Compliance and supervisory personnel should note that, among other things, this Information Circular discusses the need to deliver a prospectus to customers purchasing shares of the Fund (“Shares”) issued by the iShares Trust (“Trust”). Please forward this Information Circular to other interested persons within your organization.

The purpose of this information circular is to outline various rules and policies that will be applicable to

trading in these new products pursuant to the Exchange's unlisted trading privileges, as well as to provide certain characteristics and features of the Shares. For a more complete description of the Issuer, the Shares and the underlying market instruments or indexes, visit the Issuer Website, consult the Prospectus available on the Issuer Website or examine the Issuer Registration Statement or review the most current information bulletin issued by the Primary Listing Exchange. The Issuer Website, the Prospectus and the Issuer Registration Statement are hereafter collectively referred to as the "Issuer Disclosure Materials."

Background Information on the Funds

Each Fund seeks investment results that correspond (before fees and expenses) generally to the price and yield performance of its underlying index, as described below:

Fund Symbol	Index Name	Index Symbol
HAUD	MSCI Australia 100% Hedged to USD Index	MOAUHUSR
HEWC	MSCI Canada 100% Hedged to USD Index	MOC AHUSD
HEWI	MSCI Italy 25/50 100% Hedged to USD Index	MXIT25HR
HEWW	MSCI Mexico IMI 25/50 100% Hedged to USD Index	M1MXH5IM
HEWY	MSCI South Korea 25/50 100% Hedged to USD Index	M1KRH255
HEWP	MSCI Spain 25/50 100% Hedged to USD Index	MXES25HR
HEWL	MSCI Switzerland 25/50 100% Hedged to USD Index	MXCH25HR
HEWU	MSCI United Kingdom 100% Hedged to USD Index	MOUKHUSD
HACW	MSCI ACWI 100% Hedged to USD Index	MXCXDMHR

HAWX	MSCI ACWI ex USA 100% Hedged to USD Index	M1WDUHE
HSCZ	MSCI EAFE Small-Cap 100% Hedged to USD Index	MXEASCHR

Each Fund employs a "passive management" - or indexing - investment approach designed to track the performance of its Index. Each Index sells forward the total value of the non-U.S. dollar denominated securities included in the Index at a one-month forward rate to effectively create a "hedge" against fluctuations in the relative value of each non-U.S. currency in relation to the U.S. dollar. The hedge is reset on a monthly basis.

Each Fund generally will invest at least 90% of its assets in the component securities (including indirect investments through an underlying fund) and other instruments of the underlying Index and in investments that have economic characteristics that are substantially identical to the component securities of the Index (i.e., depositary receipts representing securities of the Index) and may invest up to 10% of its assets in certain futures, options and swap contracts, cash and cash equivalents, including shares of money market funds advised by the Adviser or its affiliates, as well as in securities not included in the Index, but which the Adviser believes will help the Fund track the Index.

The **MSCI Australia 100% Hedged to USD Index** (the "Australia Index") consists of stocks traded primarily on the Australian Stock Exchange with the currency risk of the securities included in the Australia Index hedged to the U.S. dollar on a monthly basis. The Australia Index may include large-, mid- or small- capitalization companies, and the components primarily include consumer staples, financials and materials companies.

The **MSCI Canada 100% Hedged to USD Index** (the "Canada Index") consists of stocks traded primarily on the Toronto Stock Exchange with the currency risk of the securities included in the Canada Index hedged to the U.S. dollar on a monthly basis. The Canada Index may include large-, mid- or small-capitalization companies, and the components primarily include energy, financials and materials companies.

The **MSCI Italy 25/50 100% Hedged to USD Index** (the "Italy Index") consists of stocks traded primarily on the Milan Stock Exchange with the currency risk of the securities included in the Italy Index hedged to the U.S. dollar on a monthly basis. The Italy Index is a free float-adjusted market capitalization-weighted index with a capping methodology applied to issuer weights so that no single issuer of a component exceeds 25% of the index weight, and all issuers with weight above 5% do not exceed 50% of the index weight. The Italy Index may include large-, mid- or small-capitalization companies, and the components primarily include energy, financials and utilities companies.

The **MSCI Mexico Investable Market Index (IMI) 25/50 100% Hedged to USD Index** (the "Mexico Index") consists of stocks traded primarily on the Mexican Stock Exchange with the currency risk of the securities included in the Mexico Index hedged to the U.S. dollar on a monthly basis. The Mexico Index is a free float- adjusted market capitalization-weighted index with a capping methodology applied to issuer weights so that no single issuer of a component exceeds 25% of the index weight, and all issuers with weight above 5% do not cumulatively exceed 50% of the index weight. The Mexico Index may include large-, mid- or small- capitalization companies, and the components primarily include consumer staples,

financials and telecommunications companies.

