The purpose of this information circular is to outline various rules and policies that will be applicable to trading in these new products pursuant to the Exchange’s unlisted trading privileges, as well as to provide certain characteristics and features of the Shares. For a more complete description of the Issuer, the Shares and the underlying market instruments or indexes, visit the Issuer Website, consult the Prospectus available on the Issuer Website, examine the Issuer Registration Statement or review the most current information bulletin issued by the Primary Listing Exchange. The Issuer Website, the Prospectus, the Issuer Registration Statement and the Primary Exchange Circular are hereafter collectively referred to as the “Issuer Disclosure Materials.”

Background Information on the Fund

The iShares Trust (the “Trust”) is a management investment company registered under the Investment Company Act of 1940, as amended (the “1940 Act”). The Trust consists of several exchange-traded funds (each, a “Fund” and collectively, the “Funds”). This circular refers only to the Funds listed above. The shares of each of the Funds listed above are referred to herein as “Shares.” BlackRock Fund Advisors (“BFA” or the “Advisor”) is the investment advisor for the Funds.

The iShares Emerging Markets Local Currency Bond Fund seeks investment results that correspond generally to the price and yield performance, before fees and expenses, of the Barclays Capital Emerging Markets Broad Local Currency Bond Index (the “Bond Index”).

The Bond Index measures the performance of local currency-denominated sovereign bond markets of emerging market countries. As of September 30, 2011, there were 289 issues in the Bond Index.

Securities included in the Bond Index must be issued by countries that satisfy certain eligibility requirements for emerging market countries, and meet separate security-specific requirements.

Eligible issuer countries must have a sovereign rating of A1/A+ or lower using the middle foreign currency long-term debt rating of Moody's Investors Service, Inc. ("Moody's"), Standard & Poor's (a division of The McGraw-Hill Companies, Inc.) ("S&P") or Fitch, Inc. ("Fitch") or be classified by the World Bank as a Low, Low/Middle or Upper/Middle Income country. Countries that are part of the euro area are excluded from the Underlying Index, regardless of their rating or World Bank classification. Eligible issuer countries must also have at least the local currency equivalent of US \$5 billion face amount of aggregate local currency treasury debt with maturities greater than one year outstanding as of July 1 of the preceding year. Each security issued by an eligible emerging market country included in the Bond Index must separately have the local currency equivalent of US \$1 billion face amount outstanding and meet certain pricing and maturity requirements. Treasury bills and strips, floating-rate issues, inflation-linked bonds, dual currency bonds, and private placements are excluded from the Bond Index.

As of September 30, 2011, the Bond Index included securities issued by Brazil, Chile, Colombia, the Czech Republic, Egypt, Hungary, Indonesia, Israel, Malaysia, Mexico, Peru, the Philippines, Poland, Russia, South Africa, South Korea, Thailand and Turkey.

The iShares MSCI USA Minimum Volatility Index Fund seeks investment results that correspond generally to the price and yield performance, before fees and expenses, of the MSCI USA Minimum Volatility Index (the "USA Index").

The USA Index has been developed by MSCI Inc. ("MSCI") to measure the performance of equity securities in the top 85% by market capitalization of equity securities listed on stock exchanges in the United States that have lower absolute volatility. The USA Index begins with the MSCI USA Index, which is a capitalization-weighted index, and then follows a rules-based methodology to determine weights for securities in the index that seeks to minimize total risk of the MSCI USA Index. As of September 1, 2011, the USA Index had 126 constituents. Component companies include consumer staples, health care and information technology companies.

The iShares MSCI EAFE Minimum Volatility Index Fund seeks investment results that correspond generally to the price and yield performance, before fees and expenses, of the MSCI EAFE Minimum Volatility Index (the "Volatility Index").

The Volatility Index has been developed by MSCI to measure the performance of international equity securities that have lower absolute volatility. The Volatility Index begins with the MSCI EAFE Index, which is a capitalization-weighted index, and then follows a rules-based methodology to determine weights for securities in the index that seeks to minimize total risk of the MSCI EAFE Index. The Volatility Index includes stocks from Europe, Australasia, the Middle East and the Far East and, as of September 1, 2011, consisted of the following 19 developed market country indexes: Australia, Belgium, Denmark, Finland, France, Germany, Hong Kong, Ireland, Israel, Italy, Japan, the Netherlands, New Zealand, Portugal, Singapore, Spain, Sweden, Switzerland and the United Kingdom. Component companies include consumer staples, financials and health care companies.

