

## Investors Exchange Product Information Circular 2016 - 0428

**Date:** August 31, 2016

**Re:** United States Agriculture Index Fund

Investors Exchange LLC commenced operating as a national securities exchange on August 19, 2016 followed by a two-week security-by-security phase-in period. This Information Circular is being issued to advise you that the following security has been approved for trading pursuant to unlisted trading privileges (“UTP”) on the Exchange as UTP Derivative Securities pursuant to IEX Rule 16.160, and will begin trading on IEX during the phase-in period. See [the Exchange’s Website](#) for the phase-in schedule.

<b><u>Securities (the “Funds”)</u></b>	<b><u>Symbol</u></b>
United States Agriculture Index Fund	USAG

**Issuer Website:** [www.unitedstatesagricultureindexfund.com](http://www.unitedstatesagricultureindexfund.com)

**Primary Listing Exchange:** NYSE Arca

Compliance and supervisory personnel should note that, among other things, this Information Circular discusses the need to deliver a prospectus to customers purchasing shares (“Shares”) issued by the United States Agriculture Index Fund. Please forward this Information Circular to other interested persons within your organization.

The purpose of this information circular is to outline various rules and policies that will be applicable to trading in these new products pursuant to the Exchange’s unlisted trading privileges, as well as to provide certain characteristics and features of the Shares. For a more complete description of the Issuer, the Shares and the underlying market instruments or indexes, visit the Issuer Website, consult the Prospectus available on the Issuer Website or examine the Issuer Registration Statement or review the most current information bulletin issued by the Primary Listing Exchange. The Issuer Website, the Prospectus and the Issuer Registration Statement are hereafter collectively referred to as the “Issuer Disclosure Materials.”

### **Background Information on the Fund**

As more fully explained in the Registration Statement (No. 333-170844), the United States Agriculture Index Fund (the “Fund” or “USAG”), is a commodity pool that is not registered as an investment company under the Investment Company Act of 1940. Each Unit of the Fund (the “Unit” or “Units” or “Shares”) represents a fractional undivided beneficial interest in the net assets of the Fund. USAG is not a mutual fund registered under the Investment Company Act of 1940 and is not subject to regulation under such Act.

The investment objective of the Fund is for the daily changes in percentage terms of its Units’ net asset value (“NAV”) to reflect the daily changes in percentage terms of the SummerHaven Agriculture Index Total Return (the “Agriculture Index”), less the Fund’s expenses. The Agriculture Index is designed as a benchmark for investors seeking attractive risk-adjusted returns on a portfolio of agricultural commodity futures contracts. The Fund’s sponsor does not intend to operate the Fund in a fashion such

that its per unit NAV will equal, in dollar terms, the spot price of the agricultural commodities underlying the futures contracts that comprise the Agriculture Index from time to time.

The sponsor of the Fund is United States Commodity Funds LLC (the “Sponsor”), a Delaware limited liability company that is registered as a commodity pool operator with the Commodity Futures Trading Commission and is a member of the National Futures Association. The Sponsor controls the operations of the Fund and will employ a trading advisor for the Fund, as necessary. Currently, the sole trading advisor for the Fund is SummerHaven Investment Management, LLC.

The Agriculture Index is designed to reflect the performance of a diversified group of agricultural commodities. The Agriculture Index is owned and maintained by SummerHaven Indexing and calculated and published by the NYSE Arca. Futures contracts for the agricultural commodities comprising the Agriculture Index are traded on ICE Futures US, ICE Futures Canada, the Chicago Board of Trade (“CBOT”), the Kansas City Board of Trade (“KCBT”) and the Chicago Mercantile Exchange (“CME”) and are collectively referred to herein as “Eligible Agriculture Futures Contracts.” The Agriculture Index is comprised of 14 Eligible Agriculture Futures Contracts that are selected on a monthly basis based on quantitative formulas developed by SummerHaven Indexing. The Eligible Agriculture Futures Contracts that at any given time make up the Agriculture Index are referred to herein as “Benchmark Component Agriculture Futures Contracts.” The relative weighting of the Benchmark Component Agriculture Futures Contracts will change on a monthly basis, based on quantitative formulas relating to the prices of the Benchmark Component Agriculture Futures Contracts developed by SummerHaven Indexing.

