

Investors Exchange Product Information Circular 2016 - 0451

Date: August 31, 2016

Re: Teucrium Agricultural Fund

Investors Exchange LLC commenced operating as a national securities exchange on August 19, 2016 followed by a two-week security-by-security phase-in period. This Information Circular is being issued to advise you that the following security has been approved for trading pursuant to unlisted trading privileges (“UTP”) on the Exchange as UTP Derivative Securities pursuant to IEX Rule 16.160, and will begin trading on IEX during the phase-in period. See [the Exchange’s Website](#) for the phase-in schedule.

Teucrium Agricultural Fund	TAGS
----------------------------	------

Issuer/Trust: Teucrium Commodity Trust

Issuer Website: www.teucriumtagsfund.com

Primary Listing Exchange: NYSE Arca

Compliance and supervisory personnel should note that, among other things, this Information Circular discusses the need to deliver a prospectus to customers purchasing shares (“Shares”) issued by the Teucrium Commodity Trust (“Trust”). Please forward this Information Circular to other interested persons within your organization.

The purpose of this information circular is to outline various rules and policies that will be applicable to trading in these new products pursuant to the Exchange’s unlisted trading privileges, as well as to provide certain characteristics and features of the Shares. For a more complete description of the Issuer, the Shares and the underlying market instruments or indexes, visit the Issuer Website, consult the Prospectus available on the Issuer Website or examine the Issuer Registration Statement or review the most current information bulletin issued by the Primary Listing Exchange. The Issuer Website, the Prospectus and the Issuer Registration Statement are hereafter collectively referred to as the “Issuer Disclosure Materials.”

Background Information on the Fund

As more fully explained in the prospectus, the Teucrium Agricultural Fund (the “Fund” or “TAGS”), is a commodity pool that is not registered as an investment company under the Investment Company Act of 1940. Each Unit of the Fund (the “Unit” or “Units” or “Shares”) represents a fractional undivided beneficial interest in the net assets of the Fund. CRUD is not a mutual fund registered under the Investment Company Act of 1940 and is not subject to regulation under such Act.

The Fund is a commodity pool that will issue common units representing fractional undivided beneficial interests in the Fund that may be purchased and sold on the NYSE Arca. The Fund is a series of the Trust, a Delaware statutory trust organized on September 11, 2009. The Fund is one of seven series of

the Trust; each series operates as a separate commodity pool. Additional series of the Trust may be created in the future. The Trust and the Fund operate pursuant to the Trust's Second Amended and Restated Declaration of Trust and Trust Agreement (the "Trust Agreement"). The Fund was formed and is managed and controlled by the Sponsor, Teucrium Trading, LLC. The Sponsor is a limited liability company formed in Delaware on July 28, 2009 that is registered as a commodity pool operator ("CPO") with the Commodity Futures Trading Commission ("CFTC") and is a member of the National Futures Association ("NFA"). The Sponsor first intends to use this prospectus on or about March 26, 2012, the date of this prospectus.

The investment objective of the Fund is to have the daily changes in percentage terms of the Shares' NAV reflect the daily changes in percentage terms of a weighted average (the "Underlying Fund Average") of the NAVs per share of four other commodity pools that are series of the Trust and are sponsored by the Sponsor: The Teucrium Corn Fund, the Teucrium Wheat Fund, the Teucrium Soybean Fund and the Teucrium Sugar Fund (collectively, the "Underlying Funds"). The Fund seeks to achieve its investment objective by investing under normal market conditions in the publicly-traded shares of each Underlying Fund so that the Underlying Fund Average will have a weighting of 25% to each Underlying Fund, and the Fund's assets will be rebalanced, generally on a daily basis, to maintain the approximate 25% allocation to each Underlying Fund. The Fund does not intend to invest directly in futures contracts ("Futures Contracts"), although it reserves the right to do so in the future, including if an Underlying Fund ceases operations or if shares of an Underlying Fund cease trading on NYSEArca.

