The Union Ministry of Health has made amendments to the Drugs Rules, 1945, to implement this. In March, the ministry had asked the department of pharmaceuticals (DoP) to shortlist 300 drug brands that can be included for implementation of mandatory QR codes. The National Pharmac-

(NPPA) had identified the list of 300 drugs, which include widely used medicines, such vitamins, blood-sugar, and hypertension medicines.

Popular brands, such as Dolo, Allegra, Asthalin, Augmentin, Saridon, Limcee, Calpol, Corex, Thyronorm, Unwanted 72, were identified. These highselling brands have been shortlisted based on their moving annual turnover (MAT) value.

Says satisfied with payment data storage norms, allows onboarding of new customers

SUBRATA PANDA Mumbai, 16 June

The Reserve Bank of India (RBI) on Thursday lifted the ban imposed on Mastercard and allowed the card network to onboard new customers for debit, credit, or prepaid cards, as it is satisfied with the company's compliance with the storage of payment data norms.

The embargo on the company is being lifted almost a year after it was imposed in July last year. The move will benefit lenders, such as YES Bank and RBL Bank, which were solely issuing Mastercard cards before the ban. Citi also partnered onlv with Mastercard for its credit cards before the ban.

"In view of the satisfactory compliance demonstrated by Mastercard Asia / Pacific Pte. Itd with the RBI circular dated April 6, 2018 on storage of payment system data, the restrictions imposed, vide order dated July 14, 2021, on on-

Mastercard, said in a statement, welcomed the decision. "As we have in our engagement with the RBI, we reaffirm our commitment to support the digital needs of India, its people and its businesses. We

According to industry estimates, Visa is the largest player in the space followed by Mastercard and RuPay. But, RuPay is fast catching up with its global peers as public sector banks in India are issuing more

RuPay cards. While there is no official data on the market share of these card networks in India, industry estimates suggest Visa has around 44 per cent market share, followed by Mastercard with 36 per cent, and Rupay with 20 per cent.

The banking regulator, in April 2018, had told all payment system operators to store their entire data in a system only in India. They were also required to report compliance to the RBI and submit a boardapproved System Audit Report

# buyer of \$ in April

After selling \$20 billion in March in the foreign exchange market in March, the Reserve Bank of India turned net buyer of dollars in April. According to the latest data, the RBI purchased \$1.96 billion in April. The central bank has been aggressively intervening in the foreign exchange market since the war broke out in Europe in late February, following which most emerging

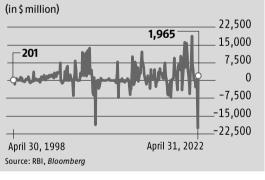

market currencies are feeling the heat as investors rushed for safe haven assets. The rupee has depreciated

> 4.8 per cent against the dollar in 2022. The Indian unit traded in a tight range on Thursday and ended the day at 78.08/\$

as compared to Wednesday's closing of 78.07/\$. It was at yet another all-time low.

# India better placed to avoid stagflation risk: RBI report

**MANOJIT SAHA** 

Mumbai, 16 June

Even as stagflation risks loom over some of the major global economies, including the US, India is better placed to avoid such a risk, the Reserve Bank of India (RBI) says in its monthly 'State of the Economy' report. released on Thursday.

"In the midst of this increasingly hostile external environment. India is better placed than many other countries in terms of avoiding the risks of a potential stagflation," the report says.

At least 83 per cent of fund managers surveyed by Bank of America Research this month see the global economy facing the risk of stagflation — the phenomenon of rising inflation and slowing economic growth.

But the RBI report paints an encouraging picture of economic activity gaining strength, with most gross domestic product (GDP) constituents exceeding their prepandemic levels.

'The recovery remained broadly on track. This demonnle shocks and the innate strength of macro fundamen- the central tals as India strives to regain a sustainable high-growth trajectory," the report says.

# NTAGI members agree to reduce Covid booster gap to 6 months

New Delhi, 16 June

Members of the government advisory panel NTAGI on Thursday agreed on reducing the gap between the second and precaution doses of Covid-19 vaccines from the current nine to six months, official sources said.

A recommendation for it will be made to the Health Ministry soon, they said.

The NTAGI's Standing **Technical Sub-Committee** (STSC), which met on Thursday, also reviewed the findings of a study by the Christian Medical College (CMC) in Vellore on the feasibility of allowing as precaution dose a Covid vaccine different from the one used for primary vaccination. The panel members

found a lack of uniformity in results upon mixing of jabs for booster shots and stated that no recommendation for it can be made as of now. The CMC study was on Covishield and Covaxin. The threat of monkey-

vaccines for the 6-12 age group

pox and the requirement of vaccination were also discussed in the meeting, the sources said. "However, the members

were of the view that a strong surveillance is what is required as of now. No case of monkeypox has been detected in the country till now," one of the sources told PTI.

The panel also reviewed

data on Covaxin and Corbevax vaccines for the 6-12 age group.