USAG will seek to achieve its investment objective by investing to the fullest extent possible in Benchmark Component Agriculture Futures Contracts. Then, if constrained by regulatory requirements, such as those described in the Fund’s prospectus, or in view of market conditions, USAG will invest next in other Eligible Agriculture Futures Contracts based on the same agricultural commodity as the futures contracts subject to such regulatory constraints or market conditions, and finally, to a lesser extent, in other exchange traded futures contracts that are economically identical or substantially similar to the Benchmark Component Agriculture Futures Contracts, if one or more Eligible Agriculture Futures Contracts is not available. When USAG has invested to the fullest extent possible in exchange-traded futures contracts, USAG may then invest in other contracts and instruments based on the Benchmark Component Agriculture Futures Contracts or the agricultural commodities included in the Agriculture Index, such as cash-settled options, forward contracts, cleared swap contracts and swap contracts other than cleared swap contracts. Other exchange-traded futures contracts that are economically identical or substantially similar to the Benchmark Component Agriculture Futures Contracts and other contracts and instruments based on the Benchmark Component Agriculture Futures Contracts, as well as metals included in the Agriculture Index, are collectively referred to as “Other Agriculture-Related Interests,” and together with Benchmark Component Agriculture Futures Contracts and other Eligible Agriculture Futures Contracts, “Agriculture Interests.”

The benchmark for the Fund is the Agriculture Index. The Sponsor endeavors to place the Fund’s trades in Agriculture Interests and otherwise manage the Fund’s investments so that “A” will be within plus/minus 10 percent of “B,” where:

- A is the average daily percentage change in the Fund’s NAV for any period of 30 successive NYSE Arca trading days as of which the Fund calculates its NAV (each such trading day, a “Valuation Day”); and
- B is the average daily percentage change in the Agriculture Index over the same period.

The Sponsor believes that market arbitrage opportunities will cause the Fund’s Unit price on the NYSE

Arca to closely track the Fund's NAV per Unit. The Sponsor believes that the net effect of this expected relationship and the expected relationship described above between the Fund's NAV and the Agriculture Index will be that the changes in the price of the Fund's Units on the NYSE Arca will closely track, in percentage terms, changes in the Agriculture Index, less the Fund's expenses.

The Fund will invest in Agriculture Interests to the fullest extent possible without being leveraged or unable to satisfy its expected current or potential margin or collateral obligations with respect to its investments in Agriculture Interests. The primary focus of the Sponsor is the investment in Agriculture Interests and the management of the Fund's investments in Treasuries, cash and/or cash equivalents.

The Sponsor will employ a "neutral" investment strategy for the Fund intended to track the changes in the Agriculture Index regardless of whether the Agriculture Index goes up or goes down. The Fund's "neutral" investment strategy is designed to permit investors generally to purchase and sell the Fund's Units for the purpose of investing indirectly in the agricultural commodities market in a cost-effective manner, and/or to permit participants in the commodities or other industries to hedge the risk of losses in their agriculture-related transactions. Accordingly, depending on the investment objective of an individual investor, the risks generally associated with investing in the commodities market and/or the risks involved in hedging may exist. In addition, an investment in the Fund involves the risks that the changes in the price of the Fund's Units will not accurately track the changes in the Agriculture Index, and that changes in the Agriculture Index will not closely correlate with changes in the spot price of agricultural commodities underlying the Benchmark Component Agriculture Futures Contracts.