The iShares MSCI All Country World Minimum Volatility Index Fund seeks investment results that correspond generally to the price and yield performance, before fees and expenses, of the MSCI All Country World Minimum Volatility Index (the "World Volatility Index").

The World Volatility Index has been developed by MSCI to measure the combined performance of equity securities in both emerging and developed markets that have lower absolute volatility. The

World Volatility Index begins with the MSCI All Country World Index (the “MSCI ACWI Index”) which is a capitalization-weighted index, and then follows a rules-based methodology to determine optimal weights for securities in the index with the lowest total risk. As of September 1, 2011, the World Volatility Index consisted of

companies in the following 25 countries: Australia, Belgium, Canada, Chile, China, the Czech Republic, Denmark, Egypt, Finland, France, Hong Kong, Indonesia, Israel, Italy, Japan, Malaysia, Morocco, the Philippines, Singapore, Spain, Switzerland, Taiwan, Thailand, the United Kingdom and the United States. Component companies include consumer staples, financials and health care companies.

The iShares MSCI Emerging Markets Minimum Volatility Index Fund (the “Fund”) seeks investment results that correspond generally to the price and yield performance, before fees and expenses, of the MSCI Emerging Markets Minimum Volatility Index (the “EM Volatility Index”).

The EM Volatility Index has been developed by MSCI to measure the performance of equity securities in global emerging markets that have lower absolute volatility. The EM Volatility Index begins with the MSCI Emerging Markets Index, which is a capitalization-weighted index, and then follows a rules-based methodology to determine optimal weights for securities in the index with the lowest total risk. As of September 1, 2011, the EM Volatility Index consisted of companies in the following 19 countries: Brazil, Chile, China, Colombia, the Czech Republic, Egypt, India, Indonesia, Malaysia, Mexico, Morocco, Peru, the Philippines, Poland, Russia, South Africa, South Korea, Taiwan and Thailand. Component companies include consumer staples, financials and telecommunication services companies.

As described more fully in the Trust’s prospectus and Statement of Additional Information (“SAI”), the Funds issue and redeem Shares at net asset value (“NAV”) only in large blocks of 100,000 Shares (each block of Shares called a “Creation Unit”) for USMV, or 200,000 Shares for LEMB, EFAV, ACWV and EEMV, or multiples thereof. As a practical matter, only broker-dealers or large institutional investors with creation and redemption agreements (called Authorized Participants) can purchase or redeem these Creation Units. Except when aggregated in Creation Units, the Shares may not be redeemed with the Funds.

For USMV, dividends from net investment income, if any, generally are declared and paid quarterly by the Fund. Distributions of net realized securities gains, if any, generally are declared and paid once a year, but the Trust may make distributions on a more frequent basis for the Fund.

For LEMB, dividends from net investment income, if any, generally are declared and paid monthly by the Fund. Distributions of net realized securities gains, if any, generally are declared and paid once a year, but the Company may make distributions on a more frequent basis for the Fund.

For EFAV, ACWV and EEMV, dividends from net investment income, if any, generally are declared and paid semi-annually by the Fund. Distributions of net realized securities gains, if any, generally are declared and paid once a year, but the Trust may make distributions on a more frequent basis for the Fund.

Shares are held in book-entry form, which means that no Share certificates are issued. The Depository Trust Company or its nominee is the record owner of all outstanding Shares of the Funds and is recognized as the owner of all Shares for all purposes.

The NAV per Share for each Fund is computed by dividing the value of the net assets of the Fund (i.e., the value of its total assets less total liabilities) by the total number of Shares outstanding. Expenses and fees are accrued daily and taken into account for purposes of determining NAV. The NAV of each Fund

is determined each business day after the close of trading (ordinarily 4:00 p.m., Eastern Time or “ET”) of the New York Stock Exchange. Any assets or liabilities denominated in currencies other than the U.S. dollar are converted into U.S. dollars at the current market rates on the date of valuation as quoted by one or more sources.

Please see the Fund’s prospectus for more information regarding the Fund and its investment objective.

The registration statement for the Funds describes the various fees and expenses for the Funds’ Shares. For a more complete description of the Funds and the underlying indexes, visit the Issuer Website.

Principal Risks

Interested persons are referred to the discussion in the prospectus for the Funds of the principal risks of an investment in the Funds. These include tracking error risk (factors causing a Fund’s performance to not match the performance of its underlying index), market trading risk (for example, trading halts, trading above or below net asset value), investment style risk, sector risk, investment approach risk, non- diversification risk, issuer-specific risk, management risk, fixed income risk and foreign securities risk.