The investment objective of each Underlying Fund is to have the daily changes in percentage terms of its shares' NAV reflect the daily changes in percentage terms of a weighted average of the closing settlement prices for certain Futures Contracts for the commodity specified in the Underlying Fund's name. (This weighted average is referred to herein as the Underlying Fund's "Benchmark," the Futures Contracts that at any given time make up an Underlying Fund's Benchmark are referred to herein as the Underlying Fund's "Benchmark Component Futures Contracts," and the commodity specified in the Underlying Fund's name is referred to herein as its "Specified Commodity.") Specifically, the Teucrium Corn Fund's Benchmark is: (1) the second-to-expire Futures Contract for corn traded on the Chicago Board of Trade ("CBOT"), weighted 35%, (2) the third-to-expire CBOT corn Futures Contract, weighted 30%, and (3) the CBOT corn Futures Contract expiring in the December following the expiration month of the third-to-expire contract, weighted 35%. The Teucrium Wheat Fund's Benchmark is: (1) the second-to-expire CBOT wheat Futures Contract, weighted 35%, (2) the third-to-expire CBOT wheat Futures Contract, weighted 30%, and (3) the CBOT wheat Futures Contract expiring in the December following the expiration month of the third-to-expire contract, weighted 35%. The Teucrium Soybean Fund's Benchmark is: (1) the second-to-expire CBOT soybean Futures Contract, weighted 35%, (2) the third-to-expire CBOT soybean Futures Contract, weighted 30%, and (3) the CBOT soybean Futures Contract expiring in the November following the expiration month of the third-to-expire contract, weighted 35%, except that CBOT soybean Futures Contracts expiring in August and September will not be part of the Teucrium Soybean Fund's Benchmark because of the less liquid market for these Futures Contracts. The Teucrium Sugar Fund's Benchmark is: (1) the second-to-expire Sugar No. 11 Futures Contract traded on ICE Futures US ("ICE Futures"), weighted 35%, (2) the third-to-expire ICE Futures Sugar No. 11 Futures Contract, weighted 30%, and (3) the ICE Futures Sugar No. 11 Futures Contract expiring in the March following the expiration month of the third-to-expire contract, weighted 35%. (Although sugar Futures Contracts are primarily traded on the ICE Futures, they may also be traded on the New York Mercantile Exchange ("NYMEX"). Any reference to the ICE Futures in relation to the Teucrium Sugar Fund should also be read as a reference to NYMEX.)

Each Underlying Fund seeks to achieve its investment objective by investing under normal market conditions in Benchmark Component Futures Contracts or, in certain circumstances, in other Futures Contracts for its Specified Commodity. In addition, and to a limited extent, an Underlying Fund also may

invest in exchange-traded options on Futures Contracts for its Specified Commodity and in swap agreements based on its Specified Commodity that are cleared through a futures exchange or its affiliated provider of clearing services (“Cleared Swaps”) in furtherance of the Underlying Fund’s investment objective. Once position limits or accountability levels on Futures Contracts on an Underlying Fund’s Specified Commodity are applicable, each Underlying Fund’s intention is to invest first in Cleared Swaps based on its Specified Commodity, to the extent practicable under the position limits or accountability levels applicable to such Cleared Swaps and appropriate in light of the liquidity in the market for such Cleared Swaps, and then in contracts and instruments such as cash-settled options on Futures Contracts and forward contracts, swaps other than Cleared Swaps, and other over-the-counter transactions that are based on the price of its Specified Commodity or Futures Contracts on its Specified Commodity (collectively, “Other Commodity Interests,” and together with Futures Contracts and Cleared Swaps, “Commodity Interests”). See “The Offering – Futures Contracts” below. By utilizing certain or all of these investments, the Sponsor will endeavor to cause each Underlying Fund’s performance to closely track that of its Benchmark. The Sponsor expects to manage the Fund’s and the Underlying Funds’ investments directly, although it has been authorized by the Trust to retain, establish the terms of retention for, and terminate third-party commodity trading advisors to provide such management. The Sponsor is also authorized to select broker-dealers to execute the Fund’s transactions in the Underlying Funds and futures commission merchants to execute the Underlying Funds’ transactions in Futures Contracts.