The **MSCI Korea 25/50 100% Hedged to USD Index** (the “Korea Index”) consists of stocks traded primarily on the Stock Market Division of the Korea Exchange with the currency risk of the securities included in the Korea Index hedged to the U.S. dollar on a monthly basis. The Korea Index is a free float-adjusted market capitalization-weighted index with a capping methodology applied to issuer weights so that no single issuer of a component exceeds 25% of the index weight, and all issuers with weight above 5% do not cumulatively exceed 50% of the index weight. The Korea Index may include large-, mid- or small-capitalization companies, and the components primarily include consumer discretionary, financials and information technology companies.

The **MSCI Spain 25/50 100% Hedged to USD Index** (the “Spain Index”) consists of stocks traded primarily on the Madrid Stock Exchange with the currency risk of the securities included in the Spain Index hedged to the U.S. dollar on a monthly basis. The Spain Index is a free float-adjusted market capitalization-weighted index with a capping methodology applied to issuer weights so that no single issuer of a component exceeds 25% of the index weight, and all issuers with weight above 5% do not exceed 50% of the index weight. The Spain Index may include large-, mid- or small-capitalization companies, and the components primarily include financials, industrials, telecommunications, and utilities companies.

The **MSCI Switzerland 25/50 100% Hedged to USD Index** (the “Swiss Index”) consists of stocks traded primarily on the Zurich Stock Exchange with the currency risk of the securities included in the Swiss Index hedged to the U.S. dollar on a monthly basis. The Swiss Index is a free float-adjusted market capitalization-weighted index with a capping methodology applied to issuer weights so that no single issuer of a component exceeds 25% of the index weight, and all issuers with weight above 5% do not cumulatively exceed 50% of the index weight. The Swiss Index may include large-, mid- or small-capitalization companies, and the components primarily include consumer staples, financials and healthcare companies.

The **MSCI United Kingdom 100% Hedged to USD Index** (the “UK Index”) consists of stocks traded primarily on the London Stock Exchange with the currency risk of the securities included in the UK Index hedged to the U.S. dollar on a monthly basis. The UK Index may include large-, mid- or small-capitalization companies, and the components primarily include consumer staples, energy and financials companies.

The **MSCI ACWI 100% Hedged to USD Index** (the “ACWI Index”) is an equity benchmark for developed and emerging markets equity stock market performance with the currency risk of the securities included in the ACWI Index hedged to the U.S. dollar on a monthly basis. As of June 1, 2015, the ACWI Index consisted of securities from the following countries or regions: Australia, Austria, Belgium, Brazil, Canada, Chile, China, Colombia, the Czech Republic, Denmark, Egypt, Finland, France, Germany, Greece, Hong Kong, Hungary, India, Indonesia, Ireland, Israel, Italy, Japan, Malaysia, Mexico, the Netherlands, New Zealand, Norway, Peru, the Philippines, Poland, Portugal, Qatar, Russia, Singapore, South Africa, South Korea, Spain, Sweden, Switzerland, Taiwan, Thailand, Turkey, the United Arab Emirates, the United Kingdom and the United States. The ACWI Index may include large-, mid- or small-capitalization companies, and the components primarily include consumer discretionary, financials, healthcare and information technology companies.

The **MSCI ACWI ex USA 100% Hedged to USD Index** (the “ACWI ex USA Index”) is an equity benchmark for developed and emerging markets equity stock market performance, excluding the U.S., with the currency risk of the securities included in the ACWI ex USA Index hedged to the U.S. dollar on a monthly basis. As of June 1, 2015, the ACWI ex USA Index consisted of securities from the following

countries or regions: Australia, Austria, Belgium, Brazil, Canada, Chile, China, Colombia, the Czech Republic, Denmark, Egypt, Finland, France, Germany, Greece, Hong Kong, Hungary, India, Indonesia, Ireland, Israel, Italy, Japan, Malaysia, Mexico, the Netherlands, New Zealand, Norway, Peru, the Philippines, Poland, Portugal, Qatar, Russia, Singapore, South Africa, South Korea, Spain, Sweden, Switzerland, Taiwan, Thailand, Turkey, the United Arab Emirates, and the United Kingdom. The ACWI ex USA Index may include large-, mid- or small-capitalization companies, and the components primarily include consumer discretionary, financials and industrials companies.

