

Investors Exchange Product Information Circular 2016 - 0645

Date: August 31, 2016

Re: PowerShares Multi-Strategy Alternative Portfolio

Investors Exchange LLC commenced operating as a national securities exchange on August 19, 2016 followed by a two-week security-by-security phase-in period. This Information Circular is being issued to advise you that the following security has been approved for trading pursuant to unlisted trading privileges (“UTP”) on the Exchange as UTP Derivative Securities pursuant to IEX Rule 16.160, and will begin trading on IEX during the phase-in period. See [the Exchange’s Website](#) for the phase-in schedule.

Issuer/Trust: PowerShares Actively Managed Exchange-Traded Fund Trust

Issuer/Trust Website: www.invescopowershares.com

Primary Listing Exchange: Nasdaq

Compliance and supervisory personnel should note that, among other things, this Information Circular discusses the need to deliver a prospectus to customers purchasing shares of the Fund issued by the PowerShares Actively Managed Exchange-Traded Fund Trust (“Trust”). Please forward this Information Circular to other interested persons within your organization.

The purpose of this Information Circular is to outline various rules and policies that will be applicable to trading in these new products pursuant to the unlisted trading privileges of the Exchange, as well as to provide certain characteristics and features of the shares. For a more complete description of the Issuer/Trust, the shares and the underlying market instruments or indexes, visit the Issuer Website, consult the Prospectus available on the Issuer Website or examine the Registration Statement or review the most current information bulletin issued by the Primary Listing Exchange. The Issuer Website, the Prospectus and the Registration Statement are hereafter collectively referred to as the “Issuer Disclosure Materials.”

Background Information on the Fund

PowerShares Actively Managed Exchange-Traded Fund Trust (the “Trust”) is a management investment company registered under the Investment Company Act of 1940, as amended (the “1940 Act”), consisting of several investment portfolios. This circular relates only to the PowerShares Multi-Strategy Alternative Portfolio (the “Fund”). The shares of the Fund are referred to herein as “Shares.” Invesco PowerShares Capital Management LLC (the “Adviser”) is the investment adviser to the Fund.

The Fund is an actively managed exchange-traded fund that seeks a positive total return that has a low correlation to the broader securities markets. The Fund seeks to achieve its investment objective by investing in a combination of equity securities, financial futures, contracts, forward currency contracts

and other securities. Invesco Advisers, Inc., the sub-adviser to the Fund (the “Sub-Adviser”), selects investments for inclusion in the Fund’s portfolio with reference to the components of the Morgan Stanley Multi-Strategy Alternative Index through a quantitative process that seeks to exceed the Benchmark’s performance.

Morgan Stanley & Co., LLC (the “Benchmark Agent”) develops, maintains and sponsors the Benchmark, which includes a combination of quantitative, rules-based strategies (the “Benchmark Strategies”). The Fund will follow the Benchmark Strategies while seeking to outperform the Benchmark. The Benchmark Strategies are designed to capture non-traditional risk premiums across equities, rates, currencies and volatility markets. A “risk premium” is the economic concept that an investor should receive a premium (that is, a higher expected return) for bearing risk. The Benchmark Strategies may be categorized into three types: (1) Quantitative/Stylistic Strategies, (2) Volatility Risk Premium Strategies, and (3) Carry Strategies.

The Fund’s equity exposure may be obtained through direct investment in equity securities or through investment in other investment companies. The equity securities in which the Fund may invest include common stocks of publicly traded companies of any capitalization. As part of the investment process described above, under normal market conditions, the Fund may take both long and short positions in equity securities, other investment companies, and equity index futures.

Additionally, the Fund may take long and short positions in various currencies by investing in currency forward and/or futures contracts. The Fund also may purchase and sell interest rate futures, including Eurodollar interest rate futures or Euro Euribor interest rate futures, and Chicago Board Options Exchange Volatility Index (“VIX Index”) futures contracts. The Fund will make significant use of financial futures contracts and forward contracts to gain exposure to various asset classes to generate returns, for hedging purposes (to offset risks associated with an investment, currency exposure, or market conditions), to adjust currency exposure, and to earn income and enhance returns. One or more of these instruments may have a leveraging effect on the Fund. This financial leverage occurs when the Fund’s market exposure exceeds the amounts actually invested.