Exchange Rules Applicable to Trading in the Shares

Trading in the Shares on IEX is subject to IEX trading rules.

Trading Hours

The value of the Index underlying the Shares will be disseminated to data vendors every 15 seconds during the Regular Trading Session.

The Shares will trade on IEX between 8:00 a.m. and 5:00 p.m. Please note that trading in the Shares during the Exchange’s Pre-Market and Post-Market Sessions (“Extended Market Sessions”) may result in additional trading risks which include: (1) that the current underlying indicative value may not be updated during the Extended Market Sessions, (2) lower liquidity in the Extended Market Sessions may impact pricing, higher volatility in the Extended Market Sessions may impact pricing, (4) wider spreads may occur in the Extended Markets Sessions, and (5) because the indicative value is not calculated or widely disseminated during the Extended Market Sessions, an investor who is unable to calculate an implied value for the Shares in those sessions may be at a disadvantage to market professionals.

Dissemination of Data

The Consolidated Tape Association will disseminate real time trade and quote information for the Shares to Tape B.

Delivery of a Prospectus

Exchange Members should be mindful of applicable prospectus delivery requirements under the federal securities laws with respect to transactions in the Fund. Prospectuses may be obtained through the Funds' website. The prospectus for the Fund does not contain all of the information set forth in the Funds' Registration Statement (including the exhibits to the Registration Statement), parts of which have been omitted in accordance with the rules and regulations of the SEC. For further information about the Fund, please refer to its Registration Statement.

In the event that the Fund relies upon an order by the SEC exempting the Shares from certain prospectus delivery requirements under Section 24(d) of the Investment Company Act of 1940 and in the future make available a written product description, Exchange Rules require that Exchange Members provide to all purchasers of Shares a written description of the terms and characteristics of such securities, in a form prepared by the Issuer of the Fund, no later than the time a confirmation of the first transaction in the Shares is delivered to such purchaser. In addition, Exchange Members shall include such a written description with any sales material relating to the Shares that is provided to customers or the public. Any other written materials provided by an Exchange member to customers or the public making specific reference to the Shares as an investment vehicle must include a statement in substantially the following form: "A circular describing the terms and characteristics of [*the UTP Derivative Securities*] has been prepared by the [*open-ended management investment company name*] and is available from your broker. It is recommended that you obtain and review such circular before purchasing [*the UTP Derivative Securities*]."

An Exchange member carrying an omnibus account for a non-member broker-dealer is required to

inform such non-member that execution of an order to purchase Shares for such omnibus account will be deemed to constitute agreement by the non-member to make such written description available to its customers on the same terms as are directly applicable to Exchange member under this rule.

Upon request of a customer, Exchange Members also shall provide a copy of the Prospectus.

Suitability

Trading in the securities on the Exchange will be subject to the provisions of IEX Rule 3.170 and other applicable suitability rules. Members recommending transactions in the securities to customers should make a determination that the recommendation is suitable for the customer.

Trading Halts

The Exchange will halt trading in the Shares of a security in accordance with the Exchange Rules. The grounds for a halt under the Exchange Rules include a halt by the primary market because the intraday indicative value of the security and/or the value of its underlying index are not being disseminated as required, or a halt for other regulatory reasons. In addition, Exchange will stop trading the Shares of a security if the primary market de-lists the security.

Exemptive, Interpretive and No-Action Relief Under Federal Securities Regulations

The Securities and Exchange Commission (the "SEC") has issued letters granting exemptive, interpretive and no-action relief from certain provisions of rules under the Securities Exchange Act of 1934 for exchange-traded securities listed and traded on a registered national securities exchange that meet certain criteria.

AS WHAT FOLLOWS IS ONLY A SUMMARY OF THE RELIEF OUTLINED IN THE NO-ACTION LETTERS REFERENCED ABOVE, THE EXCHANGE ADVISES INTERESTED PARTIES TO CONSULT THE NO-ACTION LETTERS FOR MORE COMPLETE INFORMATION REGARDING THE MATTERS COVERED THEREIN AND THE APPLICABILITY OF THE RELIEF GRANTED IN RESPECT OF TRADING IN SECURITIES. INTERESTED PARTIES SHOULD ALSO CONSULT THEIR PROFESSIONAL ADVISORS.

Regulation M Exemptions

Generally, Rules 101 and 102 of Regulation M prohibit any "distribution participant" and its "affiliated purchasers" from bidding for, purchasing, or attempting to induce any person to bid for or purchase any security which is the subject of a distribution until after the applicable restricted period, except as specifically permitted in Regulation M. The provisions of the Rules apply to underwriters, prospective underwriters, brokers, dealers, and other persons who have agreed to participate or are participating in a distribution of securities.