The Fund's investment objective is for the daily changes in percentage terms of its Units' NAV to reflect the daily changes in percentage terms of the Agriculture Index, not to have the market price of its Units match, dollar for dollar, changes in the price of the Agriculture Index or agricultural commodities underlying the Benchmark Component Agriculture Futures Contracts that make up the Agriculture Index. Contango and backwardation may impact the total return on investment in Units of the Fund relative to a hypothetical direct investment in agricultural commodities underlying the Benchmark Component Agriculture Futures Contracts that make up the Agriculture Index and, in the future, it is likely that the relationship between the market prices of the Fund's Units and changes in the spot price of agricultural commodities underlying the Benchmark Component Agriculture Futures Contracts that make up the Agriculture Index could be impacted by contango and backwardation. It is important to note that this comparison ignores the potential costs associated with physically owning and storing agricultural commodities, which could be substantial. For a more in-depth discussion of the impact of contango and backwardation, see "Risk Factors — Risks Specific to the Fund — The price relationship between the Agriculture Index at any point in time and the Benchmark Component Agriculture Futures Contracts will vary and may impact both the Fund's total return and the degree to which its total return tracks that of commodity price indices" in this prospectus.

Furthermore, the Fund also invests in Treasuries and holds cash and/or cash equivalents to meet its current or potential margin or collateral requirements with respect to its investments in Agriculture Interests and invests cash not required to be used as margin or collateral. There is not expected to be any meaningful correlation between the performance of the Fund's investments in Treasuries, cash or cash equivalents and the changes in the price of the Agriculture Index. While the level of interest earned on or the market price of these investments may in some respect correlate to changes in the price of agricultural commodities, this correlation is not anticipated as part of the Fund's efforts to meet its objective. This and certain risk factors discussed in this prospectus may cause a lack of correlation between changes in the Fund's NAV and changes in the price of the Agriculture Index. The Sponsor does not intend to operate the Fund in a fashion such that its per Unit NAV will equal, in dollar terms, the spot price of the agricultural commodities underlying the Benchmark Component Agriculture

Futures Contracts that comprise the Agriculture Index from time to time.

The Fund creates Units only in Creation Baskets and redeems Units only in blocks of 100,000 Units called Redemption Baskets. Only Authorized Purchasers may purchase or redeem Creation Baskets or Redemption Baskets, respectively. An Authorized Purchaser is under no obligation to create or redeem baskets, and an Authorized Purchaser is under no obligation to offer to the public Units of any baskets it does create. Baskets are generally created when there is a demand for Units, including, but not limited to, when the market price per Unit is at a premium to the NAV per Unit. Authorized Purchasers will then sell such Units, which will be listed on the NYSE Arca, to the public at per Unit offering prices that are expected to reflect, among other factors, the trading price of the Units on the NYSE Arca, the NAV of the Fund at the time the Authorized Purchaser purchased the Creation Baskets and the NAV at the time of the offer of the Units to the public, the supply of and demand for Units at the time of sale, and the liquidity of the Benchmark Component Agriculture Futures Contracts and Other Agriculture -Related Investments.

Baskets are generally redeemed when the market price per Unit is at a discount to the NAV per Unit. Retail investors seeking to purchase or sell Units on any day will effect such transactions in the secondary market, on the NYSE Arca, at the market price per Unit, rather than in connection with the creation or redemption of baskets.

All proceeds from the sale of Creation Baskets will be invested as quickly as practicable in the investments described in this prospectus. Investments and related margin or collateral are held through the custodian for the Fund, Brown Brothers Harriman & Co. (“BBH&Co.” or the “Custodian”), in accounts with the Fund’s commodity futures broker, Newedge USA, LLC (“Newedge”), or, in some instances when agreed to by the Fund, in collateral accounts held by third parties with respect to its non-exchange traded or cleared over-the-counter Agriculture Interests. There is no stated maximum time period for the Fund’s operations and the Fund will continue until all its Units are redeemed or the Fund is liquidated pursuant to the terms of the Trust Agreement.

There is no specified limit on the maximum amount of Creation Baskets that can be sold. At some point, position limits on certain Benchmark Component Agriculture Futures Contracts or Other Agriculture-Related Investments may practically limit the number of Creation Baskets that will be sold for the Fund if the Sponsor determines that the other investment alternatives available to the Fund at that time will not enable it to meet its stated investment objective.

