

Investors Exchange Product Information Circular 2016 - 0963

Date: September 14, 2016

Re: Global X Thematic ETFs

This Information Circular is being issued to advise you that the following securities have been approved for trading pursuant to unlisted trading privileges (“UTP”) on the Investors Exchange (“IEX” or the “Exchange”) as UTP Derivative Securities pursuant to IEX Rule 16.160. Compliance and supervisory personnel should note that, among other things, this Information Circular discusses the need to deliver a prospectus to customers purchasing shares of the exchange-traded funds. Please forward this Information Circular to interested persons within your organization.

<u>Security (the “Shares”)</u>	<u>Symbol</u>
Global X Longevity Thematic ETF	LNGR
Global X Health & Wellness	BFIT

Issuer: Global X Funds (“Trust”)

Website: www.globalx.com

Primary Listing Exchange: Nasdaq

Primary Exchange Circular: 05.10.2016

Issuer Registration Statement: 333-151713 and 811-22209

The purpose of this information circular is to outline various rules and policies that will be applicable to trading in these new products pursuant to the Exchange’s unlisted trading privileges, as well as to provide certain characteristics and features of the products. For a more complete description of the Issuer, the securities and the underlying market instruments or indexes, visit the Issuer Website, consult the Prospectus available on the Issuer Website or examine the Issuer Registration Statement or review the most current information bulletin issued by the Primary Listing Exchange.

Background Information on the Fund

The Global X Funds (the “Trust”) is a management investment company registered under the Investment Company Act of 1940, as amended (the “1940 Act”), consisting of several investment portfolios. This circular relates only to the Funds listed above (each, a “Fund” and together, the “Funds”). The shares of the Funds are referred to herein as “Shares.” Global X Management Company LLC (the “Adviser”) is the investment adviser to the Funds.

Global X Health & Wellness Thematic ETF

The Global X Health & Wellness Thematic ETF (“BFIT Fund”) seeks to provide investment results that correspond generally to the price and yield performance, before fees and expenses, of the INDXX Global Health & Wellness Index (“BFIT Underlying Index”).

The BFIT Fund invests more than 80% of its total assets in the securities of the Underlying Index and in American Depositary Receipts ("ADRs") and Global Depositary Receipts ("GDRs") based on the securities in the BFIT Underlying Index. The BFIT Fund's 80% investment policy is non-fundamental and requires 60 days' prior written notice to shareholders before it can be changed. The BFIT Fund may lend securities representing up to one-third of the value of the BFIT Fund's total assets (including the value of the collateral received).

The BFIT Underlying Index is designed to provide exposure to exchange-listed companies in developed markets that provide products and services that facilitate physical wellness through active and healthy lifestyles, including but not limited to companies involved in fitness equipment, fitness technology, athletic apparel, nutritional supplements, and organic/natural food offerings, (collectively, "Health & Wellness Companies"), as defined by INDXX, the provider of the BFIT Underlying Index ("Index Provider").

The eligible universe of the BFIT Underlying Index includes the most liquid and investable companies in accordance with the standard market capitalization and liquidity criteria associated with developed markets, as defined by the Index Provider. As of April 15, 2016, companies must have a minimum market capitalization of \$500 million and a minimum average daily turnover for the last 6 months greater than or equal to \$2 million in order to be eligible for inclusion in the BFIT Underlying Index. The BFIT Underlying Index may include components from the following countries: Australia, Austria, Belgium, Canada, Denmark, Finland, France, Germany, Hong Kong, Ireland, Israel, Italy, Japan, Netherlands, New Zealand, Norway, Portugal, Singapore, Spain, Sweden, Switzerland, South Korea, the United Kingdom and the United States.

