

Investors Exchange Product Information Circular 2016 - 0394

Date: August 31, 2016

Re: WisdomTree Global Real Return Fund

Investors' Exchange LLC commenced operating as a national securities exchange on August 19, 2016 followed by a two-week security-by-security phase-in period. This Information Circular is being issued to advise you that the following security has been approved for trading pursuant to unlisted trading privileges ("UTP") on the Exchange as UTP Derivative Securities pursuant to IEX Rule 16.160, and will begin trading on IEX during the phase-in period. See [the Exchange's Website](#) for the phase-in schedule.

<u>Securities (the "Fund")</u>	<u>Symbol</u>
WisdomTree Global Real Return Fund	RRF

Issuer/Trust: WisdomTree Trust

Issuer Website: www.wisdomtree.com

Primary Listing Exchange: NYSE Arca

The purpose of this information circular is to outline various rules and policies that will be applicable to trading in these new products pursuant to the Exchange's unlisted trading privileges, as well as to provide certain characteristics and features of the Shares. For a more complete description of the Issuer, the Shares and the underlying market instruments or indexes, visit the Issuer Website, consult the Prospectus available on the Issuer Website, examine the Issuer Registration Statement or review the most current information bulletin issued by the Primary Listing Exchange. The Issuer Website, the Prospectus, the Issuer Registration Statement and the Primary Exchange Circular are hereafter collectively referred to as the "Issuer Disclosure Materials."

Background Information on the Fund

The WisdomTree Trust (the "Trust") is a management investment company registered under the Investment Company Act of 1940, as amended (the "1940 Act"), consisting of several investment portfolios. This circular relates only to the WisdomTree Global Real Return Fund (the "Fund"). The shares of the Fund are referred to herein as "Shares." WisdomTree Asset Management, Inc. (the "Adviser") serves as the investment adviser to the Fund. Mellon Capital Management Corporation ("Mellon Capital") serves as sub-adviser to the Fund.

The Fund seeks total returns (capital appreciation plus income) that exceed the rate of inflation over long-term investment horizons.

The Fund seeks to provide protection against inflation and to generate income. "Inflation" is defined as an increase in the general price level of goods and services over time. The Fund invests in a combination of inflation-linked securities and debt instruments from issuers in the United States, developed markets and emerging markets throughout the world. The Fund has targeted exposure to

commodities, such as gold, and employs commodity strategies structured to provide returns that exceed inflation rates. The Fund is actively managed using a structured investment approach that considers, among other things, country and currency exposure, sector allocation, investment exposure and risk.

As noted above, the Fund invests in fixed income securities and other instruments linked to inflation rates in the U.S. and in developed and emerging market countries throughout the world. The Fund's U.S. investments are focused on inflation-protected securities, such as U.S. Treasury Inflation Protected Securities ("TIPS"), and floating-rate securities. Outside the United States, the Fund seeks broad-based exposure to both developed and emerging economies. The Fund focuses its investments outside the U.S. in countries that are leading exporters of commodities, such as Australia, Brazil, Canada, Chile, Mexico, and South Africa. In order to provide broad-based exposure across developed and emerging markets, the Fund also invests in issuers from countries such as France, Germany, Italy, Israel, Korea, Poland, Sweden, Turkey and the United Kingdom. This list may change from time to time based on market and other conditions. Country, sector and issuer exposure and risk are reviewed on an ongoing basis and the Fund's portfolio is rebalanced quarterly. The Fund's exposure to any single non-U.S. currency generally is limited to 10% of the Fund's assets.

Inflation-linked bonds are structured to provide protection against inflation by preserving purchasing power. In a typical inflation-linked bond, the principal amount of the bond and the cash flow generated by the bond (i.e., interest) are adjusted upward in response to increases in inflation rates. The U.S. Consumer Price Index, or CPI, is a commonly used measure of U.S. inflation rates. Bonds tied to inflation rates outside the U.S. generally are linked to regional or country measures comparable to the CPI that measure inflation rates in non-U.S. markets. As inflation rises, upward adjustments to the principal amount or income paid on the bond increase the value of the bond and help preserve purchasing power in response to inflation. Conversely, some types of inflation-linked bonds may be adjusted downward in response to deflation (i.e., a decrease in the prices of goods and services over time).