Units may also be purchased and sold by individuals and entities that are not Authorized Purchasers in smaller increments than Creation Baskets on the NYSE Arca. However, these transactions are effected at bid and ask prices established by specialist firm(s). Like any listed security, Units of the Fund can be purchased and sold at any time a secondary market is open.

Other than to address monthly changes in the Benchmark Component Agriculture Futures Contracts, in managing the Fund’s assets, the Sponsor does not use a technical trading system that automatically issues buy and sell orders. Instead, each time one or more baskets are purchased or redeemed, the Sponsor will purchase or sell Agriculture Interests with an aggregate market value that approximates the amount of cash received or paid upon the purchase or redemption of the basket(s).

Note to Secondary Market Investors: The Units can be directly purchased from or redeemed by the Fund only in Creation Baskets or Redemption Baskets, respectively, and only by Authorized Purchasers. Each Creation Basket and Redemption Basket consists of 100,000 Units and is expected to be worth millions of dollars. Individual investors, therefore, will not be able to directly purchase Units from or redeem Units with the Fund. Some of the information contained in this prospectus, including

information about buying and redeeming Units directly from and to the Fund is only relevant to Authorized Purchasers. Units of the Fund are listed and traded on the NYSE Arca and may be purchased and sold as individual Units. Individuals interested in purchasing Units in the secondary market should contact their broker. Units purchased or sold through a broker may be subject to commissions.

Please see the Funds' prospectus for more information regarding the Funds and their investment objectives.

The registration statement for the Funds describes the various fees and expenses for the Funds' Shares. For a more complete description of the Funds and the Underlying Indexes, visit the Issuer Website.

### **Principal Risks**

Interested persons are referred to the discussion in the prospectus for the Fund of the principal risks of an investment in the Fund. These include tracking error risk (factors causing the Fund's performance to not match the performance of the underlying index), market trading risk (for example, trading halts, trading above or below net asset value), investment style risk, sector risk, investment approach risk, non-diversification risk, concentration risk, agriculture industry risk and commodity risk.

### **Exchange Rules Applicable to Trading in the Shares**

Trading in the Shares on IEX is subject to IEX trading rules.

### **Trading Hours**

The value of the Index underlying the Shares will be disseminated to data vendors every 15 seconds during the Regular Trading Session.

The Shares will trade on IEX between 8:00 a.m. and 5:00 p.m. Please note that trading in the Shares during the Exchange's Pre-Market and Post-Market Sessions ("Extended Market Sessions") may result in additional trading risks which include: (1) that the current underlying indicative value may not be updated during the Extended Market Sessions, (2) lower liquidity in the Extended Market Sessions may impact pricing, (3) higher volatility in the Extended Market Sessions may impact pricing, (4) wider spreads may occur in the Extended Markets Sessions, and (5) because the indicative value is not calculated or widely disseminated during the Extended Market Sessions, an investor who is unable to calculate an implied value for the Shares in those sessions may be at a disadvantage to market professionals.

### **Dissemination of Data**

The Consolidated Tape Association will disseminate real time trade and quote information for the Shares to Tape B.

<i>Name</i>	<i>Listing Market</i>	<i>Trading Symbol</i>	<i>IOPV Symbol</i>	<i>NAV Symbol</i>
United States Agriculture Index Fund	NYSE Arca	USAG	USAG.IV	USAG.NV

### **Delivery of a Prospectus**

Exchange Members should be mindful of applicable prospectus delivery requirements under the federal securities laws with respect to transactions in the Fund. Prospectuses may be obtained through the Fund's website. The prospectus for the Fund does not contain all of the information set forth in the Fund's Registration Statement (including the exhibits to the Registration Statement), parts of which have been omitted in accordance with the rules and regulations of the SEC. For further information about the Fund, please refer to its Registration Statement.