The Fund also may have a substantial cash position due to margin and collateral requirements related to the Fund’s use of derivatives. The Fund may invest in U.S. government securities, money market instruments, cash and cash equivalents (e.g., corporate commercial paper) to provide liquidity and to collateralize its investments in derivative instruments. The instruments in which the Fund may invest include: (i) short-term obligations issued by the U.S. Government; (ii) short term negotiable obligations of commercial banks, fixed time deposits and bankers’ acceptances of U.S. and foreign banks and similar institutions; and (iii) commercial paper rated at the date of purchase “Prime-1” by Moody’s Investors Service, Inc. or “A-1+” or “A-1” by Standard & Poor’s or, if unrated, of comparable quality, as determined by the Sub-Adviser.

In addition, the Fund may invest in the securities of other investment companies (including money market funds) beyond the limits permitted under the Investment Company Act of 1940 (the “1940 Act”), subject to certain terms and conditions set forth in a Commission exemptive order issued pursuant to Section 12(d)(1)(J) of the 1940 Act.

For more information regarding the Funds’ investment strategy, please read the prospectus for the Funds.

As described more fully in the Trust’s prospectus and Statement of Additional Information (“SAI”), the Fund issues and redeems Shares at net asset value (“NAV”) only in large blocks of shares, respectively, (each block of Shares called a “Creation Unit”) or multiples thereof. Each Creation Unit consists of

100,000 shares. As a practical matter, only broker-dealers or large institutional investors with creation and redemption agreements (called Authorized Participants) can purchase or redeem these Creation Units. Except when aggregated in Creation Units, the Shares may not be redeemed with the Fund. The Fund generally issues and redeems Creation Units principally for cash, calculated based on the net asset value (“NAV”) per Share, multiplied by the number of Shares representing a Creation Unit, plus a fixed and/or variable transaction fee.

Dividends from net investment income, if any, are declared and paid annually by the Fund. Distributions of net realized securities gains, if any, generally are declared and paid annually.

Shares are held in book-entry form, which means that no Share certificates are issued. The Depository Trust Company or its nominee is the record owner of all outstanding Shares of the Fund and is recognized as the owner of all Shares for all purposes.

The NAV of the Fund is calculated each day the national securities exchanges are open for trading as of the close of regular trading on NASDAQ, generally 4:00 p.m. New York time. The NAV of the Fund is calculated by dividing the value of the net assets of the Fund (i.e., the value of its total assets less total liabilities) by the total number of outstanding shares of the Fund, generally rounded to the nearest cent. In calculating its NAV, expenses are accrued and applied daily and securities and other assets for which market quotations are available are valued at market value. Securities listed or traded on an exchange generally are valued at the last sales price or official closing price of the exchange where the security primarily is traded. Debt and securities not listed on an exchange normally are valued on the basis of prices provided by independent pricing services.

Principal Risks

Interested persons are referred to the discussion in the prospectus for the Fund of the principal risks of an investment in the Fund. These include: Management Risk, Investment Strategy Risk, Futures Contract Risk, Counterparty Risk, Liquidity Risk, Foreign Exchange Risk, Hedging Risk, Diversification of Strategies Risk, Short Sales Risk, Leverage Risk, Collateral Securities Risk, Currency Risk, Interest Rate Risk, Valuation Risk, Equity Risk, Risk of Investing in Investment Companies, Cash Transaction Risk, Tax Risk, Non-Diversified Fund Risk, Portfolio Turnover Risk, Market Risk, Market Trading Risk, Small and Medium Capitalization Company Risk, Investment Risk, Commodity Pool Risk, Non-Principal Investment Strategies, Borrowing Money, VIX Index Risk, Trading Issues and Shares May Trade at Prices Different Than NAV.

Exchange Rules Applicable to Trading in the Shares

Trading in the Shares on IEX is subject to IEX trading rules.

Trading Hours

The value of the Index underlying the Shares will be disseminated to data vendors every 15 seconds during the Regular Trading Session.

The Shares will trade on IEX between 8:00 a.m. and 5:00 p.m. Please note that trading in the Shares during the Exchange’s Pre-Market and Post-Market Sessions (“Extended Market Sessions”) may result in additional trading risks which include: (1) that the current underlying indicative value may not be updated

during the Extended Market Sessions, (2) lower liquidity in the Extended Market Sessions may impact pricing, higher volatility in the Extended Market Sessions may impact pricing, (4) wider spreads may occur in the Extended Markets Sessions, and (5) because the indicative value is not calculated or widely disseminated during the Extended Market Sessions, an investor who is unable to calculate an implied value for the Shares in those sessions may be at a disadvantage to market professionals.