The Fund invests in floating- and variable-rate bonds. Floating- and variable-rate bonds are bonds that have a variable payment feature tied to a reference rate, such as the federal funds rate or the London Interbank Offering Rate ("LIBOR"). Floating- and variable-rate bonds generally are less sensitive to interest rate increases because when market rates rise, the payments made by such bonds increase. Conversely, a decrease in market interest rates will adversely affect the income received from such securities and may cause the value of such bonds to decrease.

The Fund may invest in derivatives such as swaps, forward currency contracts, and futures contracts designed to provide protection from changes in inflation rates. A total return swap is an agreement between two parties to exchange payments at a future date based on the return of a reference asset, such as a bond or equity index. An inflation-linked swap is an agreement between two parties to exchange payments at a future date based on the difference between a fixed payment and a payment linked to an inflation rate or value at a future date. An interest rate swap is a transaction in which two parties typically exchange payments based on the difference between a floating interest rate payment and a fixed interest rate payment. A cross-currency swap is an agreement to exchange one currency for another at a future date. A forward currency contract is an agreement to buy or sell a specific currency at a future date at a price set at the time of the contract. A futures contract is a financial instrument in which a party agrees to pay a fixed price at a specified future date for an asset, such as a U.S. Treasury security.

The average duration of the fixed income portion of the Fund's portfolio will vary based on economic fundamentals and market conditions. During most scenarios, fixed income portfolio duration will not exceed 10 years. Duration is an important indication of the Fund's sensitivity to changes in interest

rates. Funds with higher durations generally are subject to greater interest rate risk. While the Fund intends to invest primarily in “investment grade” securities, the Fund also may invest in “non-investment grade” securities. Securities rated investment grade generally are considered to be of higher credit quality and subject to lower default risk. Although securities rated below investment grade may offer the potential for higher yields, they generally are subject to higher potential risk of loss.

While inflation-linked securities offer protection against inflation, they are sensitive to changes in “real interest rates.” Real interest rates are interest rates that have been adjusted to remove the cost of inflation. Protracted increases in real interest rates would likely have a negative impact on the value of inflation-linked securities and the value of the Fund. The Fund may purchase futures contracts on U.S. Treasury securities or other U.S. government or non-U.S. government obligations to help minimize this risk.

The Fund may invest a portion of its assets in fixed income securities that are not linked to inflation, such as U.S. government obligations. The Fund also may invest in money market instruments (including repurchase agreements) with remaining maturities of one year or less, as well as cash and cash equivalents. A repurchase agreement is a transaction where a party purchases securities and simultaneously commits to resell them at an agreed-upon date at a price reflecting a market rate of interest unrelated to the coupon rate or maturity of the securities.

The Fund intends to have targeted exposure to commodities and commodity strategies. The commodity exposure is diversified across a number of sectors (such as gold and other precious metals, industrial materials, energy, livestock, and agriculture) utilizing systematic, rules-based strategies. Within these strategies, the Fund may take or gain exposure to “long” or “short” positions in commodities and related instruments. To be “long” means to hold or be exposed to a commodity or instrument with the expectation that its value will increase over time. To be “short” means to sell or be exposed to a commodity or instrument with the expectation that it will fall in value. The Fund will benefit if it has a long position in a commodity or instrument that increases in value or a short position in a commodity or instrument that decreases in value. Conversely, the Fund will be adversely impacted if it holds a long position in a commodity or instrument that declines in value and a short position in a commodity or instrument that increases in value.