From the eligible universe, the Index Provider identifies Health & Wellness Companies by applying a proprietary analysis that consists of two primary components: theme identification and company analysis. As of April 15, 2016, the Index Provider has identified the following five themes that are expected to provide the most exposure to Health & Wellness Companies: (1) Healthy Food, Nutrition and Weight Loss, (2) Fitness and Fitness Apparel, (3) Nutritional Supplements and Preventive Health Care, (4) Anti-Aging and (5) Wellness (collectively, "Health & Wellness Themes"). In order to be included in the BFIT Underlying Index, a company must be identified as having significant exposure to one of these Health & Wellness Themes. The Index Provider analyzes companies based on two primary criteria: revenue exposure and primary business operations. A company is to have significant exposure to one of the Health & Wellness Themes if (i), according to a public filing, it generates a majority of its revenue from the sale of products or services from one of the Health & Wellness Themes, (ii), in the absence of a revenue segment breakdown, it has stated its primary business to be in products and services focused on one of the Health & Wellness Themes. Accordingly, the BFIT Fund assets will be concentrated (that is, it will hold 25% or more of its total assets) in companies that provide products and services that facilitate physical health and wellness.

The BFIT Underlying Index is weighted according to a modified capitalization weighting methodology and is reconstituted and rebalanced annually. The BFIT Underlying Index may include large-, mid- or small-capitalization companies, and components primarily include consumer discretionary, consumer staples, health care and information technology companies. The BFIT Fund's investment objective and BFIT Underlying Index may be changed without shareholder approval.

The BFIT Underlying Index is sponsored by the Index Provider, which is an organization that is independent of the BFIT Fund and Global X Management Company LLC, the investment adviser for the BFIT Fund ("Adviser"). The Index Provider determines the relative weightings of the securities in the BFIT Underlying Index and publishes information regarding the market value of the BFIT Underlying Index.

The Adviser uses a “passive” or indexing approach to try to achieve the BFIT Fund’s investment objective. Unlike many investment companies, the BFIT Fund does not try to outperform the BFIT Underlying Index and does not seek temporary defensive positions when markets decline or appear overvalued.

The BFIT Fund generally will use a replication strategy. A replication strategy is an indexing strategy that involves investing in the securities of the BFIT Underlying Index in approximately the same proportions as in the BFIT Underlying Index. However, the BFIT Fund may utilize a representative sampling strategy with respect to the BFIT Underlying Index when a replication strategy might be detrimental or disadvantageous to shareholders, such as when there are practical difficulties or substantial costs involved in compiling a portfolio of equity securities to replicate the BFIT Underlying Index, in instances in which a security in the BFIT Underlying Index becomes temporarily illiquid, unavailable or less liquid, or as a result of legal restrictions or limitations (such as tax diversification requirements) that apply to the BFIT Fund but not the BFIT Underlying Index.

The Adviser expects that, over time, the correlation between the BFIT Fund’s performance and that of the BFIT Underlying Index, before fees and expenses, will exceed 95%. A correlation percentage of 100% would indicate perfect correlation. If the BFIT Fund uses a replication strategy, it can be expected to have greater correlation to the BFIT Underlying Index than if it uses a representative sampling strategy.

The BFIT Fund concentrates its investments (i.e., holds 25% or more of its total assets) in a particular industry or group of industries to approximately the same extent that the BFIT Underlying Index is concentrated. As of April 15, 2016, the BFIT Underlying Index was concentrated in the Consumer Discretionary Sector and the Consumer Staples Sector.

Global X Longevity Thematic ETF

The Global X Longevity Thematic ETF (“LNGR Fund”) seeks to provide investment results that correspond generally to the price and yield performance, before fees and expenses, of the INDXX Global Longevity Thematic Index (“LNGR Underlying Index”).

The LNGR Fund invests more than 80% of its total assets in the securities of the LNGR Underlying Index. The LNGR Fund’s 80% investment policy is non-fundamental and requires 60 days’ prior written notice to shareholders before it can be changed. The LNGR Fund may lend securities representing up to one-third of the value of the LNGR Fund’s total assets (including the value of the collateral received).

The LNGR Underlying Index is designed to provide exposure to exchange-listed companies in developed markets that facilitate the demographic trend of longer average life spans and the aging of the global population, including but not limited to companies involved in biotechnology, medical devices, pharmaceuticals, senior living facilities and specialized health care services (collectively, “Longevity Companies”), as defined by INDXX, the provider of the LNGR Underlying Index.