Dissemination of Data

The Consolidated Tape Association will disseminate real time trade and quote information for the Shares to Tape B.

Delivery of a Prospectus

Exchange Members should be mindful of applicable prospectus delivery requirements under the federal securities laws with respect to transactions in the Fund. Prospectuses may be obtained through the Fund's website. The Prospectus for the Fund does not contain all of the information set forth in the Funds Registration Statement (including the exhibits to the Registration Statement), parts of which have been omitted in accordance with the rules and regulations of the SEC. For further information about the Fund, please refer to its Registration Statement.

In the event that the Fund relies upon an order by the SEC exempting the Shares from certain prospectus delivery requirements under Section 24(d) of the 1940 Act and in the future make available a written product description, Exchange Rules require that Exchange Members provide to all purchasers of Shares a written description of the terms and characteristics of such securities, in a form prepared by the Issuer of the Fund, no later than the time a confirmation of the first transaction in the Shares is delivered to such purchaser. In addition, Exchange Members shall include such a written description with any sales material relating to the Shares that is provided to customers or the public. Any other written materials provided by an Exchange member to customers or the public making specific reference to the Shares as an investment vehicle must include a statement in substantially the following form: "A circular describing the terms and characteristics of [*the UTP Derivative Securities*] has been prepared by the [*open-ended management investment company name*] and is available from your broker. It is recommended that you obtain and review such circular before purchasing [*the UTP Derivative Securities*]."

An Exchange member carrying an omnibus account for a non-member broker-dealer is required to inform such non-member that execution of an order to purchase Shares for such omnibus account will be deemed to constitute agreement by the non-member to make such written description available to its customers on the same terms as are directly applicable to such Exchange member under this rule.

Upon request of a customer, Exchange Members also shall provide a copy of the Prospectus.

Suitability

Trading in the securities on the Exchange will be subject to the provisions of IEX Rule 3.170 and other applicable suitability rules. Members recommending transactions in the securities to customers should make a determination that the recommendation is suitable for the customer.

Trading Halts

The Exchange will halt trading in the Shares of a security in accordance with Exchange Rules. The grounds for a halt include a halt because the intraday indicative value of the security and/or the value of its underlying index are not being disseminated as required, a halt for other regulatory reasons or due to other conditions or circumstances deemed to be detrimental to the maintenance of a free and orderly market.

Exemptive, Interpretive and No-Action Relief Under Federal Securities Regulations

The Securities and Exchange Commission (the “SEC”) has issued letters granting exemptive, interpretive and no-action relief from certain provisions of rules under the Securities Exchange Act of 1934 for exchange-traded securities listed and traded on a registered national securities exchange that meet certain criteria.

AS WHAT FOLLOWS IS ONLY A SUMMARY OF THE RELIEF OUTLINED IN THE NO-ACTION LETTERS REFERENCED ABOVE, THE EXCHANGE ADVISES INTERESTED PARTIES TO CONSULT THE NO-ACTION LETTERS FOR MORE COMPLETE INFORMATION REGARDING THE MATTERS COVERED THEREIN AND THE APPLICABILITY OF THE RELIEF GRANTED IN RESPECT OF TRADING IN SECURITIES. INTERESTED PARTIES SHOULD ALSO CONSULT THEIR PROFESSIONAL ADVISORS.

Regulation M Exemptions

Generally, Rules 101 and 102 of Regulation M prohibit any “distribution participant” and its “affiliated purchasers” from bidding for, purchasing, or attempting to induce any person to bid for or purchase any security which is the subject of a distribution until after the applicable restricted period, except as specifically permitted in Regulation M. The provisions of the Rules apply to underwriters, prospective underwriters, brokers, dealers, and other persons who have agreed to participate or are participating in a distribution of securities.

The SEC has granted an exemption from Rule 101 under Regulation M to permit persons participating in a distribution of Shares of the above-mentioned Fund to engage in secondary market transactions in such Shares during their participation in such a distribution. In addition, the SEC has granted relief under Regulation M to permit persons who may be deemed to be participating in the distribution of Shares of the above-mentioned Fund (i) to purchase securities for the purpose of purchasing Creation Unit Aggregations of Fund Shares and (ii) to tender securities for redemption in Creation Unit Aggregations. Further, the SEC has clarified that the tender of Fund Shares to the Fund for redemption does not constitute a bid for or purchase of any of the Funds’ securities during the restricted period of Rule 101. The SEC has also granted an exemption pursuant to paragraph (e) of Rule 102 under

Regulation M to allow the redemption of Fund Shares in Creation Unit Aggregations during the continuous offering of Shares.