The Underlying Funds seek to achieve their investment objectives primarily by investing in Commodity Interests such that daily changes in the Underlying Fund’s NAV will be expected to closely track the changes in its Benchmark. Each Underlying Fund’s positions in Commodity Interests will be changed or “rolled” on a regular basis in order to track the changing nature of its Benchmark. For example, several times a year (on the dates on which Futures Contracts on the Underlying Fund’s Specified Commodity expire), a particular Futures Contract will no longer be a Benchmark Component Futures Contract, and the Underlying Fund’s investments will have to be changed accordingly. In order that the Underlying Funds’ trading does not cause unwanted market movements and to make it more difficult for third parties to profit by trading based on such expected market movements, the Underlying Funds’ investments typically will not be rolled entirely on that day, but rather will typically be rolled over a period of several days.

Consistent with achieving each Underlying Fund’s investment objective of closely tracking its Benchmark, the Sponsor may for certain reasons cause the Underlying Fund to enter into or hold Futures Contracts other than the Benchmark Component Futures Contracts, Cleared Swaps and/or Other Commodity Interests. For example, certain Cleared Swaps have standardized terms similar to, and are priced by reference to, a corresponding Benchmark Component Futures Contract. Additionally, Other Commodity Interests that do not have standardized terms and are not exchange-traded, referred to as “over-the-counter” Commodity Interests, can generally be structured as the parties to the Commodity Interest contract desire. Therefore, an Underlying Fund might enter into multiple Cleared Swaps and/or over-the-counter Commodity Interests related to its Specified Commodity that are intended to exactly replicate the performance of Benchmark Component Futures Contracts of the Underlying Fund, or a single over-the-counter Commodity Interest designed to replicate the performance of the individual of its Benchmark as a whole. Assuming that there is no default by a counterparty to an over-the-counter Commodity Interest, the performance of the Commodity Interest will necessarily correlate exactly with the performance of the Underlying Fund’s Benchmark or the applicable Benchmark Component Futures Contract. The Underlying Funds might also enter into or hold Commodity Interests other than Benchmark Component Futures Contracts to facilitate effective trading, consistent with the discussion of an Underlying Fund’s “roll” strategy in the preceding paragraph. In addition, an Underlying Fund might enter into or hold Commodity Interests related to its Specified Commodity that would be expected to alleviate overall deviation between the Underlying

Fund's performance and that of its Benchmark that may result from certain market and trading inefficiencies or other reasons. By utilizing certain or all of the investments described above, the Sponsor will endeavor to cause each Underlying Fund's performance to closely track that of its Benchmark.

While the Fund expects to maintain substantially all of its assets in shares of the Underlying Funds at all times, the Fund may hold some residual amount of assets in obligations of the United States government ("Treasury Securities") or cash equivalents, and/or merely hold such assets in cash (generally in interest-bearing accounts). The Underlying Funds invest in Commodity Interests to the fullest extent possible without being leveraged or unable to satisfy their expected current or potential margin or collateral obligations with respect to their investments in Commodity Interests. After fulfilling such margin and collateral requirements, the Underlying Funds will invest the remainder of the proceeds from the sale of baskets in Treasury Securities or cash equivalents, and/or merely hold such assets in cash. Therefore, the focus of the Sponsor in managing the Underlying Funds is investing in Commodity Interests and in Treasury Securities, cash and/or cash equivalents. The Fund and Underlying Funds will earn interest income from the Treasury Securities and/or cash equivalents that it purchases and on the cash it holds through the Fund's custodian, The Bank of New York Mellon (the "Custodian").

The Sponsor endeavors to place the Fund's trades in the Underlying Funds and otherwise manage the Fund's investments so that the Fund's average daily tracking error against the Underlying Fund Average will be less than 10 percent over any period of 30 trading days. More specifically, the Sponsor will endeavor to manage the Fund so that A will be within plus/minus 10 percent of B, where:

- A is the average daily change in the Fund's NAV for any period of 30 successive valuation days, i.e., any trading day as of which the Fund calculates its NAV, and
- B is the average daily change in the Underlying Fund Average over the same period.