The Fund seeks to gain exposure to commodity markets, in whole or in part, through investments in a subsidiary organized in the Cayman Islands (the “WisdomTree Subsidiary”). The WisdomTree Subsidiary is wholly owned and controlled by the Fund. The Fund’s investment in the WisdomTree Subsidiary may not exceed 25% of the Fund’s total assets at the end of each tax year quarter. The Fund’s investment in the WisdomTree Subsidiary is expected to provide the Fund with exposure to commodity returns within the limits of the federal tax requirements applicable to investment companies, such as the Fund. Unlike the Fund, the WisdomTree Subsidiary may invest without limitation in commodity-linked derivatives. The WisdomTree Subsidiary intends to achieve exposure to commodities through investment in a combination of listed commodity futures, commodity index swaps and structured notes that provide commodity returns. A listed commodity future is a financial instrument in which a party agrees to pay a fixed price for a designated commodity at a specified future date. Listed commodity futures are traded at market prices on exchanges pursuant to terms common to all market participants. A commodity index swap is an agreement between two parties to exchange cash flows or returns (or differences in return) on a commodity index. A structured note is a debt instrument the return on which is tied to a reference asset or rate, such as a commodity or commodity index.

Except as noted, references to the investment strategies and risks of the Fund include the investment strategies and risks of the WisdomTree Subsidiary.

As described more fully in the Trust's prospectus and Statement of Additional Information, the Fund will issue and redeem Shares on a continuous basis at their net asset value ("NAV") only in large blocks of 100,000 Shares (each, a "Creation Unit").

Creation Units will be issued and redeemed principally in-kind for securities included in the underlying index. Except when aggregated in Creation Units, the Shares may not be redeemed with the Fund.

The Fund intends to pay out dividends, if any, on a quarterly basis. The Fund intends to distribute its net realized capital gains, if any, to investors annually.

Shares are held in book-entry form, which means that no Share certificates are issued. The Depository Trust Company or its nominee is the record owner of all outstanding Shares of the Funds and is recognized as the owner of all Shares for all purposes.

The NAV per Share for the Fund is computed by dividing the value of the net assets of the Fund (i.e., the value of its total assets less total liabilities) by the total number of Shares outstanding. Expenses and fees are accrued daily and taken into account for purposes of determining NAV. The NAV of each Fund is determined each business day after the close of trading (ordinarily 4:00 p.m., Eastern Time or "ET") of the New York Stock Exchange. Any assets or liabilities denominated in currencies other than the U.S. dollar are converted into U.S. dollars at the current market rates on the date of valuation as quoted by one or more sources.

Please see the Fund's prospectus for more information regarding the Fund and its investment objective.

The registration statement for the Funds describes the various fees and expenses for the Funds' Shares. For a more complete description of the Funds and the underlying indexes, visit the Issuer Website.

Principal Risks

Interested persons are referred to the discussion in the prospectus for the Fund of the principal risks of an investment in the Fund. These include tracking error risk (factors causing the Fund's performance to not match the performance of the underlying index), market trading risk (for example, trading halts, trading above or below net asset value), investment style risk, sector risk, investment approach risk, non-diversification risk, commodity risk, debt risk and active management risk.

Exchange Rules Applicable to Trading in the Shares

Trading in the Shares on IEX is subject to IEX trading rules.

Trading Hours

The value of the Index underlying the Shares will be disseminated to data vendors every 15 seconds during the Regular Trading Session.

The Shares will trade on IEX between 8:00 a.m. and 5:00 p.m. Please note that trading in the Shares during the Exchange's Pre-Market and Post-Market Sessions ("Extended Market Sessions") may result in additional trading risks which include: (1) that the current underlying indicative value may not be updated

during the Extended Market Sessions, (2) lower liquidity in the Extended Market Sessions may impact pricing, higher volatility in the Extended Market Sessions may impact pricing, (4) wider spreads may occur in the Extended Markets Sessions, and (5) because the indicative value is not calculated or widely disseminated during the Extended Market Sessions, an investor who is unable to calculate an implied value for the Shares in those sessions may be at a disadvantage to market professionals.

Dissemination of Data

The Consolidated Tape Association will disseminate real time trade and quote information for the Shares to Tape B.