Rule 10b-10 (Customer Confirmations for Creation or Redemption of Fund Shares)

Broker-dealers who handle purchases or redemptions of Fund Shares in Creation Unit size for customers will be permitted to provide such customers with a statement of the number of Creation Unit Aggregations created or redeemed without providing a statement of the identity, number and price of Shares of the individual securities tendered to the Fund for purposes of purchasing Creation Unit Aggregations ("Deposit Securities") or the identity, number and price of Shares to be delivered by the Trust for the Fund to the redeeming holder ("Redemption Securities"). The composition of the securities required to be tendered to the Fund for creation purposes and of the securities to be delivered on redemption will be disseminated each business day and will be applicable to requests for creations or redemption, as the case may be, on that day. This exemptive relief under Rule 10b-10 with respect to creations and redemption is subject to the following conditions:

- 1) Confirmations to customers engaging in creations or redemptions must state that all information required by Rule 10b-10 will be provided upon request;
- 2) Any such request by a customer for information required by Rule 10b-10 will be filed in a timely manner, in accordance with Rule 10b-10(c); and
- 3) Except for the identity, number, and price of Shares of the component securities of the Deposit Securities and Redemption Securities, as described above, confirmations to customers must disclose all other information required by Rule 10b-10(a).

Section 11(d)(1); Rules 11d1-1 and 11d1-2

Section 11(d)(1) of the Act generally prohibits a person who is both a broker and a dealer from effecting any transaction in which the broker-dealer extends credit to a customer on any security which was part of a new issue in the distribution of which he participated as a member of a selling syndicate or group within thirty days prior to such transaction. The SEC has clarified that Section 11(d)(1) does not apply to broker-dealers that are not Authorized Participants (and, therefore, do not create Creation Unit Aggregations) that engage in both proprietary and customer transactions in Shares of a Fund in the secondary market, and for broker-dealer Authorized Participants that engage in creations of Creation Unit Aggregations. This relief is subject to specific conditions, including the condition that such broker-dealer (whether or not an Authorized Participant) does not, directly or indirectly, receive from the Fund complex any payment, compensation or other economic incentive to promote or sell the Shares of a Fund to persons outside the fund complex, other than non-cash compensation permitted under NASD Rule 2830(l)(5)(A), (B) or (C). (See letter from Catherine McGuire, Chief Counsel, SEC Division of Market Regulation, to Securities Industry Association, Derivative Products Committee, dated November 21, 2005.) The SEC also has taken a no-action position under Section 11(d)(1) of the Act that broker-dealers may treat Shares of a Fund, for purposes of Rule 11d1-2, as "securities issued by a registered open-end investment company as defined in the Investment Company Act" and thereby extend credit or maintain or arrange for the extension or maintenance of credit on Shares that have been owned by the persons to whom credit is provided for more than 30 days, in reliance on the exemption contained in the rule.

Rule 14e-5

An exemption from Rule 14e-5 has been granted to permit any person acting as a dealer-manager of a tender offer for a component security of the Fund (1) to redeem Fund Shares in Creation Unit Aggregations from the issuer that may include a security subject to such tender offer and (2) to purchase Fund Shares during such tender offer. In addition, a no-action position has been taken under Rule 14e-5 if a broker-dealer acting as a dealer-manager of a tender offer for a security of the Fund purchases or arranges to purchase such securities in the secondary market for the purpose of tendering such securities to purchase one or more Creation Unit Aggregations of Shares, if made in conformance with the following:

- 1) such bids or purchases are effected in the ordinary course of business, in connection with a basket of 20 or more securities in which any security that is the subject of a distribution, or any reference security, does not comprise more than 5% of the value of the basket purchase; or
- 2) purchases are effected as adjustments to such basket in the ordinary course of business as a result of a change in the composition of the underlying index; and
- 3) such bids or purchases are not effected for the purpose of facilitating such tender offer.

SEC Rule 15c1-5 and 15c1-6

The SEC has taken a no-action position with respect to Rule 15c1-5 and Rule 15c1-6 as to the required disclosure of control by a broker or dealer with respect to creations and redemptions of Fund Shares and secondary market transactions therein. (See letter from Catherine McGuire, Chief Counsel, SEC Division of Market Regulation, to Securities Industry Association, Derivative Products Committee, dated November 21, 2005.)

This Information Circular is not a statutory prospectus. Members should consult the Prospectus for a security and the security's website for relevant information.
