**Primary Exchange Circular:** RB-11-70 (May 25, 2011)

**Registration Statement:** No. 333-156695

The purpose of this information circular is to outline various rules and policies that will be applicable to trading in this new product on the Exchange, as well as to provide certain characteristics and features of the Notes.

### **Background Information on the Notes**

UBS AG (the “Issuer”) has issued 2X Leveraged Long Exchange Traded Access Securities (“E-TRACS” or “Notes”) linked to the Wells Fargo Business Development Company Index (the “Index”). The maturity date is May 24, 2041. The ETRACSs may pay a quarterly coupon during their term. The Notes were priced at \$25 each.

For each Note, unless earlier redeemed or called, investors will receive at maturity a cash payment equal to (a) the product of (i) the Current Principal Amount and (ii) the Index Factor as of the last Index Business Day in the Final Measurement Period plus (b) the final Coupon Amount if on the last Index Business Day in the Final Measurement Period the Coupon Ex-Date with respect to the final Coupon Amount has not yet occurred, plus (c) the Stub Reference Distribution Amount as of the last Index Business Day in the Final Measurement Period, if any, minus (d) the Accrued Fees as of the last Index Business Day in the Final Measurement Period. This cash payment is referred to as the “Cash Settlement Amount.” If the amount so calculated is less than zero, the payment at maturity will be zero.

The Index Factor equals  $1 + (2 \times \text{Index Performance Ratio})$ . The Index Performance Ratio, on any on any Monthly Valuation Date, any Redemption Valuation Date, or as of the last Index Business Day during the Final Measurement Period, will be equal to:

$\text{Index Valuation Level} - \text{Monthly Initial Closing Level} / \text{Monthly Initial Closing Level}$

The Index is intended to measure the performance of all business development companies listed on the New York Stock Exchange or The NASDAQ Stock Market, Inc. that satisfy specified market capitalization and other eligibility requirements.

Please see the prospectus for the Notes for more details regarding the calculations and details.

It is expected that the market value of the Notes will depend substantially on the value of the Index and may be affected by a number of other interrelated factors including, among other things: the general level of interest rates, the volatility of the Index, the time remaining to maturity, the dividend yield of the stocks comprising the Index, and the credit ratings of the Issuer.

#### **Exchange Rules Applicable to Trading in the Notes**

Trading in the Shares on IEX is subject to IEX trading rules.

#### **Trading Hours**

The Shares will trade on IEX between 8:00 a.m. and 5:00 p.m. Please note that trading in the Shares during the Exchange's Pre-Market and Post-Market Sessions ("Extended Market Sessions") may result in additional trading risks which include: (1) that the current underlying indicative value may not be updated during the Extended Market Sessions, (2) lower liquidity in the Extended Market Sessions may impact pricing, (3) higher volatility in the Extended Market Sessions may impact pricing, (4) wider spreads may occur in the Extended Markets Sessions, and (5) because the indicative value is not calculated or widely disseminated during the Extended Market Sessions, an investor who is unable to calculate an implied value for the Shares in those sessions may be at a disadvantage to market professionals.

#### **Suitability**

Trading in the securities on the Exchange will be subject to the provisions of IEX Rule 3.170 and other applicable suitability rules. Members recommending transactions in the securities to customers should make a determination that the recommendation is suitable for the customer.

#### **Trading Halts**

IEX will halt trading in the shares of a security in accordance with IEX Rules. The grounds for a halt under IEX Rules include a halt by the primary market because the intraday indicative value of the security and/or the value of its underlying index are not being disseminated as required, or a halt for other regulatory reasons. In addition, the IEX will stop trading the shares of a security if the primary market de-lists the security.

**This Information Circular is not a statutory prospectus. Members should consult the prospectus for a security and the security's website for relevant information.**