The Sponsor believes that market arbitrage opportunities will cause the Fund's Share price on the NYSE Arca to closely track the Fund's NAV per share. The Sponsor believes that the net effect of this expected relationship and the expected relationship described above between the Fund's NAV and the Underlying Fund Average will be that the changes in the price of the Fund's Shares on the NYSE Arca will closely track, in percentage terms, changes in the Underlying Fund Average.

The Sponsor employs a "neutral" investment strategy intended so that the Fund will track the changes in the Underlying Fund Average and each Underlying Fund will track the changes in its Benchmark regardless of whether the Underlying Fund Average or Benchmark goes up or goes down. The Fund's and Underlying Funds' "neutral" investment strategies are designed to permit investors generally to purchase and sell the Fund's Shares for the purpose of investing indirectly in the agricultural commodities market in a cost-effective manner. Such investors may include participants in agricultural industries and other industries seeking to hedge the risk of losses in their commodity-related transactions, as well as investors seeking exposure to the agricultural commodities market. Accordingly, depending on the investment objective of an individual investor, the risks generally associated with investing in the agricultural commodities market and/or the risks involved in hedging may exist. In addition, an investment in the Fund involves the risks that the changes in the price of the Fund's Shares will not accurately track the changes in the Underlying Fund Average, that changes in the price of the shares of the Underlying Funds will not accurately track the changes in their Benchmarks, and that changes in the Benchmarks will not closely correlate with changes in the prices of the Specified Commodities on the spot market. Furthermore, as noted above, the Fund and Underlying Funds also invest in short-term Treasury Securities, cash and/or cash equivalents. The Sponsor does not expect there to be any meaningful correlation between the performance of the Fund's and Underlying Funds'

investments in Treasury Securities/cash/cash equivalents and the changes in the prices of the Specified Commodities or Commodity Interests. While the level of interest earned on or the market price of these investments may in some respects correlate to changes in the price of the Specified Commodities, this correlation is not anticipated as part of the Fund's efforts to meet its objective. This and certain risk factors discussed in this prospectus may cause a lack of correlation between changes in the Fund's NAV and changes in the prices of the Specified Commodities. The Sponsor does not intend to operate the Fund or an Underlying Fund in a fashion such that its per share NAV will equal, in dollar terms, the spot price of a unit of a Specified Commodity or the price of any particular Futures Contract.

The Fund creates and redeems Shares only in blocks called "Creation Baskets" and "Redemption Baskets," respectively. Only Authorized Purchasers may purchase or redeem Creation Baskets or Redemption Baskets. An Authorized Purchaser is under no obligation to create or redeem baskets, and an Authorized Purchaser is under no obligation to offer to the public Shares of any baskets it does create. Baskets are generally created when there is a demand for Shares, including, but not limited to, when the market price per share is at (or perceived to be at) a premium to the NAV per share. Similarly, baskets are generally redeemed when the market price per share is at (or perceived to be at) a discount to the NAV per share. Retail investors seeking to purchase or sell Shares on any day are expected to effect such transactions in the secondary market, on the NYSE Arca, at the market price per share, rather than in connection with the creation or redemption of baskets.

The Fund will commence making the investments in the publicly-traded shares of the Underlying Funds in the manner described in this prospectus as quickly as practicable (no more than three business days) after the initial Creation Basket is sold. All proceeds from the sale of subsequent Creation Baskets will also be invested as quickly as practicable in such investments. The Fund's cash and investments are held through the Fund's Custodian. There is no stated maximum time period for the Fund's operations and the Fund will continue to operate until all Shares are redeemed or the Fund is liquidated pursuant to the terms of the Trust Agreement.

Shares may also be purchased and sold by individuals and entities that are not Authorized Purchasers in smaller increments than Creation Baskets on the NYSE Arca. However, these transactions are effected at bid and ask prices established by specialist firm(s). Like any listed security, Shares of the Fund can be purchased and sold at any time a secondary market is open.

