

Investors Exchange Product Information Circular 2016 - 0560

Date: August 31, 2016

Re: Direxion Shares ETF Trust

Investors Exchange LLC commenced operating as a national securities exchange on August 19, 2016 followed by a two-week security-by-security phase-in period. This Information Circular is being issued to advise you that the following securities have been approved for trading pursuant to unlisted trading privileges (“UTP”) on the Exchange as UTP Derivative Securities pursuant to IEX Rule 16.160, and will begin trading on IEX during the phase-in period. See the [Exchange's Website](#) for the phase-in schedule.

<u>Securities (the “Funds”)</u>	<u>Symbol</u>
Direxion Daily Junior Gold Miners Index Bull 3X Shares	JNUG
Direxion Daily Junior Gold Miners Index Bear 3X Shares	JDST

Issuer/Trust: Direxion Shares ETF Trust

Issuer Website: www.direxionfunds.com

Primary Listing Exchange: NYSE Arca

Compliance and supervisory personnel should note that, among other things, this Information Circular discusses the need to deliver a prospectus to customers purchasing shares of the Fund (“Shares”) issued by the Direxion Shares ETF Trust (“Trust”). Please forward this Information Circular to other interested persons within your organization.

The purpose of this information circular is to outline various rules and policies that will be applicable to trading in these new products pursuant to the Exchange’s unlisted trading privileges, as well as to provide certain characteristics and features of the Shares. For a more complete description of the Issuer, the Shares and the underlying market instruments or indexes, visit the Issuer Website, consult the Prospectus available on the Issuer Website or examine the Issuer Registration Statement or review the most current information bulletin issued by the Primary Listing Exchange. The Issuer Website, the Prospectus and the Issuer Registration Statement are hereafter collectively referred to as the “Issuer Disclosure Materials.”

Background Information on the Fund

Direxion Shares ETF Trust (the “Trust”) is a management investment company registered under the Investment Company Act of 1940, as amended (the “1940 Act”), consisting of several investment portfolios. This circular relates only to the Funds listed above (each, a “Fund” and together, the “Funds”). The shares of the Fund are referred to herein as “Shares.” Rafferty Asset Management, LLC (“Rafferty” or the “Adviser”) is the investment adviser to the Fund.

The Direxion Daily Junior Gold Miners Index Bull 3X Shares seeks daily leveraged investment results.

The pursuit of daily leveraged goals means that the Fund is riskier than alternatives that do not use leverage because the Fund's objective is to magnify the performance of an index. The pursuit of daily leveraged investment goals means that the return of the Fund for a period longer than a full trading day may bear no resemblance to 300% of the return of its index for such longer period because the aggregate return of the Fund is the product of the series of daily leveraged returns for each trading day. The path of the benchmark during the longer period may be at least as important to the Fund's return for the longer period as the cumulative return of the benchmark for the relevant longer period, especially in periods of market volatility. Further, the return for investors that invest for periods less than a full trading day or for a period different than a trading day will not be the product of the return of the Fund's stated goal and the performance of the target index for the full trading day.

The Fund seeks daily investment results, before fees and expenses, of 300% of the performance of the Market Vectors Junior Gold Miners Index (the "Index"). The Index is composed of equity securities of issuers involved in the exploration and production of gold and does not track changes in the spot price of gold as a commodity. The Fund seeks daily leveraged investment results and does not seek to achieve its stated investment objective over a period of time greater than one day. The Fund is different and much riskier than most exchange-traded funds.

The Fund is designed to be utilized only by knowledgeable investors who understand the potential consequences of seeking daily leveraged investment results, understand the risks associated with the use of leverage and are willing to monitor their portfolios frequently. The Fund seeks daily leveraged investment results relative to the Index and is different and riskier than similarly benchmarked exchange-traded funds that do not use leverage. Therefore, the Fund is not intended to be used by, and is not appropriate for, investors who do not intend to actively monitor and manage their portfolios.

The Fund, under normal circumstances, creates long positions by investing at least 80% of its assets in the securities that comprise the Index and/or financial instruments that provide leveraged and unleveraged exposure to the Index. These financial instruments include: futures contracts; options on securities, indices and futures contracts; equity caps, floors and collars; swap agreements; forward contracts; short positions; reverse repurchase agreements; exchange-traded funds ("ETFs"); and other financial instruments. On a day-to-day basis, the Fund also may hold short-term debt instruments that have terms-to-maturity of less than 397 days and exhibit high quality credit profiles, including U.S. government securities and repurchase agreements.