The **MSCI EAFE Small Cap 100% Hedged to USD Index** (the “EAFE Index”) is an equity benchmark which represents the performance of international small-cap stocks with the currency risk of the securities included in the EAFE Index hedged to the U.S. dollar on a monthly basis. As of June 1, 2015, the EAFE Index consisted of the following 21 developed market countries or regions: Australia, Austria, Belgium, Denmark, Finland, France, Germany, Hong Kong, Ireland, Israel, Italy, Japan, the Netherlands, New Zealand, Norway, Portugal, Singapore, Spain, Sweden, Switzerland and the United Kingdom. Under MSCI’s Global Investable Market Index methodology, the small-cap universe consists of securities of those companies not included in the large-cap or mid-cap segments of a particular market, which together comprise approximately 85% of each market’s free float-adjusted market capitalization. The small-cap segment covers the 85%-99% range of each market’s free float-adjusted market capitalization. The components primarily include consumer discretionary, financials and industrials companies.

For more information regarding each Fund’s investment strategy, please read the Trust’s prospectus for the Funds.

As described more fully in the Trust’s prospectus and Statement of Additional Information, each Fund will issue and redeem Shares on a continuous basis at their net asset value (“NAV”). Each Fund will issue or redeem shares that have been aggregated into blocks of 50,000 shares and or multiples thereof (“Creation Units”) to authorized participants who have entered into agreements with the Funds’ distributor. The Funds generally will issue or redeem Creation Units in return for a designated portfolio of securities (and an amount of cash) that the Funds specify each day.

Shares are held in book-entry form, which means that no share certificates are issued. The Depository Trust Company or its nominee is the record owner of all outstanding Shares and is recognized as the owner of all Shares for all purposes.

The NAV of each Fund is generally determined as of the close of trading (normally 4:00 p.m., Eastern Time) on each day the New York Stock Exchange is open for business. The NAV of the Fund is calculated by dividing the value of the net assets of the Fund (i.e., the value of its total assets less total liabilities) by the total number of outstanding shares of the Fund, generally rounded to the nearest cent.

Principal Risks

Interested persons are referred to each Fund’s Prospectus for a description of risks associated with an investment in a Fund. These risks include, but are not limited to, asset class risk, authorized participant concentration risk, concentration risk, consumer discretionary sector risk, consumer staples sector risk,

currency hedging risk, currency risk, derivatives risk, energy sector risk, equity securities risk, financials sector risk, geographic risk, healthcare sector risk, index-related risk, industrials sector risk, information technology sector risk, investment in underlying fund risk, issuer risk, management risk, market risk, market trading risk, materials sector risk, mid-capitalization companies risk, non-diversification risk, non-

U.S. securities risk, passive investment risk, privatization risk, reliance on trading partners risk, securities lending risk, security risk, small-capitalization companies risk, structural risk, tax risk, telecommunications sector risk, tracking error risk, utilities risk, valuation risk, and, as applicable, risk of investing in emerging markets, custody risk, risk of investing in developed countries, risk of investing in Australia, risk of investing in Canada, risk of investing in Italy, risk of investing in Mexico, risk of investing in South Korea, risk of investing in Spain, risk of investing in Switzerland, risk of investing in the United Kingdom, risk of investing in Japan, and risk of investing in the United States. In addition, the market prices of the Shares will fluctuate in accordance with changes in NAV as well as the supply and demand for the Shares. As a result, the Shares may trade at market prices that may differ from their NAV. The NAV of the Shares will fluctuate with changes in the market value of a Fund's holdings.

Exchange Rules Applicable to Trading in the Shares

Trading in the Shares on IEX is subject to IEX trading rules.

Trading Hours

The value of the Index underlying the Shares will be disseminated to data vendors every 15 seconds during the Regular Trading Session.

The Shares will trade on IEX between 8:00 a.m. and 5:00 p.m. Please note that trading in the Shares during the Exchange's Pre-Market and Post-Market Sessions ("Extended Market Sessions") may result in additional trading risks which include: (1) that the current underlying indicative value may not be updated during the Extended Market Sessions, (2) lower liquidity in the Extended Market Sessions may impact pricing, (3) higher volatility in the Extended Market Sessions may impact pricing, (4) wider spreads may occur in the Extended Markets Sessions, and (5) because the indicative value is not calculated or widely disseminated during the Extended Market Sessions, an investor who is unable to calculate an implied value for the Shares in those sessions may be at a disadvantage to market professionals.