In managing the Fund's assets, the Sponsor does not use a technical trading system that automatically issues buy and sell orders. Instead, each time one or more baskets of Fund Shares are purchased or redeemed, the Sponsor will purchase or sell the publicly-traded Underlying Fund shares with an aggregate market value that approximates the amount of cash received or paid upon the purchase or redemption of the basket(s).

Note to Secondary Market Investors: The Shares can be directly purchased from or redeemed by the Fund only in Creation Baskets or Redemption Baskets, respectively, and only by Authorized Purchasers. Each Creation Basket and Redemption Basket consists of 50,000 Shares and therefore may require a commitment of several million dollars (e.g., 50,000 Shares times an initial Share price of \$50.00 equals

\$2.5 million). Accordingly, investors who do not have such resources or who are not Authorized Purchasers should be aware that some of the information contained in this prospectus, including information about purchases and redemptions of Shares directly with the Fund, is only relevant to Authorized Purchasers. Shares will be listed and traded on the NYSE Arca under the ticker symbol "TAGS" and may be purchased and sold as individual Shares. Individuals interested in purchasing Shares in the secondary market should contact their broker. Shares purchased or sold through a broker may be subject to commissions.

The NAV will be calculated by taking the current market value of the Fund's total assets and subtracting any liabilities. Under the Fund's current operational procedures, the Fund's administrator, The Bank of New York Mellon (the "Administrator") will calculate the NAV of the Fund's Shares as of the earlier of 4:00 p.m. New York time or the close of the New York Stock Exchange each day. NYSE Arca will calculate an approximate net asset value every 15 seconds throughout each day that the Fund's Shares are traded on the NYSE Arca for as long as NYMEX's main pricing mechanism is open.

Please see the Funds' prospectus for more information regarding the Funds and their investment objectives.

The registration statement for the Funds describes the various fees and expenses for the Funds' Shares. For a more complete description of the Funds and the Underlying Indexes, visit the Issuer Website.

Principal Risks

Interested persons are referred to the discussion in the prospectus for the Fund of the principal risks of an investment in the Fund. These include tracking error risk (factors causing the Fund's performance to not match the performance of the underlying index), market trading risk (for example, trading halts, trading above or below net asset value), investment style risk, sector risk, investment approach risk, non-diversification risk, agricultural industry risk, commodity risk and liquidity risk.

Exchange Rules Applicable to Trading in the Shares

Trading in the Shares on IEX is subject to IEX trading rules.

Trading Hours

The value of the Index underlying the Shares will be disseminated to data vendors every 15 seconds during the Regular Trading Session.

The Shares will trade on IEX between 8:00 a.m. and 5:00 p.m. Please note that trading in the Shares during the Exchange's Pre-Market and Post-Market Sessions ("Extended Market Sessions") may result in additional trading risks which include: (1) that the current underlying indicative value may not be updated during the Extended Market Sessions, (2) lower liquidity in the Extended Market Sessions may impact pricing, (3) higher volatility in the Extended Market Sessions may impact pricing, (4) wider spreads may occur in the Extended Markets Sessions, and (5) because the indicative value is not calculated or widely disseminated during the Extended Market Sessions, an investor who is unable to calculate an implied value for the Shares in those sessions may be at a disadvantage to market professionals.

Dissemination of Data

The Consolidated Tape Association will disseminate real time trade and quote information for the Shares to Tape B.

Delivery of a Prospectus

IEX Members should be mindful of applicable prospectus delivery requirements under the federal securities laws with respect to transactions in the Fund. Prospectuses may be obtained through the Fund's website. The prospectus for the Fund does not contain all of the information set forth in the Funds Registration Statement (including the exhibits to the Registration Statement), parts of which have been omitted in accordance with the rules and regulations of the SEC. For further information about the Fund, please refer to its Registration Statement.