The Index tracks the performance of Small and mid-capitalization companies in the global gold and silver mining industry, as identified by the index provider. The Index includes companies from financial markets that are freely investable to foreign investors, including "emerging markets," as that term is defined by the index provider. In general, the principal supplies of gold are concentrated in only five countries or territories: Australia, Canada, Russia and certain other former Soviet Union countries, South Africa and the United States.

The Index includes only small- or mid-cap companies that generate, or demonstrate the potential to generate, at least 50% of their revenues from gold or silver mining, hold real property that has the potential to produce at least 50% of the company's revenue from gold or silver mining when developed, or primarily invest in gold or silver. As of December 31, 2012, approximately 86.6% of the Index was comprised of securities of companies that are involved in the gold mining industry.

In addition, stocks must meet strict size and liquidity requirements: The full market capitalization has to exceed 150 million in U.S. dollars, the three months average-daily- trading volume must be higher than 1.1 million in U.S. dollars and the stocks must have traded least 250,000 shares per month over the last six months.

The Index is calculated with the stock prices converted to U.S. dollars in real-time. The Index is reviewed quarterly and changes are implemented on the third Friday of every quarter-end month (i.e. March, June, September and December). Changes become effective on the next trading day.

The Fund may gain exposure to only a representative sample of the securities in the Index that have aggregate characteristics similar to those of the Index. The Fund gains this exposure either by directly investing in the underlying securities of the Index or by investing in derivatives that provide exposure to those securities. The Fund seeks to remain fully invested at all times consistent with its stated goal. At the close of the markets each trading day, Rafferty positions the Fund's portfolio so that its exposure to the Index is consistent with the Fund's investment objective. The impact of the Index's movements during the day will affect whether the Fund's portfolio needs to be re-positioned. For example, if the Index has risen on a given day, net assets of the Fund should rise, meaning that the Fund's exposure will need to be increased. Conversely, if the Index has fallen on a given day, net assets of the Fund should fall, meaning the Fund's exposure will need to be reduced. This re-positioning strategy typically results in high portfolio turnover.

Because of daily rebalancing and the compounding of each day's return over time, the return of the Fund for periods longer than a single day will be the result of each day's returns compounded over the period, which will very likely differ from 300% of the return of the Index over the same period. The Fund will lose money if the Index performance is flat over time, and as a result of daily rebalancing, the Index's volatility and the effects of compounding, it is even possible that the Fund will lose money over time while the Index's performance increases.

Additionally, because a significant portion of the assets of the Fund may come from investors using "asset allocation" and "market timing" investment strategies, the Fund may further need to engage in frequent trading. The Fund will concentrate its investment in a particular industry or group of industries to approximately the same extent as the Index is so concentrated.

The Direxion Daily Junior Gold Miners Index Bear 3X Shares seeks daily leveraged investment results. The pursuit of daily leveraged goals means that the Fund is riskier than alternatives that do not use leverage because the Fund's objective is to magnify the performance of an index. The pursuit of daily leveraged investment goals means that the return of the Fund for a period longer than a full trading day may bear no resemblance to -300% of the return of its index for such longer period because the aggregate return of the Fund is the product of the series of daily leveraged returns for each trading day. The path of the benchmark during the longer period may be at least as important to the Fund's return for the longer period as the cumulative return of the benchmark for the relevant longer period, especially in periods of market volatility. Further, the return for investors that invest for periods less than a full trading day or for a period different than a trading day will not be the product of the return of the Fund's stated goal and the performance of the target index for the full trading day.

The Fund seeks daily investment results, before fees and expenses, of 300% of the inverse (or opposite) of the performance of the Index. The Index is composed of equity securities of issuers involved in the exploration and production of gold and does not track changes in the spot price of gold as a commodity. The Fund seeks daily leveraged investment results and does not seek to achieve its stated investment objective over a period of time greater than one day. The Fund is different and much riskier than most exchange-traded funds.

The Fund is designed to be utilized only by knowledgeable investors who understand the potential consequences of seeking daily leveraged investment results, understand the risks associated with shorting and the use of leverage, and are willing to monitor their portfolios frequently. The Fund seeks daily leveraged investment results relative to the Index and is different and riskier than similarly

benchmarked exchange-traded funds that do not use leverage. Therefore, the Fund is not intended to be used by, and is not appropriate for, investors who do not intend to actively monitor and manage their portfolios.