In the event that the Fund relies upon an order by the SEC exempting the Shares from certain prospectus delivery requirements under Section 24(d) of the 1940 Act and in the future make available a written product description, Exchanges require that Exchange Members provide to all purchasers of Shares a written description of the terms and characteristics of such securities, in a form prepared by the Issuer of the Fund, no later than the time a confirmation of the first transaction in the Shares is delivered to such purchaser. In addition, Exchange Members shall include such a written description with any sales material relating to the Shares that is provided to customers or the public. Any other written materials provided by a Exchange member to customers or the public making specific reference to the Shares as an investment vehicle must include a statement in substantially the following form: "A circular describing the terms and characteristics of [*the UTP Derivative Securities*] has been prepared by the [*open-ended management investment company name*] and is available from your broker. It is recommended that you obtain and review such circular before purchasing [*the UTP Derivative Securities*]."

A Exchange member carrying an omnibus account for a non-member broker-dealer is required to inform such non-member that execution of an order to purchase Shares for such omnibus account will be deemed to constitute agreement by the non-member to make such written description available to its customers on the same terms as are directly applicable to Exchange member under this rule.

Upon request of a customer, Exchange Members also shall provide a copy of the Prospectus.

### **Suitability**

Trading in the securities on the Exchange will be subject to the provisions of IEX Rule 3.170 and other applicable suitability rules. Members recommending transactions in the securities to customers should make a determination that the recommendation is suitable for the customer.

### **Trading Halts**

Exchange will halt trading in the Shares of a security in accordance with Exchange Rules. The grounds for a halt include a halt because the intraday indicative value of the security and/or the value of its underlying index are not being disseminated as required, a halt for other regulatory reasons or due to other conditions or circumstances deemed to be detrimental to the maintenance of a free and orderly market.

### **Exemptive, Interpretive and No-Action Relief Under Federal Securities Regulations**

The Securities and Exchange Commission (the “SEC”) has issued letters granting exemptive, interpretive and no-action relief from certain provisions of rules under the Securities Exchange Act of 1934 for exchange-traded securities listed and traded on a registered national securities exchange that meet certain criteria.

**AS WHAT FOLLOWS IS ONLY A SUMMARY OF THE RELIEF OUTLINED IN THE NO-ACTION LETTERS REFERENCED ABOVE, THE EXCHANGE ADVISES INTERESTED PARTIES TO CONSULT THE NO-ACTION LETTERS FOR MORE COMPLETE INFORMATION REGARDING THE MATTERS COVERED THEREIN AND THE APPLICABILITY OF THE RELIEF GRANTED IN RESPECT OF TRADING IN SECURITIES. INTERESTED PARTIES SHOULD ALSO CONSULT THEIR PROFESSIONAL ADVISORS.**

### **Regulation M Exemptions**

Generally, Rules 101 and 102 of Regulation M prohibit any “distribution participant” and its “affiliated purchasers” from bidding for, purchasing, or attempting to induce any person to bid for or purchase any security which is the subject of a distribution until after the applicable restricted period, except as specifically permitted in Regulation M. The provisions of the Rules apply to underwriters, prospective underwriters, brokers, dealers, and other persons who have agreed to participate or are participating in a distribution of securities.

The SEC has granted an exemption from Rule 101 under Regulation M to permit persons participating in a distribution of shares of the above-mentioned Funds to engage in secondary market transactions in such shares during their participation in such a distribution. In addition, the SEC has granted relief under Regulation M to permit persons who may be deemed to be participating in the distribution of Shares of the above-mentioned Funds (i) to purchase securities for the purpose of purchasing Creation Unit Aggregations of Fund Shares and (ii) to tender securities for redemption in Creation Unit Aggregations. Further, the SEC has clarified that the tender of Fund Shares to the Funds for redemption does not constitute a bid for or purchase of any of the Funds’ securities during the restricted period of Rule 101. The SEC has also granted an exemption pursuant to paragraph (e) of Rule 102 under Regulation M to allow the redemption of Fund Shares in Creation Unit Aggregations during the continuous offering of Shares.

