WisdomTree Asset Management, Inc. (“WTA” or “Advisor”) is the investment advisor to the Funds. The Advisor is registered under the Investment Advisers Act of 1940. The Advisor’s parent corporation is WisdomTree Investments, Inc. (“WTI”). The Funds will be advised by WTA. WTA has entered into a Sub- Advisory Agreement with Dreyfus Corporation (“Dreyfus”). Dreyfus is wholly owned subsidiary of BNY Mellon. The Bank of New York is the administrator, custodian and transfer agent for each Fund. As described more fully in the Trust’s Prospectus and Statement of Additional Information (“SAI”), the Funds issues and redeems Shares at their net asset value (“NAV”) only in large blocks of 200,000 Shares (each block of 200,000 Shares called a “Creation Unit”), in exchange for a basket of money market securities and/or cash.

Each International Currency Income Fund also may issue and redeem Creation Units in exchange for a designated basket of non-U.S. currency and an amount of U.S. cash. Shares of the Fund will trade at market prices that may differ from the NAV. Shares of the Fund are redeemable only in Creation Units in exchange for cash. Except when aggregated in Creation Units, the Shares may not be redeemed with the Trust. The Trusts registration statement describes the various fees and expenses for the Fund’s Shares. For a more complete description of the Fund and the underlying index, visit [www.wisdomtree.com](http://www.wisdomtree.com).

### **Disclosure of Portfolio Holdings**

Unlike traditional ETFs that are not required to provide daily portfolio disclosure, the Funds will prior to the opening each business day, make publicly available on their website, [www.wisdomtree.com](http://www.wisdomtree.com), a file of all the portfolio securities and other assets held by each Fund and the quantities thereof, as of the close of business on the prior business day, reflecting all securities bought and sold on such prior business day. This information will be available to investors and market participants accessing the website and will form the basis for each Funds calculation of NAV as of the close of regular trading on the Exchange.

### **Portfolio Indicative Value**

The NYSE Arca will disseminate, at least every 15 seconds, through the facilities of the Consolidated Tape Association, an estimated value for the Fund’s on a Per-Share basis (the “Portfolio Indicative Value”). The Portfolio Indicative Value is designed to provide investors with a reference value which can

be used in connection with other related market information.

The NYSE Arca does not guarantee the accuracy or completeness of the Portfolio Indicative Value. The Portfolio Indicative Value is determined by dividing the “Estimated Fund Value” as of the time of the calculation by the total Shares outstanding. “Estimated Fund Value” is the sum of the estimated amount of cash held in the Fund’s portfolio, the estimated value of the securities held in the Fund’s portfolio and the estimated amount of accrued interest, minus the estimated amount of liabilities.

The Portfolio Indicative Value on a Per-Share basis disseminated should not be viewed as a real time update of the NAV, which is calculated only once a day.

### **Other Information about the Fund**

Each of the Brazilian Real Fund, Chinese Yuan Fund and the Indian Rupee Fund intend to pay out dividends, if any, annually. The Euro Fund intends to pay out dividends, if any, quarterly.

The Depository Trust Company (“DTC”) will serve as securities depository for the Shares, which may be held only in book-entry form; stock certificates will not be issued. DTC, or its nominee, is the record or registered owner of all outstanding Shares. The NAV of each Fund’s shares is calculated once daily each day the New York Stock Exchange (“NYSE”) is open for business (a “Business Day”) as of the close of regular trading on the NYSE, generally 4:00 p.m. Eastern time. NAV per share is calculated by dividing a Fund’s net assets by the number of Fund shares outstanding. In calculating a Fund’s NAV, Fund investments generally are valued using market valuations. Short-term debt securities with remaining maturities of 60 days or less generally are valued on the basis of amortized cost. U.S. fixed income assets may be valued as of the announced closing time for such securities on any day that the Securities Industry and Financial Markets Association announces an early closing time. The value of any assets or liabilities denominated in a currency other than the U.S. dollar are converted into U.S. dollars using an exchange rate deemed appropriate by the Fund.