'The members opined that data of Covid burden and mortality among children is not robust enough to take any decision to begin vaccination of those below 12 years," the source stated.

India's drug regulator in April this year had granted emergency use authorisa19 vaccine Corbevax for

and Bharat Biotech's Covaxin for children in the age group of six to 12 years. The STSC members were learnt to have also agreed

those aged five to 12 years

on administration of an additional third dose for renal transplant patients before the precaution dose. "In the meeting today,

members also agreed on reducing the gap between the second and the precaution doses of COVID-19 vaccines from the current nine months to six months," the source told PTI.

Currently, all those above the age of 18 who have completed nine months after the administration of the second dose are eligible for the precaution dose.

The Union government last month allowed citizens and students travelling overseas to get the shot before the stipulated ninemonth waiting period as required by the guidelines of the destination country.

#### WTO members... The draft agreement fell

short of the original proposal and includes only vaccines. India had called for a TRIPS waiver for vaccines,

therapeutics, and diagnos-

tics to fight Covid-19 and future pandemics. India had held it was too late in the day if only vaccines were included because the pandemic had run its

initial course. On a moratorium on Customs duty on e-commerce transactions, countries agreed to extend it by another two years.

India was officially opposed to extending the moratorium, citing loss of revenue to developing countries.

On fisheries subsidies also, an agreement is likely with carve-outs for India and other developing countries. "But over-fishing by

China will face discipline," the official said. Another official said

India was at the centre of WTO negotiations at the MC12.

NOTICE CUM ADDENDUM TO THE SCHEME INFORMATION DOCUMENT (SID) AND KEY INFORMATION MEMORANDUM (KIM) OF THE DESIGNATED SCHEMES OF EDELWEISS MUTUAL FUND

NOTICE is hereby given to the Unit holders of Edelweiss Balanced Advantage Fund & Edelweiss Large Cap Fund ("the Schemes") that in accordance with the provisions of the SEBI Circular no. SEBI/HO/IMD/DF2/CIR/P/2019/17 dated January 16, 2019 and in terms of the enabling provisions of the Scheme Information Document (SID), Edelweiss Trusteeship Company Limited, Trustee to Edelweiss Mutual Fund ("the Fund") and Edelweiss Asset Management Limited, Investment Manager to the Fund, has approved the following changes to the features of the Schemes with effect from July 22, 2022 to enable the Schemes to write call options. In view of the same, the below mentioned provisions shall be inserted in the Scheme Information Document (SID) under the relevant section.