Delivery of a Prospectus

Exchange Members should be mindful of applicable prospectus delivery requirements under the federal securities laws with respect to transactions in the Fund. Prospectuses may be obtained through the Funds' website. The prospectus for the Fund does not contain all of the information set forth in the Funds' Registration Statement (including the exhibits to the Registration Statement), parts of which have been omitted in accordance with the rules and regulations of the SEC. For further information about the Fund, please refer to its Registration Statement.

In the event that the Fund relies upon an order by the SEC exempting the Shares from certain prospectus delivery requirements under Section 24(d) of the Investment Company Act of 1940 and in the future make available a written product description, Exchange Rules requires that Exchange Members provide to all purchasers of Shares a written description of the terms and characteristics of such securities, in a form prepared by the Issuer of the Fund, no later than the time a confirmation of the first transaction in the Shares is delivered to such purchaser. In addition, Exchange Members shall include such a written description with any sales material relating to the Shares that is provided to customers or the public. Any other written materials provided by an Exchange member to customers or the public making specific reference to the Shares as an investment vehicle must include a statement in substantially the following form: "A circular describing the terms and characteristics of [*the UTP Derivative Securities*] has been prepared by the [*open-ended management investment company name*] and is available from your broker. It is recommended that you obtain and review such circular before purchasing [*the UTP Derivative Securities*]."

An Exchange member carrying an omnibus account for a non-member broker-dealer is required to inform such non-member that execution of an order to purchase Shares for such omnibus account will be deemed to constitute agreement by the non-member to make such written description available to its customers on the same terms as are directly applicable to Exchange member under this rule.

Upon request of a customer, Exchange Members also shall provide a copy of the Prospectus.

Suitability

Trading in the securities on the Exchange will be subject to the provisions of IEX Rule 3.170 and other applicable suitability rules. Members recommending transactions in the securities to customers should make a determination that the recommendation is suitable for the customer.

Trading Halts

Exchange will halt trading in the Shares of a security in accordance with Exchange Rules. The grounds for a halt under Exchange Rules include a halt by the primary market because the intraday indicative value of the security and/or the value of its underlying index are not being disseminated as required, or a halt for other regulatory reasons. In addition, Exchange will stop trading the Shares of a security if the primary market de-lists the security.

Exemptive, Interpretive and No-Action Relief Under Federal Securities Regulations

The Securities and Exchange Commission (the "SEC") has issued letters granting exemptive, interpretive and no-action relief from certain provisions of rules under the Securities Exchange Act of 1934 for exchange-traded securities listed and traded on a registered national securities exchange that meet certain criteria.

AS WHAT FOLLOWS IS ONLY A SUMMARY OF THE RELIEF OUTLINED IN THE NO-ACTION LETTERS REFERENCED ABOVE, THE EXCHANGE ADVISES INTERESTED PARTIES TO CONSULT THE NO-ACTION LETTERS FOR MORE COMPLETE INFORMATION REGARDING THE MATTERS COVERED THEREIN AND THE APPLICABILITY OF THE RELIEF GRANTED IN RESPECT OF TRADING IN SECURITIES. INTERESTED PARTIES SHOULD ALSO CONSULT THEIR PROFESSIONAL ADVISORS.

Regulation M Exemptions

Generally, Rules 101 and 102 of Regulation M prohibit any "distribution participant" and its "affiliated purchasers" from bidding for, purchasing, or attempting to induce any person to bid for or purchase any security which is the subject of a distribution until after the applicable restricted period, except as specifically permitted in Regulation M. The provisions of the Rules apply to underwriters, prospective underwriters, brokers, dealers, and other persons who have agreed to participate or are participating in a distribution of securities.

The SEC has granted an exemption from Rule 101 under Regulation M to permit persons participating in a distribution of shares of the above-mentioned Fund to engage in secondary market transactions in such shares during their participation in such a distribution. In addition, the SEC has granted relief under Regulation M to permit persons who may be deemed to be participating in the distribution of Shares of the above-mentioned Fund (i) to purchase securities for the purpose of purchasing Creation Unit Aggregations of Fund Shares and (ii) to tender securities for redemption in Creation Unit Aggregations. Further, the SEC has clarified that the tender of Fund Shares to the Fund for redemption does not constitute a bid for or purchase of any of the Fund's securities during the restricted period of Rule 101. The SEC has also granted an exemption pursuant to paragraph (e) of Rule 102 under Regulation M to allow the redemption of Fund Shares in Creation Unit Aggregations during the continuous offering of Shares.