In the event that the Fund relies upon an order by the SEC exempting the Shares from certain prospectus delivery requirements under Section 24(d) of the 1940 Act and in the future make available a written product description, the IEX Rules require that IEX Members provide to all purchasers of Shares a written description of the terms and characteristics of such securities, in a form prepared by the Issuer of the Fund, no later than the time a confirmation of the first transaction in the Shares is delivered to such purchaser. In addition, IEX Members shall include such a written description with any sales material relating to the Shares that is provided to customers or the public. Any other written materials provided by an IEX member to customers or the public making specific reference to the Shares as an investment vehicle must include a statement in substantially the following form: "A circular describing the terms and characteristics of [*the UTP Derivative Securities*] has been prepared by the [*open-ended management investment company name*] and is available from your broker. It is recommended that you obtain and review such circular before purchasing [*the UTP Derivative Securities*]."

An IEX member carrying an omnibus account for a non-member broker-dealer is required to inform such non-member that execution of an order to purchase Shares for such omnibus account will be deemed to constitute agreement by the non-member to make such written description available to its customers on the same terms as are directly applicable to IEX member under this rule.

Upon request of a customer, IEX Members also shall provide a copy of the Prospectus.

Suitability

Trading in the securities on the Exchange will be subject to the provisions of IEX Rule 3.170 and other applicable suitability rules. Members recommending transactions in the securities to customers should make a determination that the recommendation is suitable for the customer.

Trading Halts

IEX will halt trading in the Shares of a security in accordance with IEX Rules. The grounds for a halt include a halt because the intraday indicative value of the security and/or the value of its underlying index are not being disseminated as required, a halt for other regulatory reasons or due to other conditions or circumstances deemed to be detrimental to the maintenance of a free and orderly market.

Exemptive, Interpretive and No-Action Relief Under Federal Securities Regulations

The Securities and Exchange Commission (the “SEC”) has issued letters granting exemptive, interpretive and no-action relief from certain provisions of rules under the Securities Exchange Act of 1934 for exchange-traded securities listed and traded on a registered national securities exchange that meet certain criteria.

AS WHAT FOLLOWS IS ONLY A SUMMARY OF THE RELIEF OUTLINED IN THE NO-ACTION LETTERS REFERENCED ABOVE, THE EXCHANGE ADVISES INTERESTED PARTIES TO CONSULT THE NO-ACTION LETTERS FOR MORE COMPLETE INFORMATION REGARDING THE MATTERS COVERED THEREIN AND THE APPLICABILITY OF THE RELIEF GRANTED IN RESPECT OF TRADING IN SECURITIES. INTERESTED PARTIES SHOULD ALSO CONSULT THEIR PROFESSIONAL ADVISORS.

Regulation M Exemptions

Generally, Rules 101 and 102 of Regulation M prohibit any “distribution participant” and its “affiliated purchasers” from bidding for, purchasing, or attempting to induce any person to bid for or purchase any security which is the subject of a distribution until after the applicable restricted period, except as specifically permitted in Regulation M. The provisions of the Rules apply to underwriters, prospective underwriters, brokers, dealers, and other persons who have agreed to participate or are participating in a distribution of securities.

The SEC has granted an exemption from Rule 101 under Regulation M to permit persons participating in a distribution of shares of the above-mentioned Funds to engage in secondary market transactions in such shares during their participation in such a distribution. In addition, the SEC has granted relief under Regulation M to permit persons who may be deemed to be participating in the distribution of Shares of the above-mentioned Funds (i) to purchase securities for the purpose of purchasing Creation Unit Aggregations of Fund Shares and (ii) to tender securities for redemption in Creation Unit Aggregations. Further, the SEC has clarified that the tender of Fund Shares to the Funds for redemption does not constitute a bid for or purchase of any of the Funds’ securities during the restricted period of Rule 101. The SEC has also granted an exemption pursuant to paragraph (e) of Rule 102 under Regulation M to allow the redemption of Fund Shares in Creation Unit Aggregations during the continuous offering of Shares.