The eligible universe of the LNGR Underlying Index includes the most liquid and investable companies in accordance with the standard market capitalization and liquidity criteria associated with developed markets, as defined by the Index Provider. As of April 15, 2016, companies must have a minimum market capitalization of \$500 million and a minimum average daily turnover for the last 6 months greater than or equal to \$2 million in order to be eligible for inclusion in the LNGR Underlying Index. The LNGR Underlying Index may include components from the following countries: Australia, Austria, Belgium, Canada, Denmark, Finland, France, Germany, Hong Kong, Ireland, Israel, Italy, Japan, Netherlands, New Zealand, Norway, Portugal, Singapore, Spain, Sweden, Switzerland, South Korea, the United Kingdom

and the United States.

From the eligible universe, the Index Provider identifies Longevity Companies by applying a proprietary analysis that consists of two primary components: theme identification and company analysis. As of April 15, 2016, the Index Provider has identified the following five themes that are expected to provide the most exposure to Longevity Companies: (1) Health Care Products (2) Health Care Services, (3) Medical Devices, and (4) Senior Homes (collectively, "Longevity Themes"). In order to be included in the LNGR Underlying Index, a company must be identified as having significant exposure to one of these Longevity Themes. Companies are analyzed based on two primary criteria: revenue exposure and primary business operations. A company is deemed to have significant exposure to one of the Longevity Themes if (i), according to a public filing, it generates a majority of its revenue from one of the Longevity Themes, (ii), in the absence of a revenue segment breakdown, it has stated its primary business to be in products and services focused on one of the Longevity Themes. Accordingly, the LNGR Fund assets will be concentrated (that is, it will hold 25% or more of its total assets) in companies that provide products and services that facilitate the aging of the global population.

The LNGR Underlying Index is weighted according to a modified capitalization weighting methodology and is reconstituted and rebalanced annually. The LNGR Underlying Index may include large-, mid- or small-capitalization companies, and components primarily include health care, biotechnology and pharmaceuticals companies as well as real estate investment trusts ("REITs"). The LNGR Fund's investment objective and LNGR Underlying Index may be changed without shareholder approval.

The LNGR Underlying Index is sponsored by the Index Provider, which is an organization that is independent of the LNGR Fund and Global X Management Company LLC, the investment adviser for the LNGR Fund ("Adviser"). The Index Provider determines the relative weightings of the securities in the LNGR Underlying Index and publishes information regarding the market value of the LNGR Underlying Index.

The Adviser uses a "passive" or indexing approach to try to achieve the LNGR Fund's investment objective. Unlike many investment companies, the LNGR Fund does not try to outperform the LNGR Underlying Index and does not seek temporary defensive positions when markets decline or appear overvalued.

The LNGR Fund generally will use a replication strategy. A replication strategy is an indexing strategy that involves investing in the securities of the LNGR Underlying Index in approximately the same proportions as in the LNGR Underlying Index. However, the LNGR Fund may utilize a representative sampling strategy with respect to the LNGR Underlying Index when a replication strategy might be detrimental or disadvantageous to shareholders, such as when there are practical difficulties or substantial costs involved in compiling a portfolio of equity securities to replicate the LNGR Underlying Index, in instances in which a security in the LNGR Underlying Index becomes temporarily illiquid, unavailable or less liquid, or as a result of legal restrictions or limitations (such as tax diversification requirements) that apply to the LNGR Fund but not the LNGR Underlying Index.

The Adviser expects that, over time, the correlation between the LNGR Fund's performance and that of the LNGR Underlying Index, before fees and expenses, will exceed 95%. A correlation percentage of 100% would indicate perfect correlation. If the LNGR Fund uses a replication strategy, it can be expected to have greater correlation to the LNGR Underlying Index than if it uses a representative sampling strategy.

The LNGR Fund concentrates its investments (i.e., holds 25% or more of its total assets) in a particular industry or group of industries to approximately the same extent that the LNGR Underlying Index is

concentrated. As of April 15, 2016, the LNGR Underlying Index was concentrated in the Healthcare Sector, the Biotechnology Sector and the Medical Device Sector.