The Fund, under normal circumstances, creates short positions by investing at least 80% of its assets in: futures contracts; options on securities, indices and futures contracts; equity caps, floors and collars; swap agreements; forward contracts; short positions; reverse repurchase agreements; exchange-traded funds (“ETFs”); and other financial instruments that, in combination, provide leveraged and unleveraged exposure to the Index. The Fund invests the remainder of its assets in short-term debt instruments that have terms-to-maturity of less than 397 days and exhibit high quality credit profiles, including U.S. government securities and repurchase agreements. The Fund does not invest in equity securities.

The Fund may gain exposure to only a representative sample of the securities in the Index that have aggregate characteristics similar to those of the Index. The Fund gains this exposure by investing in a combination of financial instruments that, in combination, provide exposure to the underlying securities of the Index. The Fund seeks to remain fully invested at all times consistent with its stated goal. At the close of the markets each trading day, Rafferty positions the Fund’s portfolio so that its exposure to the Index is consistent with the Fund’s investment objective. The impact of the Index’s movements during the day will affect whether the Fund’s portfolio needs to be re-positioned. For example, if the Index has fallen on a given day, net assets of the Fund should rise, meaning that the Fund’s exposure will need to be increased. Conversely, if the Index has risen on a given day, net assets of the Fund should fall, meaning the Fund’s exposure will need to be reduced. This re-positioning strategy typically results in high portfolio turnover.

Because of daily rebalancing and the compounding of each day’s return over time, the return of the Fund for periods longer than a single day will be the result of each day’s returns compounded over the period, which will very likely differ from –300% of the return of the Index over the same period. The Fund will lose money if the Index performance is flat over time, and as a result of daily rebalancing, the Index’s volatility and the effects of compounding, it is even possible that the Fund will lose money over time while the Index’s performance decreases.

Additionally, because a significant portion of the assets of the Fund may come from investors using “asset allocation” and “market timing” investment strategies, the Fund may further need to engage in frequent trading. The Fund will concentrate its investment in a particular industry or group of industries to approximately the same extent as the Index is so concentrated.

For more information regarding each Fund’s investment strategy, please read the prospectus for the Funds.

As described more fully in the Trust’s prospectus and Statement of Additional Information (“SAI”), the Funds issue and redeem Shares at net asset value (“NAV”) only in large blocks of 50,000 Shares (each block of Shares called a “Creation Unit”). As a practical matter, only broker-dealers or large institutional investors with creation and redemption agreements (called Authorized Participants) can purchase or redeem these Creation Units. Except when aggregated in Creation Units, the Shares may not be redeemed with the Funds.

Shares are held in book-entry form, which means that no Share certificates are issued. The Depository Trust Company or its nominee is the record owner of all outstanding Shares of the Funds and is recognized as the owner of all Shares for all purposes.

The NAV per Share for each Fund is computed by dividing the value of the net assets of the Fund (i.e.,

the value of its total assets less total liabilities) by the total number of Shares outstanding. Expenses and fees are accrued daily and taken into account for purposes of determining NAV. The NAV of each Fund is determined each business day after the close of trading (ordinarily 4:00 p.m., Eastern Time or “ET”) of the New York Stock Exchange. Any assets or liabilities denominated in currencies other than the U.S. dollar are converted into U.S. dollars at the current market rates on the date of valuation as quoted by one or more sources.

Principal Risks

Interested persons are referred to the discussion in the prospectus for the Funds of the principal risks of an investment in the Funds. These include tracking error risk (factors causing a Fund’s performance to not match the performance of its underlying index), market trading risk (for example, trading halts, trading above or below net asset value), investment style risk, sector risk, investment approach risk, non- diversification risk, issuer-specific risk, management risk, mining industry risk and derivatives risk.

Exchange Rules Applicable to Trading in the Shares

Trading in the Shares on IEX is subject to IEX trading rules.

Trading Hours

The value of the Index underlying the Shares will be disseminated to data vendors every 15 seconds during the Regular Trading Session.

The Shares will trade on IEX between 8:00 a.m. and 5:00 p.m. Please note that trading in the Shares during the Exchange’s Pre-Market and Post-Market Sessions (“Extended Market Sessions”) may result in additional trading risks which include: (1) that the current underlying indicative value may not be updated during the Extended Market Sessions, (2) lower liquidity in the Extended Market Sessions may impact pricing, higher volatility in the Extended Market Sessions may impact pricing, (4) wider spreads may occur in the Extended Markets Sessions, and (5) because the indicative value is not calculated or widely disseminated during the Extended Market Sessions, an investor who is unable to calculate an implied value for the Shares in those sessions may be at a disadvantage to market professionals.