Rule 10b-10 (Customer Confirmations for Creation or Redemption of Fund Shares)

Broker-dealers who handle purchases or redemptions of Fund Shares in Creation Unit size for customers will be permitted to provide such customers with a statement of the number of Creation Unit Aggregations created or redeemed without providing a statement of the identity, number and price of shares of the individual securities tendered to the Funds for purposes of purchasing Creation Unit

Aggregations (“Deposit Securities”) or the identity, number and price of shares to be delivered by the Trust for the Funds to the redeeming holder (“Redemption Securities”). The composition of the securities required to be tendered to the Funds for creation purposes and of the securities to be delivered on redemption will be disseminated each business day and will be applicable to requests for creations or redemption, as the case may be, on that day. This exemptive relief under Rule 10b-10 with respect to creations and redemption is subject to the following conditions:

- 1) Confirmations to customers engaging in creations or redemptions must state that all information required by Rule 10b-10 will be provided upon request;
- 2) Any such request by a customer for information required by Rule 10b-10 will be filed in a timely manner, in accordance with Rule 10b-10(c); and
- 3) Except for the identity, number, and price of shares of the component securities of the Deposit Securities and Redemption Securities, as described above, confirmations to customers must disclose all other information required by Rule 10b-10(a).

Section 11(d)(1); Rules 11d1-1 and 11d1-2

Section 11(d)(1) of the Act generally prohibits a person who is both a broker and a dealer from effecting any transaction in which the broker-dealer extends credit to a customer on any security which was part of a new issue in the distribution of which he participated as a member of a selling syndicate or group within thirty days prior to such transaction. The SEC has clarified that Section 11(d)(1) does not apply to broker-dealers that are not Authorized Participants (and, therefore, do not create Creation Unit Aggregations) that engage in both proprietary and customer transactions in Shares of a Fund in the secondary market, and for broker-dealer Authorized Participants that engage in creations of Creation Unit Aggregations. This relief is subject to specific conditions, including the condition that such broker-dealer (whether or not an Authorized Participant) does not, directly or indirectly, receive from the Fund complex any payment, compensation or other economic incentive to promote or sell the Shares of a Fund to persons outside the fund complex, other than non-cash compensation permitted under NASD Rule 2830(l)(5)(A), (B) or (C). (See letter from Catherine McGuire, Chief Counsel, SEC Division of Market Regulation, to Securities Industry Association, Derivative Products Committee, dated November 21, 2005.) The SEC also has taken a no-action position under Section 11(d)(1) of the Act that broker-dealers may treat Shares of a Fund, for purposes of Rule 11d1-2, as “securities issued by a registered open-end investment company as defined in the Investment Company Act” and thereby extend credit or maintain or arrange for the extension or maintenance of credit on Shares that have been owned by the persons to whom credit is provided for more than 30 days, in reliance on the exemption contained in the rule.

Rule 14e-5

An exemption from Rule 14e-5 has been granted to permit any person acting as a dealer-manager of a tender offer for a component security of the Funds (1) to redeem Fund Shares in Creation Unit Aggregations from the issuer that may include a security subject to such tender offer and (2) to purchase Fund Shares during such tender offer. In addition, a no-action position has been taken under Rule 14e-5 if a broker-dealer acting as a dealer-manager of a tender offer for a security of the Fund purchases or arranges to purchase such securities in the secondary market for the purpose of tendering such securities to purchase one or more Creation Unit Aggregations of Shares, if made in conformance with the following:

- 1) such bids or purchases are effected in the ordinary course of business, in connection with a basket of 20 or more securities in which any security that is the subject of a distribution, or

any reference security, does not comprise more than 5% of the value of the basket purchase; or
- 2) purchases are effected as adjustments to such basket in the ordinary course of business as a result of a change in the composition of the underlying index; and
- 3) such bids or purchases are not effected for the purpose of facilitating such tender offer.

SEC Rule 15c1-5 and 15c1-6

The SEC has taken a no-action position with respect to Rule 15c1-5 and Rule 15c1-6 as to the required disclosure of control by a broker or dealer with respect to creations and redemptions of Fund Shares and secondary market transactions therein. (See letter from Catherine McGuire, Chief Counsel, SEC Division of Market Regulation, to Securities Industry Association, Derivative Products Committee, dated November 21, 2005.)

This Information Circular is not a statutory prospectus. IEX Members should consult the prospectus for a security and the security's website for relevant information.