For more information regarding the Funds' investment strategy, please read the prospectus for the Fund.

As described more fully in the Trust's prospectus and Statement of Additional Information ("SAI"), the Funds issue and redeem Shares at net asset value ("NAV") only in large blocks of 50,000 Shares (each block of Shares called a "Creation Unit"). As a practical matter, only broker-dealers or large institutional investors with creation and redemption agreements (called Authorized Participants) can purchase or redeem these Creation Units. Except when aggregated in Creation Units, the Shares may not be redeemed with the Funds.

Shares are held in book-entry form, which means that no Share certificates are issued. The Depository Trust Company or its nominee is the record owner of all outstanding Shares of the Funds and is recognized as the owner of all Shares for all purposes.

The NAV per Share for each Fund is computed by dividing the value of the net assets of the Fund (i.e., the value of its total assets less total liabilities) by the total number of Shares outstanding. Expenses and fees are accrued daily and taken into account for purposes of determining NAV. The NAV of each Fund is determined each business day after the close of trading (ordinarily 4:00 p.m., Eastern Time or "ET") of the New York Stock Exchange. Any assets or liabilities denominated in currencies other than the U.S. dollar are converted into U.S. dollars at the current market rates on the date of valuation as quoted by one or more sources.

The registration statement for the Funds describes the various fees and expenses for the Funds' Shares. For a more complete description of the Funds and the underlying indexes, visit the Funds' website at www.globalxfunds.com.

Principal Risks

Interested persons are referred to the Fund's Prospectus for a description of risks associated with an investment in the Fund. These risks include, but are not limited to, sovereign and quasi-sovereign bond risk, credit risk, interest rate risk, high yield securities risk, risk of investing in emerging market issuers, risk of investing in foreign securities, restricted securities risk, market risk, sampling risk, index tracking risk, risk of cash transactions, authorized participant concentration risk, ETF shares trading and premium/discount risk, non-diversified risk, and concentration risk. In addition, the market prices of the Shares will fluctuate in accordance with changes in NAV as well as the supply and demand for the Shares. As a result, the Shares may trade at market prices that may differ from their NAV. The NAV of the Shares will fluctuate with changes in the market value of the Fund's holdings.

Exchange Rules Applicable to Trading in the Shares

Trading in the Shares on IEX is subject to IEX trading rules.

Trading Hours

The value of the Index underlying the Shares will be disseminated to data vendors every 15 seconds during the Regular Trading Session.

The Shares will trade on IEX between 8:00 a.m. and 5:00 p.m. Please note that trading in the Shares during the Exchange's Pre-Market and Post-Market Sessions ("Extended Market Sessions") may result in additional trading risks which include: (1) that the current underlying indicative value may not be updated during the Extended Market Sessions, (2) lower liquidity in the Extended Market Sessions may impact pricing, (3) higher volatility in the Extended Market Sessions may impact pricing, (4) wider spreads may occur in the Extended Markets Sessions, and (5) because the indicative value is not calculated or widely disseminated during the Extended Market Sessions, an investor who is unable to calculate an implied value for the Shares in those sessions may be at a disadvantage to market professionals.

Delivery of a Prospectus

Exchange Members should be mindful of applicable prospectus delivery requirements under the federal securities laws with respect to transactions in the Fund. Prospectuses may be obtained through the Fund's website. The Prospectus for the Fund does not contain all of the information set forth in the Funds Registration Statement (including the exhibits to the Registration Statement), parts of which have been omitted in accordance with the rules and regulations of the SEC. For further information about the Fund, please refer to its Registration Statement.