Rule 10b-10 (Customer Confirmations for Creation or Redemption of Fund Shares)

Broker-dealers who handle purchases or redemptions of Fund Shares in Creation Unit size for customers will be permitted to provide such customers with a statement of the number of Creation Unit Aggregations created or redeemed without providing a statement of the identity, number and price of shares of the individual securities tendered to the Fund for purposes of purchasing Creation Unit Aggregations (“Deposit Securities”) or the identity, number and price of shares to be delivered by the Trust for the Fund to the redeeming holder (“Redemption Securities”). The composition of the securities required to be tendered to the Fund for creation purposes and of the securities to be delivered on redemption will be disseminated each business day and will be applicable to requests for creations or redemption, as the case may be, on that day. This exemptive relief under Rule 10b-10 with respect to creations and redemption is subject to the following conditions:

- 1) Confirmations to customers engaging in creations or redemptions must state that all information required by Rule 10b-10 will be provided upon request;
- 2) Any such request by a customer for information required by Rule 10b-10 will be filed in a timely manner, in accordance with Rule 10b-10(c); and
- 3) Except for the identity, number, and price of shares of the component securities of the Deposit Securities and Redemption Securities, as described above, confirmations to customers must disclose all other information required by Rule 10b-10(a).

Rule 10b-17 (Untimely Announcement of Record Dates)

The SEC has granted an exemption from the requirements of Rule 10b-17 that will cover transactions in the Shares.

Section 11(d)(1); Rule 11d1-2 (Customer Margin)

The SEC has taken a no-action position under Section 11(d)(1) that will permit broker-dealers that do not create Shares but engage in both proprietary and customer transactions in such Shares exclusively in the secondary market to extend or maintain or arrange for the extension or maintenance of credit on the Shares, in connection with such secondary market transactions. For broker-dealers that engage in the creation of Shares, the SEC has also taken a no-action position under Rule 11d1-2 that will cover the extension or maintenance or the arrangement for the extension or maintenance of credit on the Shares that have been owned by the persons to whom credit is provided for more than 30 days.

Rule 14e-5

An exemption from Rule 14e-5 has been granted to permit any person acting as a dealer-manager of a tender offer for a component security of the Fund (1) to redeem Fund Shares in Creation Unit Aggregations from the issuer that may include a security subject to such tender offer and (2) to purchase Fund Shares during such tender offer. In addition, a no-action position has been taken under Rule 14e-5 if a broker-dealer acting as a dealer-manager of a tender offer for a security of the Fund purchases or arranges to purchase such securities in the secondary market for the purpose of tendering such securities to purchase one or more Creation Unit Aggregations of Shares, if made in conformance

with the following:

- 1) such bids or purchases are effected in the ordinary course of business, in connection with a basket of 20 or more securities in which any security that is the subject of a distribution, or any reference security, does not comprise more than 5% of the value of the basket purchase; or
- 2) purchases are effected as adjustments to such basket in the ordinary course of business as a result of a change in the composition of the underlying index; and
- 3) such bids or purchases are not effected for the purpose of facilitating such tender offer.

SEC Rule 15c1-5 and 15c1-6 (Disclosure of Control and interest in Distributions)

The SEC has taken a no-action position under Rule 15c1-5 that will permit a broker-dealer to execute transactions in Shares without disclosing any control relationship with an issuer of a component security. In addition, the SEC has taken a no-action position under Rule 15c1-6 that will permit a broker dealer to execute transactions in the Shares without disclosing its participation or interest in a primary or secondary distribution of a component security.

This Information Circular is not a statutory prospectus. Members should consult the prospectus for a security and the security's website for relevant information.

Please contact IEX Regulation at 646-343-2000 with any inquiries regarding this Information Circular.