The SEC has granted an exemption from Rule 101 under Regulation M to permit persons participating in a distribution of shares of the above-mentioned Fund to engage in secondary market transactions in such shares during their participation in such a distribution. In addition, the SEC has granted relief under Regulation M to permit persons who may be deemed to be participating in the distribution of Shares of

the above-mentioned Fund (i) to purchase securities for the purpose of purchasing Creation Unit Aggregations of Fund Shares and (ii) to tender securities for redemption in Creation Unit Aggregations. Further, the SEC has clarified that the tender of Fund Shares to the Fund for redemption does not constitute a bid for or purchase of any of the Fund's securities during the restricted period of Rule 101. The SEC has also granted an exemption pursuant to paragraph (e) of Rule 102 under Regulation M to allow the redemption of Fund Shares in Creation Unit Aggregations during the continuous offering of Shares.

Rule 10b-10 (Customer Confirmations for Creation or Redemption of Fund Shares)

Broker-dealers who handle purchases or redemptions of Fund Shares in Creation Unit size for customers will be permitted to provide such customers with a statement of the number of Creation Unit Aggregations created or redeemed without providing a statement of the identity, number and price of shares of the individual securities tendered to the Fund for purposes of purchasing Creation Unit Aggregations ("Deposit Securities") or the identity, number and price of shares to be delivered by the Trust for the Fund to the redeeming holder ("Redemption Securities"). The composition of the securities required to be tendered to the Fund for creation purposes and of the securities to be delivered on redemption will be disseminated each business day and will be applicable to requests for creations or redemption, as the case may be, on that day. This exemptive relief under Rule 10b-10 with respect to creations and redemption is subject to the following conditions:

- 1) Confirmations to customers engaging in creations or redemptions must state that all information required by Rule 10b-10 will be provided upon request;
- 2) Any such request by a customer for information required by Rule 10b-10 will be filed in a timely manner, in accordance with Rule 10b-10(c); and
- 3) Except for the identity, number, and price of shares of the component securities of the Deposit Securities and Redemption Securities, as described above, confirmations to customers must disclose all other information required by Rule 10b-10(a).

Rule 10b-17 (Untimely Announcement of Record Dates)

The SEC has granted an exemption from the requirements of Rule 10b-17 that will cover transactions in the Shares.

Section 11(d)(1); Rule 11d1-2 (Customer Margin)

The SEC has taken a no-action position under Section 11(d)(1) that will permit broker-dealers that do not create Shares but engage in both proprietary and customer transactions in such Shares exclusively in the secondary market to extend or maintain or arrange for the extension or maintenance of credit on the Shares, in connection with such secondary market transactions. For broker-dealers that engage in the creation of Shares, the SEC has also taken a no-action position under Rule 11d1-2 that will cover the extension or maintenance or the arrangement for the extension or maintenance of credit on the Shares that have been owned by the persons to whom credit is provided for more than 30 days.

Rule 14e-5

An exemption from Rule 14e-5 has been granted to permit any person acting as a dealer-manager of a tender offer for a component security of the Fund (1) to redeem Fund Shares in Creation Unit Aggregations from the issuer that may include a security subject to such tender offer and (2) to purchase Fund Shares during such tender offer. In addition, a no-action position has been taken under Rule 14e-5 if a broker-dealer acting as a dealer-manager of a tender offer for a security of the Fund purchases or arranges to purchase such securities in the secondary market for the purpose of tendering such securities to purchase one or more Creation Unit Aggregations of Shares, if made in conformance with the following:

- 1) such bids or purchases are effected in the ordinary course of business, in connection with a basket of 20 or more securities in which any security that is the subject of a distribution, or any reference security, does not comprise more than 5% of the value of the basket purchase; or
- 2) purchases are effected as adjustments to such basket in the ordinary course of business as a result of a change in the composition of the underlying index; and
- 3) such bids or purchases are not effected for the purpose of facilitating such tender offer.

SEC Rule 15c1-5 and 15c1-6 (Disclosure of Control and interest in Distributions)

The SEC has taken a no-action position under Rule 15c1-5 that will permit a broker-dealer to execute transactions in Shares without disclosing any control relationship with an issuer of a component security. In addition, the SEC has taken a no-action position under Rule 15c1-6 that will permit a broker dealer to execute transactions in the Shares without disclosing its participation or interest in a primary or secondary distribution of a component security.