Dissemination of Data

The Consolidated Tape Association will disseminate real time trade and quote information for the Shares to Tape B.

Delivery of a Prospectus

Exchange Members should be mindful of applicable prospectus delivery requirements under the federal securities laws with respect to transactions in the Fund. Prospectuses may be obtained through the Fund's website. The prospectus for the Fund does not contain all of the information set forth in the Funds Registration Statement (including the exhibits to the Registration Statement), parts of which have been omitted in accordance with the rules and regulations of the SEC. For further information about the Fund, please refer to its Registration Statement.

In the event that the Fund relies upon an order by the SEC exempting the Shares from certain prospectus delivery requirements under Section 24(d) of the 1940 Act and in the future make available a written product description, Exchange Rules require that Exchange Members provide to all purchasers of Shares a written description of the terms and characteristics of such securities, in a form prepared by the Issuer of the Fund, no later than the time a confirmation of the first transaction in the Shares is delivered to such purchaser. In addition, Exchange Members shall include such a written description with any sales material relating to the Shares that is provided to customers or the public. Any other written materials provided by an Exchange member to customers or the public making specific reference to the Shares as an investment vehicle must include a statement in substantially the following form: "A circular describing the terms and characteristics of [*the UTP Derivative Securities*] has been prepared by the [*open-ended management investment company name*] and is available from your broker. It is recommended that you obtain and review such circular before purchasing [*the UTP Derivative Securities*]."

An Exchange member carrying an omnibus account for a non-member broker-dealer is required to inform such non-member that execution of an order to purchase Shares for such omnibus account will be deemed to constitute agreement by the non-member to make such written description available to its customers on the same terms as are directly applicable to Exchange member under this rule.

Upon request of a customer, Exchange Members also shall provide a copy of the Prospectus.

Suitability

Trading in the securities on the Exchange will be subject to the provisions of IEX Rule 3.170 and other applicable suitability rules. Members recommending transactions in the securities to customers should make a determination that the recommendation is suitable for the customer.

Trading Halts

Exchange will halt trading in the Shares of a security in accordance with Exchange Rules. The grounds for a halt include a halt because the intraday indicative value of the security and/or the value of its underlying index are not being disseminated as required, a halt for other regulatory reasons or due to other conditions or circumstances deemed to be detrimental to the maintenance of a free and orderly

market.

Exemptive, Interpretive and No-Action Relief Under Federal Securities Regulations

The Securities and Exchange Commission (the “SEC”) has issued letters granting exemptive, interpretive and no-action relief from certain provisions of rules under the Securities Exchange Act of 1934 for exchange-traded securities listed and traded on a registered national securities exchange that meet certain criteria.

AS WHAT FOLLOWS IS ONLY A SUMMARY OF THE RELIEF OUTLINED IN THE NO-ACTION LETTERS REFERENCED ABOVE, THE EXCHANGE ADVISES INTERESTED PARTIES TO CONSULT THE NO-ACTION LETTERS FOR MORE COMPLETE INFORMATION REGARDING THE MATTERS COVERED THEREIN AND THE APPLICABILITY OF THE RELIEF GRANTED IN RESPECT OF TRADING IN SECURITIES. INTERESTED PARTIES SHOULD ALSO CONSULT THEIR PROFESSIONAL ADVISORS.

Regulation M Exemptions

Generally, Rules 101 and 102 of Regulation M prohibit any “distribution participant” and its “affiliated purchasers” from bidding for, purchasing, or attempting to induce any person to bid for or purchase any security which is the subject of a distribution until after the applicable restricted period, except as specifically permitted in Regulation M. The provisions of the Rules apply to underwriters, prospective underwriters, brokers, dealers, and other persons who have agreed to participate or are participating in a distribution of securities.

The SEC has granted an exemption from Rule 101 under Regulation M to permit persons participating in a distribution of shares of the above-mentioned Funds to engage in secondary market transactions in such shares during their participation in such a distribution. In addition, the SEC has granted relief under Regulation M to permit persons who may be deemed to be participating in the distribution of Shares of the above-mentioned Funds (i) to purchase securities for the purpose of purchasing Creation Unit Aggregations of Fund Shares and (ii) to tender securities for redemption in Creation Unit Aggregations. Further, the SEC has clarified that the tender of Fund Shares to the Funds for redemption does not constitute a bid for or purchase of any of the Funds’ securities during the restricted period of Rule 101.