Dissemination of Data

The Consolidated Tape Association will disseminate real time trade and quote information for the Shares to Tape B.

Delivery of a Prospectus

Exchange Members should be mindful of applicable prospectus delivery requirements under the federal securities laws with respect to transactions in the Fund. Prospectuses may be obtained through the Fund's website. The Prospectus for the Fund does not contain all of the information set forth in the Funds Registration Statement (including the exhibits to the Registration Statement), parts of which have been omitted in accordance with the rules and regulations of the SEC. For further information about the Fund, please refer to its Registration Statement.

In the event that the Fund relies upon an order by the SEC exempting the Shares from certain prospectus delivery requirements under Section 24(d) of the 1940 Act and in the future make available a written product description, Exchange Rules require that Exchange Members provide to all purchasers of Shares a written description of the terms and characteristics of such securities, in a form prepared by

the Issuer of the Fund, no later than the time a confirmation of the first transaction in the Shares is delivered to such purchaser. In addition, Exchange Members shall include such a written description with any sales material relating to the Shares that is provided to customers or the public. Any other written materials provided by an Exchange member to customers or the public making specific reference to the Shares as an investment vehicle must include a statement in substantially the following form: “A circular describing the terms and characteristics of [*the UTP Derivative Securities*] has been prepared by the [*open-ended management investment company name*] and is available from your broker. It is recommended that you obtain and review such circular before purchasing [*the UTP Derivative Securities*].”

An Exchange member carrying an omnibus account for a non-member broker-dealer is required to inform such non-member that execution of an order to purchase Shares for such omnibus account will be deemed to constitute agreement by the non-member to make such written description available to its customers on the same terms as are directly applicable to such Exchange member under this rule.

Upon request of a customer, Exchange Members also shall provide a copy of the Prospectus.

Suitability

Trading in the securities on the Exchange will be subject to the provisions of IEX Rule 3.170 and other applicable suitability rules. Members recommending transactions in the securities to customers should make a determination that the recommendation is suitable for the customer.

Trading Halts

The Exchange will halt trading in the Shares of a security in accordance with Exchange Rules. The grounds for a halt include a halt because the intraday indicative value of the security and/or the value of its underlying index are not being disseminated as required, a halt for other regulatory reasons or due to other conditions or circumstances deemed to be detrimental to the maintenance of a free and orderly market.

Exemptive, Interpretive and No-Action Relief Under Federal Securities Regulations

The Securities and Exchange Commission (the “SEC”) has issued letters granting exemptive, interpretive and no-action relief from certain provisions of rules under the Securities Exchange Act of 1934 for exchange-traded securities listed and traded on a registered national securities exchange that meet certain criteria.

AS WHAT FOLLOWS IS ONLY A SUMMARY OF THE RELIEF OUTLINED IN THE NO-ACTION LETTERS REFERENCED ABOVE, THE EXCHANGE ADVISES INTERESTED PARTIES TO CONSULT THE NO-ACTION LETTERS FOR MORE COMPLETE INFORMATION REGARDING THE MATTERS COVERED THEREIN AND THE APPLICABILITY OF THE RELIEF GRANTED IN RESPECT OF TRADING IN SECURITIES. INTERESTED PARTIES SHOULD ALSO CONSULT THEIR PROFESSIONAL ADVISORS.

Regulation M Exemptions

Generally, Rules 101 and 102 of Regulation M prohibit any “distribution participant” and its “affiliated purchasers” from bidding for, purchasing, or attempting to induce any person to bid for or purchase any security which is the subject of a distribution until after the applicable restricted period, except as specifically permitted in Regulation M. The provisions of the Rules apply to underwriters, prospective underwriters, brokers, dealers, and other persons who have agreed to participate or are participating in a distribution of securities.

The SEC has granted an exemption from Rule 101 under Regulation M to permit persons participating in a distribution of Shares of the above-mentioned Fund to engage in secondary market transactions in such Shares during their participation in such a distribution. In addition, the SEC has granted relief under Regulation M to permit persons who may be deemed to be participating in the distribution of Shares of the above-mentioned Fund (i) to purchase securities for the purpose of purchasing Creation Unit Aggregations of Fund Shares and (ii) to tender securities for redemption in Creation Unit Aggregations. Further, the SEC has clarified that the tender of Fund Shares to the Fund for redemption does not constitute a bid for or purchase of any of the Funds’ securities during the restricted period of Rule 101. The SEC has also granted an exemption pursuant to paragraph (e) of Rule 102 under Regulation M to allow the redemption of Fund Shares in Creation Unit Aggregations during the continuous offering of Shares.