In the event that the Fund relies upon an order by the SEC exempting the Shares from certain prospectus delivery requirements under Section 24(d) of the 1940 Act and in the future make available a written product description, Exchange Rules require that Exchange Members provide to all purchasers of Shares a written description of the terms and characteristics of such securities, in a form prepared by the Issuer of the Fund, no later than the time a confirmation of the first transaction in the Shares is delivered to such purchaser. In addition, Exchange Members shall include such a written description with any sales material relating to the Shares that is provided to customers or the public. Any other written materials provided by an IEX member to customers or the public making specific reference to the Shares as an investment vehicle must include a statement in substantially the following form: "A circular describing the terms and characteristics of [the UTP Derivative Securities] has been prepared by the [open-ended management investment company name] and is available from your broker. It is recommended that you obtain and review such circular before purchasing [the UTP Derivative Securities]."

An Exchange member carrying an omnibus account for a non-member broker-dealer is required to inform such non-member that execution of an order to purchase Shares for such omnibus account will be deemed to constitute agreement by the non-member to make such written description available to its customers on the same terms as are directly applicable to such Exchange member under this rule.

Upon request of a customer, Exchange Members also shall provide a copy of the Prospectus.

Suitability

Trading in the securities on the Exchange will be subject to the provisions of IEX Rule 3.170 and other applicable suitability rules. Members recommending transactions in the securities to customers should make a determination that the recommendation is suitable for the customer.

Trading Halts

The Exchange will halt trading in the Shares of a security in accordance with the Exchange's Rules. The grounds for a halt include a halt because the intraday indicative value of the security and/or the value of its underlying index are not being disseminated as required, a halt for other regulatory reasons or due to other conditions or circumstances deemed to be detrimental to the maintenance of a free and orderly market.

Exemptive, Interpretive and No-Action Relief Under Federal Securities Regulations

The Securities and Exchange Commission (the "SEC") has issued letters granting exemptive, interpretive and no-action relief from certain provisions of rules under the Securities Exchange Act of 1934 for exchange-traded securities listed and traded on a registered national securities exchange that meet certain criteria.

AS WHAT FOLLOWS IS ONLY A SUMMARY OF THE RELIEF OUTLINED IN THE NO-ACTION LETTERS REFERENCED ABOVE, THE EXCHANGE ADVISES INTERESTED PARTIES TO CONSULT THE NO-ACTION LETTERS FOR MORE COMPLETE INFORMATION REGARDING THE MATTERS COVERED THEREIN AND THE APPLICABILITY OF THE RELIEF GRANTED IN RESPECT OF TRADING IN SECURITIES. INTERESTED PARTIES SHOULD ALSO CONSULT THEIR PROFESSIONAL ADVISORS.

Regulation M Exemptions

Generally, Rules 101 and 102 of Regulation M prohibit any "distribution participant" and its "affiliated purchasers" from bidding for, purchasing, or attempting to induce any person to bid for or purchase any security which is the subject of a distribution until after the applicable restricted period, except as specifically permitted in Regulation M. The provisions of the Rules apply to underwriters, prospective underwriters, brokers, dealers, and other persons who have agreed to participate or are participating in a distribution of securities.

The SEC has granted an exemption from Rule 101 under Regulation M to permit persons participating in a distribution of Shares of the above-mentioned Fund to engage in secondary market transactions in such Shares during their participation in such a distribution. In addition, the SEC has granted relief under Regulation M to permit persons who may be deemed to be participating in the distribution of Shares of the above-mentioned Fund (i) to purchase securities for the purpose of purchasing Creation Unit Aggregations of Fund Shares and (ii) to tender securities for redemption in Creation Unit Aggregations. Further, the SEC has clarified that the tender of Fund Shares to the Fund for redemption does not constitute a bid for or purchase of any of the Funds' securities during the restricted period of Rule 101. The SEC has also granted an exemption pursuant to paragraph (e) of Rule 102 under Regulation M to allow the redemption of Fund Shares in Creation Unit Aggregations during the continuous offering of Shares.