The SEC has also granted an exemption pursuant to paragraph (e) of Rule 102 under Regulation M to allow the redemption of Fund Shares in Creation Unit Aggregations during the continuous offering of Shares.

Rule 10b-10 (Customer Confirmations for Creation or Redemption of Fund Shares)

Broker-dealers who handle purchases or redemptions of Fund Shares in Creation Unit size for customers will be permitted to provide such customers with a statement of the number of Creation Unit Aggregations created or redeemed without providing a statement of the identity, number and price of shares of the individual securities tendered to the Funds for purposes of purchasing Creation Unit Aggregations (“Deposit Securities”) or the identity, number and price of shares to be delivered by the Trust for the Funds to the redeeming holder (“Redemption Securities”). The composition of the securities required to be tendered to the Funds for creation purposes and of the securities to be

delivered on redemption will be disseminated each business day and will be applicable to requests for creations or redemption, as the case may be, on that day. This exemptive relief under Rule 10b-10 with respect to creations and redemption is subject to the following conditions:

- 1) Confirmations to customers engaging in creations or redemptions must state that all information required by Rule 10b-10 will be provided upon request;
- 2) Any such request by a customer for information required by Rule 10b-10 will be filed in a timely manner, in accordance with Rule 10b-10(c); and
- 3) Except for the identity, number, and price of shares of the component securities of the Deposit Securities and Redemption Securities, as described above, confirmations to customers must disclose all other information required by Rule 10b-10(a).

Section 11(d)(1); Rules 11d1-1 and 11d1-2

Section 11(d)(1) of the Act generally prohibits a person who is both a broker and a dealer from effecting any transaction in which the broker-dealer extends credit to a customer on any security which was part of a new issue in the distribution of which he participated as a member of a selling syndicate or group within thirty days prior to such transaction. The SEC has clarified that Section 11(d)(1) does not apply to broker-dealers that are not Authorized Participants (and, therefore, do not create Creation Unit Aggregations) that engage in both proprietary and customer transactions in Shares of a Fund in the secondary market, and for broker-dealer Authorized Participants that engage in creations of Creation Unit Aggregations. This relief is subject to specific conditions, including the condition that such broker-dealer (whether or not an Authorized Participant) does not, directly or indirectly, receive from the Fund complex any payment, compensation or other economic incentive to promote or sell the Shares of a Fund to persons outside the fund complex, other than non-cash compensation permitted under NASD Rule 2830(l)(5)(A), (B) or (C). (See letter from Catherine McGuire, Chief Counsel, SEC Division of Market Regulation, to Securities Industry Association, Derivative Products Committee, dated November 21, 2005.) The SEC also has taken a no-action position under Section 11(d)(1) of the Act that broker-dealers may treat Shares of a Fund, for purposes of Rule 11d1-2, as "securities issued by a registered open-end investment company as defined in the Investment Company Act" and thereby extend credit or maintain or arrange for the extension or maintenance of credit on Shares that have been owned by the persons to whom credit is provided for more than 30 days, in reliance on the exemption contained in the rule.

Rule 14e-5

An exemption from Rule 14e-5 has been granted to permit any person acting as a dealer-manager of a tender offer for a component security of the Funds (1) to redeem Fund Shares in Creation Unit Aggregations from the issuer that may include a security subject to such tender offer and (2) to purchase Fund Shares during such tender offer. In addition, a no-action position has been taken under Rule 14e-5 if a broker-dealer acting as a dealer-manager of a tender offer for a security of the Fund purchases or arranges to purchase such securities in the secondary market for the purpose of tendering such securities to purchase one or more Creation Unit Aggregations of Shares, if made in conformance with the following:

- 1) such bids or purchases are effected in the ordinary course of business, in connection with a basket of 20 or more securities in which any security that is the subject of a distribution,

or any reference security, does not comprise more than 5% of the value of the basket purchase; or

- 2) purchases are effected as adjustments to such basket in the ordinary course of business as a result of a change in the composition of the underlying index; and
- 3) such bids or purchases are not effected for the purpose of facilitating such tender offer.

SEC Rule 15c1-5 and 15c1-6

The SEC has taken a no-action position with respect to Rule 15c1-5 and Rule 15c1-6 as to the required disclosure of control by a broker or dealer with respect to creations and redemptions of Fund Shares and secondary market transactions therein. (See letter from Catherine McGuire, Chief Counsel, SEC Division of Market Regulation, to Securities Industry Association, Derivative Products Committee, dated November 21, 2005.)

This Information Circular is not a statutory prospectus. Members should consult the prospectus for a security and the security's website for relevant information.