Rule 10b-10 (Customer Confirmations for Creation or Redemption of Fund Shares)

Broker-dealers who handle purchases or redemptions of Fund Shares in Creation Unit size for customers will be permitted to provide such customers with a statement of the number of Creation Unit Aggregations created or redeemed without providing a statement of the identity, number and price of Shares of the individual securities tendered to the Fund for purposes of purchasing Creation Unit Aggregations (“Deposit Securities”) or the identity, number and price of Shares to be delivered by the Trust for the Fund to the redeeming holder (“Redemption Securities”). The composition of the securities required to be tendered to the Fund for creation purposes and of the securities to be delivered on redemption will be disseminated each business day and will be applicable to requests for creations or redemption, as the case may be, on that day. This exemptive relief under Rule 10b-10 with respect to creations and redemption is subject to the following conditions:

- 1) Confirmations to customers engaging in creations or redemptions must state that all information required by Rule 10b-10 will be provided upon request;
- 2) Any such request by a customer for information required by Rule 10b-10 will be filed in a timely manner, in accordance with Rule 10b-10(c); and
- 3) Except for the identity, number, and price of Shares of the component securities of the Deposit Securities and Redemption Securities, as described above, confirmations to customers must disclose all other information required by Rule 10b-10(a).

Section 11(d)(1); Rules 11d1-1 and 11d1-2

Section 11(d)(1) of the Act generally prohibits a person who is both a broker and a dealer from effecting any transaction in which the broker-dealer extends credit to a customer on any security which was part of a new issue in the distribution of which he participated as a member of a selling syndicate or group within thirty days prior to such transaction. The SEC has clarified that Section 11(d)(1) does not apply to broker- dealers that are not Authorized Participants (and, therefore, do not create Creation Unit

Aggregations) that engage in both proprietary and customer transactions in Shares of a Fund in the secondary market, and for broker-dealer Authorized Participants that engage in creations of Creation Unit Aggregations. This relief is subject to specific conditions, including the condition that such broker-dealer (whether or not an Authorized Participant) does not, directly or indirectly, receive from the Fund complex any payment, compensation or other economic incentive to promote or sell the Shares of a Fund to persons outside the fund complex, other than non-cash compensation permitted under NASD Rule 2830(l)(5)(A), (B) or (C). (See letter from Catherine McGuire, Chief Counsel, SEC Division of Market Regulation, to Securities Industry Association, Derivative Products Committee, dated November 21, 2005.) The SEC also has taken a no-action position under Section 11(d)(1) of the Act that broker-dealers may treat Shares of a Fund, for purposes of Rule 11d1-2, as "securities issued by a registered open-end investment company as defined in the Investment Company Act" and thereby extend credit or maintain or arrange for the extension or maintenance of credit on Shares that have been owned by the persons to whom credit is provided for more than 30 days, in reliance on the exemption contained in the rule.

Rule 14e-5

An exemption from Rule 14e-5 has been granted to permit any person acting as a dealer-manager of a tender offer for a component security of the Fund (1) to redeem Fund Shares in Creation Unit Aggregations from the issuer that may include a security subject to such tender offer and (2) to purchase Fund Shares during such tender offer. In addition, a no-action position has been taken under Rule 14e-5 if a broker-dealer acting as a dealer-manager of a tender offer for a security of the Fund purchases or arranges to purchase such securities in the secondary market for the purpose of tendering such securities to purchase one or more Creation Unit Aggregations of Shares, if made in conformance with the following:

- 1) such bids or purchases are effected in the ordinary course of business, in connection with a basket of 20 or more securities in which any security that is the subject of a distribution, or any reference security, does not comprise more than 5% of the value of the basket purchase; or
- 2) purchases are effected as adjustments to such basket in the ordinary course of business as a result of a change in the composition of the underlying index; and
- 3) such bids or purchases are not effected for the purpose of facilitating such tender offer.

SEC Rule 15c1-5 and 15c1-6

The SEC has taken a no-action position with respect to Rule 15c1-5 and Rule 15c1-6 as to the required disclosure of control by a broker or dealer with respect to creations and redemptions of Fund Shares and secondary market transactions therein. (See letter from Catherine McGuire, Chief Counsel, SEC Division of Market Regulation, to Securities Industry Association, Derivative Products Committee, dated November 21, 2005.)