Rule 10b-10 (Customer Confirmations for Creation or Redemption of Fund Shares)

Broker-dealers who handle purchases or redemptions of Fund Shares in Creation Unit size for customers will be permitted to provide such customers with a statement of the number of Creation Unit Aggregations created or redeemed without providing a statement of the identity, number and price of Shares of the individual securities tendered to the Fund for purposes of purchasing Creation Unit Aggregations (“Deposit Securities”) or the identity, number and price of Shares to be delivered by the Trust for the Fund to the redeeming holder (“Redemption Securities”). The composition of the securities required to be tendered to the Fund for creation purposes and of the securities to be delivered on redemption will be disseminated each business day and will be applicable to requests for creations or redemption, as the case may be, on that day. This exemptive relief under Rule 10b-10 with respect to creations and redemption is subject to the following conditions:

Confirmations to customers engaging in creations or redemptions must state that all information required by Rule 10b-10 will be provided upon request;

Any such request by a customer for information required by Rule 10b-10 will be filed in a timely manner, in accordance with Rule 10b-10(c); and Except for the identity, number, and price of Shares of the component securities of the Deposit Securities and Redemption Securities, as described above, confirmations to customers must disclose all other information required by Rule 10b-10(a).

Section 11(d)(1); Rules 11d1-1 and 11d1-2

Section 11(d)(1) of the Act generally prohibits a person who is both a broker and a dealer from effecting any transaction in which the broker-dealer extends credit to a customer on any security which was part of a new issue in the distribution of which he participated as a member of a selling syndicate or group within thirty days prior to such transaction. The SEC has clarified that Section 11(d)(1) does not apply to broker-dealers that are not Authorized Participants (and, therefore, do not create Creation Unit Aggregations) that engage in both proprietary and customer transactions in Shares of a Fund in the secondary market, and for broker-dealer Authorized Participants that engage in creations of Creation Unit Aggregations. This relief is subject to specific conditions, including the condition that such broker-dealer (whether or not an Authorized Participant) does not, directly or indirectly, receive from the Fund complex any payment, compensation or other economic incentive to promote or sell the Shares of a Fund to persons outside the fund complex, other than non-cash compensation permitted under NASD Rule 2830(l)(5)(A), (B) or (C). (See letter from Catherine McGuire, Chief Counsel, SEC Division of Market Regulation, to Securities Industry Association, Derivative Products Committee, dated November 21, 2005.) The SEC also has taken a no-action position under Section 11(d)(1) of the Act that broker-dealers may treat Shares of a Fund, for purposes of Rule 11d1-2, as “securities issued by a registered open-end investment company as defined in the Investment Company Act” and thereby extend credit or maintain or arrange for the extension or maintenance of credit on Shares that have been owned by the persons to whom credit is provided for more than 30 days, in reliance on the exemption contained in the rule.

Rule 14e-5

An exemption from Rule 14e-5 has been granted to permit any person acting as a dealer-manager of a tender offer for a component security of the Fund (1) to redeem Fund Shares in Creation Unit Aggregations from the issuer that may include a security subject to such tender offer and (2) to purchase Fund Shares during such tender offer. In addition, a no-action position has been taken under Rule 14e-5 if a broker-dealer acting as a dealer-manager of a tender offer for a security of the Fund purchases or arranges to purchase such securities in the secondary market for the purpose of tendering such securities to purchase one or more Creation Unit Aggregations of Shares, if made in conformance

with the following: such bids or purchases are effected in the ordinary course of business, in connection with a basket of 20 or more securities in which any security that is the subject of a distribution, or any reference security, does not comprise more than 5% of the value of the basket purchase; or purchases are effected as adjustments to such basket in the ordinary course of business as a result of a change in the composition of the underlying index; and such bids or purchases are not effected for the purpose of facilitating such tender offer.

SEC Rule 15c1-5 and 15c1-6

The SEC has taken a no-action position with respect to Rule 15c1-5 and Rule 15c1-6 as to the required disclosure of control by a broker or dealer with respect to creations and redemptions of Fund Shares and secondary market transactions therein. (See letter from Catherine McGuire, Chief Counsel, SEC Division of Market Regulation, to Securities Industry Association, Derivative Products Committee, dated November 21, 2005.)

This Information Circular is not a statutory prospectus. Members should consult the Prospectus for a security and the security's website for relevant information.

Please contact IEX Regulation at 646-343-2000 with any inquiries regarding this Information Circular.