### **Rule 10b-10 (Customer Confirmations for Creation or Redemption of Fund Shares)**

Broker-dealers who handle purchases or redemptions of Fund Shares in Creation Unit size for customers will be permitted to provide such customers with a statement of the number of Creation Unit Aggregations created or redeemed without providing a statement of the identity, number and price of shares of the individual securities tendered to the Funds for purposes of purchasing Creation Unit

Aggregations (“Deposit Securities”) or the identity, number and price of shares to be delivered by the Trust for the Funds to the redeeming holder (“Redemption Securities”). The composition of the securities required to be tendered to the Funds for creation purposes and of the securities to be delivered on redemption will be disseminated each business day and will be applicable to requests for creations or redemption, as the case may be, on that day. This exemptive relief under Rule 10b-10 with respect to creations and redemption is subject to the following conditions:

- 1) Confirmations to customers engaging in creations or redemptions must state that all information required by Rule 10b-10 will be provided upon request;
- 2) Any such request by a customer for information required by Rule 10b-10 will be filed in a timely manner, in accordance with Rule 10b-10(c); and
- 3) Except for the identity, number, and price of shares of the component securities of the Deposit Securities and Redemption Securities, as described above, confirmations to customers must disclose all other information required by Rule 10b-10(a).

#### **Section 11(d)(1); Rules 11d1-1 and 11d1-2**

Section 11(d)(1) of the Act generally prohibits a person who is both a broker and a dealer from effecting any transaction in which the broker-dealer extends credit to a customer on any security which was part of a new issue in the distribution of which he participated as a member of a selling syndicate or group within thirty days prior to such transaction. The SEC has clarified that Section 11(d)(1) does not apply to broker-dealers that are not Authorized Participants (and, therefore, do not create Creation Unit Aggregations) that engage in both proprietary and customer transactions in Shares of a Fund in the secondary market, and for broker-dealer Authorized Participants that engage in creations of Creation Unit Aggregations. This relief is subject to specific conditions, including the condition that such broker-dealer (whether or not an Authorized Participant) does not, directly or indirectly, receive from the Fund complex any payment, compensation or other economic incentive to promote or sell the Shares of a Fund to persons outside the fund complex, other than non-cash compensation permitted under NASD Rule 2830(l)(5)(A), (B) or (C). (See letter from Catherine McGuire, Chief Counsel, SEC Division of Market Regulation, to Securities Industry Association, Derivative Products Committee, dated November 21, 2005.) The SEC also has taken a no-action position under Section 11(d)(1) of the Act that broker-dealers may treat Shares of a Fund, for purposes of Rule 11d1-2, as “securities issued by a registered open-end investment company as defined in the Investment Company Act” and thereby extend credit or maintain or arrange for the extension or maintenance of credit on Shares that have been owned by the persons to whom credit is provided for more than 30 days, in reliance on the exemption contained in the rule.

#### **Rule 14e-5**

An exemption from Rule 14e-5 has been granted to permit any person acting as a dealer-manager of a tender offer for a component security of the Funds (1) to redeem Fund Shares in Creation Unit Aggregations from the issuer that may include a security subject to such tender offer and (2) to purchase Fund Shares during such tender offer. In addition, a no-action position has been taken under Rule 14e-5 if a broker-dealer acting as a dealer-manager of a tender offer for a security of the Fund purchases or arranges to purchase such securities in the secondary market for the purpose of tendering such securities to purchase one or more Creation Unit Aggregations of Shares, if made in conformance with the following:

- 1) such bids or purchases are effected in the ordinary course of business, in connection with a basket of 20 or more securities in which any security that is the subject of a distribution, or any reference security, does not comprise more than 5% of the value of the basket purchase; or
- 2) purchases are effected as adjustments to such basket in the ordinary course of business as a result of a change in the composition of the underlying index; and
- 3) such bids or purchases are not effected for the purpose of facilitating such tender offer.

**SEC Rule 15c1-5 and 15c1-6**

The SEC has taken a no-action position with respect to Rule 15c1-5 and Rule 15c1-6 as to the required disclosure of control by a broker or dealer with respect to creations and redemptions of Fund Shares and secondary market transactions therein. (See letter from Catherine McGuire, Chief Counsel, SEC Division of Market Regulation, to Securities Industry Association, Derivative Products Committee, dated November 21, 2005.)

**This Information Circular is not a statutory prospectus. Members should consult the prospectus for a security and the security's website for relevant information.**