Section	Particulars
Investment Strategy	Derivative & Arbitrage Strategies: Covered Call Options
& Approach	A call option gives the holder (buyer) the right but not the obligation to buy an asset by a certain date for a certain price. Covered calls are an options strategy where a person holds a long position in an asset and writes (sells) call options on that same asset.
	Benefits of using Covered Call strategy in Mutual Funds:
	The covered call strategy can be followed by the Fund Manager in order to hedge risk thereby resulting in better risk adjusted returns of the Scheme. The strategy offers the following benefits:
	<ul> <li>Hedge against market risk - Since the fund manager sells a call option on a stock already owned by the mutual fund scheme, the downside from fall in the stock price would be lower to the extent of the premium earned from the call option.</li> </ul>
	b) Generating additional returns in the form of option premium in a range bound market.
	Thus, a covered call strategy involves gains for unit holders in case the strategy plays out in the right direction.  Illustration – Covered Call strategy using stock call options:
	A fund manager buys equity stock of ABC Ltd. For ₹ 1000 and simultaneously sells a call option on the same stock at a strike price of ₹ 1100. Further, it is assumed that the scheme earned a premium of ₹ 50 and the fund manager is of the opinion that the stock price will exceed ₹ 1100, during the expiry period of the opinion.
	Scenario 1: Stock price exceeds ₹ 1100
	The call option will get exercised and the fund manager will sell the stock to settle his obligation on the call at $\stackrel{?}{\stackrel{\checkmark}{}}$ 1100 (earning a return of 10% on the stock purchase price). Also, the scheme has earned a premium of $\stackrel{?}{\stackrel{\checkmark}{}}$ 50, this has reduced the purchase cost of the stock ( $\stackrel{?}{}$ 1000 $-\stackrel{?}{}$ 50 = $\stackrel{?}{}$ 950).
	Hence, the Net Gain = ₹ 150 (₹ 100 stock appreciation + ₹ 50 call option premium)
	(However, please note that in a scenario where the stock price reaches $\ \ 1300$ , investment in long only equity would be more beneficial than a covered call strategy as the net gain under the covered call strategy would be $\ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \$
	Scenario 2: Stock prices stays below ₹ 1100
	The call option will not get exercised and will expire worthless. The premium earned on call option will generate alpha for the scheme.
	Hence, the Net Gain = ₹50.
Investment Restric- tions	Investment Restrictions for Covered Call strategy
	The Scheme can write Call options only under a covered call strategy subject to the following conditions:  a) The Scheme can write call options under a covered call strategy only for constituent stocks of NIFTY 50 and
	BSE SENSEX.
	b) The total notional value (taking into account strike price as well as premium value) of call options written by the Scheme shall not exceed 15% of the total market value of equity shares held in the Scheme.
	c) The total number of shares underlying the call options written shall not exceed 30% of the unencumbered shares of a particular company held in the scheme. The unencumbered shares in a scheme shall mean shares that are not part of Securities Lending and Borrowing Mechanism (SLBM), margin or any other kind of encumbrances.
	d) At all points of time the Scheme shall comply with the provisions at points (b) and (c) above. In case of any passive breach of the requirement at paragraph (b) above, the respective scheme shall have 7 trading days to rebalance the portfolio. During the rebalancing period, no additional call options can be written in the said scheme.
	e) In case the Scheme needs to sell securities on which a call option is written under a covered call strategy, it must ensure compliance with paragraphs (c) and (b) above while selling the securities.
	f) In no case, the scheme shall write a call option without holding the underlying equity shares. A call option can be written only on shares which are not hedged using other derivative contracts.
	g) The premium received shall be within the requirements prescribed in terms of SEBI circular dated August 18, 2010 i.e. the total gross exposure related to option premium paid and received must not exceed 20% of the net assets of the scheme.
	h) The exposure on account of the call option written under the covered call strategy shall not be considered as exposure in terms of paragraph 3 of SEBI Circular no. Cir/IMD/DF/11/2010, dated August 18, 2010.
	i) The call option written shall be marked to market daily and the respective gains or losses factored into the daily NAV of the Scheme until the position is closed or expired.
Risk Factors	Risks associated with writing covered call options for equity shares
	<ol> <li>Writing call options are highly specialized activities and entail higher than ordinary investment risks. In such investment strategy, the profits from call option writing is capped at the option premium, however the downside depends upon the increase in value of the underlying equity shares. This downside risk is reduced by writing covered call options.</li> </ol>
	ii. The Scheme may write covered call option only in case it has adequate number of underlying equity shares as per regulatory requirement. This would lead to setting aside a portion of investment in underlying equity shares. If covered call options are sold to the maximum extent allowed by regulatory authority, the scheme may not be able to sell the underlying equity shares immediately if the view changes to sell and exit the stock. The covered call options need to be unwound before the stock positions can be liquidated. This may lead to a loss of opportunity, or can cause exit issues if the strike price at which the call option contracts have been written become illiquid. Hence, the scheme may not be able to sell the underlying equity shares, which can lead to temporary illiquidity of the underlying equity shares and result in loss of opportunity.
	iii. The writing of covered call option would lead to loss of opportunity due to appreciation in value of the underlying equity shares. Hence, when the appreciation in equity share price is more than the option premium received the scheme would be at a loss.
	iv. The total gross exposure related to option premium paid and received must not exceed the regulatory

The Securities and Exchange Board of India has vide its communication dated June 6, 2022 conveyed it's no objection to the aforesaid change in fundamental attribute

limits of the net assets of the scheme. This may restrict the ability of Scheme to buy any options.

In accordance with the provisions of Regulation 18(15A) of the SEBI (Mutual Funds) Regulations, 1996, Unit holders under the Schemes as on June 17, 2022 who do not agree with the proposed changes are given an option to exit i.e. redeem their units (fully or partly) or switch to other schemes of the Fund at the Applicable NAV of the Schemes without any exit load for a period of 30 days starting from June 22, 2022 till July 21, 2022 (both days inclusive). Redemption / Switch-out requests can be submitted at any of the Investor Service Centres of the Fund or the Registrar and Transfer Agents of the Fund viz. KFin Technologies Private Limited on or before July 21, 2022 (upto 3.00 p.m. on July 21, 2022). The redemption proceeds will be paid out either electronically or by a cheque within 10 Business Days of receipt of valid redemption request to those Unit holders who choose to exercise the exit option. Unit holders who have pledged their units will not have the option to exit unless they procure a release of their pledge prior to submitting the redemption request.

If the Unit holder has no objection to the aforesaid changes, no action is required to be taken and it would be deemed that such Unit holder has consented to the changes. It may however be noted that the offer to exit is purely optional and not compulsory. A detailed communication in this regard will be sent to the Unit holders under the Schemes as on June 17, 2022 through an appropriate mode of communication (post, courier, email etc.)

For any further assistance/clarification, Unit holders may contact us on 1-800-425-0090 (Toll free - BSNL/MTNL lines only) or 91 040 23001181 (non MTNL/BSNL lines and mobile phone users) or alternatively, email us at emfhelp@edelweissfin.com or visit our website www.edelweissmf.com.

This addendum shall form an integral part of the Scheme Information Document and Key Information Memorandum of the designated Schemes, as amended from time to time. All other features and terms and conditions of the Schemes shall remain unchanged.
