index will be determined to be (a) the Closing Level of the Index on the immediately preceding ETN Business Day multiplied by (b) the level of the Price Return Index at that time divided by (c) the closing level of the Price Return Index on the immediately preceding ETN Business Day.

If the ETNs have not previously been redeemed or accelerated, at maturity investors will receive for each \$100.00 stated principal amount of the ETNs a cash payment equal to the arithmetic average of the Closing Indicative Value on each of the immediately preceding five Trading Days to and including the Final Valuation Date (the “Final Valuation Period”). Any payment on the ETNs is subject to the Issuer’s ability to

pay its obligations as they become due. In no event will the payment at maturity be less than zero.

If the ETNs have not previously been redeemed or accelerated, at maturity investors will receive for each ETN a cash payment equal to the arithmetic average of the Closing Indicative Value on each of the immediately preceding five Trading Days to and including the Final Valuation Date (the “Final Valuation Period”). Any payment on the ETNs is subject to the Issuer’s ability to pay our obligations as they become due. In no event will the payment at maturity be less than zero.

The Closing Indicative Value for the ETNs on the Inception Date is \$40.78 (the “Initial Indicative Value”). The Closing Indicative Value on any ETN Business Day after the Inception Date will be equal to (1) the Closing Indicative Value on the immediately preceding ETN Business Day plus (2) the Index Amount on the current ETN Business Day minus (3) the Investor Fee on such ETN Business Day minus (4) the Exposure Fee on such ETN Business Day minus (5) the Rebalance Fee on such ETN Business Day, if applicable; provided that if the Intraday Indicative Value of the ETNs is equal to or less than zero at any time or the Closing Indicative Value is equal to zero on any Trading Day, the Closing Indicative Value on that day, and all future days, will be zero.

The Index Amount for the ETNs on the Inception Date will equal 0. On any ETN Business Day after the Inception Date, the Index Amount will be equal to the product of (1) the Index Units as of the immediately preceding ETN Business Day times (2) the difference between (a) the Closing Level of the Index on the current ETN Business Day minus (b) the Closing Level of the Index on the immediately preceding ETN Business Day.

On any ETN Business Day from and including the Inception Date to but excluding the first Rebalance Date, the Index Units will be equal to 0.090981. The Index Units will be adjusted upon the occurrence of a Rebalance Event. From and including any Rebalance Date, the Index Units will equal (1) the Leverage Factor times (2) the Closing Indicative Value on the most recent Rebalance Trigger Date for which the corresponding Rebalance Date falls on or before the current ETN Business Day divided by (3) the Closing Level of the Index on such Rebalance Trigger Date.

The Leverage Factor is 2.0.

On any ETN Business Day following the Inception Date, the Investor Fee will be equal to the product of (1) the Closing Indicative Value as of the previous ETN Business Day times (2) 0.05% times (3) the Day Count Fraction.

Please see the prospectus for the Notes for more details regarding the calculations and details regarding the Index.

It is expected that the market value of the Notes will depend substantially on the value of the Index and may be affected by a number of other interrelated factors including, among other things: the general level of interest rates, the volatility of the Index, the time remaining to maturity, the dividend yield of the stocks comprising the Index, and the credit ratings of the Issuer.

Exchange Rules Applicable to Trading in the Notes

Trading in the Shares on IEX is subject to IEX trading rules.

Trading Hours

The Shares will trade on IEX between 8:00 a.m. and 5:00 p.m. Please note that trading in the Shares during the Exchange's Pre-Market and Post-Market Sessions ("Extended Market Sessions") may result in additional trading risks which include: (1) that the current underlying indicative value may not be updated during the Extended Market Sessions, (2) lower liquidity in the Extended Market Sessions may impact pricing, higher volatility in the Extended Market Sessions may impact pricing, (4) wider spreads may occur in the Extended Markets Sessions, and (5) because the indicative value is not calculated or widely disseminated during the Extended Market Sessions, an investor who is unable to calculate an implied value for the Shares in those sessions may be at a disadvantage to market professionals.

Suitability

Trading in the securities on the Exchange will be subject to the provisions of IEX Rule 3.170 and other applicable suitability rules. Members recommending transactions in the securities to customers should make a determination that the recommendation is suitable for the customer.

Trading Halts

The Exchange will halt trading in the shares of a security in accordance with Exchange Rules. The grounds for a halt under Exchange Rules include a halt by the primary market because the intraday indicative value of the security and/or the value of its underlying index are not being disseminated as required, or a halt for other regulatory reasons. In addition, the Exchange will stop trading the shares of a security if the primary market de-lists the security.

This Information Circular is not a statutory prospectus. Exchange Members should consult the prospectus for a security and the security's website for relevant information.

Please contact IEX Regulation at 646-343-2000 with any inquiries regarding this Information Circular.
