PRESENTATION OF FINANCIAL, INDUSTRY AND OTHER INFORMATION

Certain Conventions

In this Draft Prospectus, unless otherwise specified or the context otherwise indicates or implies the terms, all references to "India Infoline Housing Finance Limited" shall mean India Infoline Housing Finance Limited.

All references to "the Company" shall mean India Infoline Housing Finance Limited.

Financial Data

The financial data presented in this Draft Prospectus is prepared in accordance with Indian GAAP and the Companies Act, 1956.

The Reformatted Financial Statements are included in this Draft Prospectus alongwith the examination reports prepared by Tannan Associates in the chapter titled "Financial Statements" beginning at page 93.

In this Draft Prospectus, any discrepancies in the figures of the **Capital Structure** and **Objects of the Issue** are rounded off to two decimal places.

There are significant differences between Indian GAAP, US GAAP and IFRS. We urge you to consult your own advisors regarding such differences and their impact on our financial data. Accordingly, the degree to which the Indian GAAP financial statements included in this Draft Prospectus will provide meaningful information with Indian accounting practices on the financial disclosures presented in this Draft Prospectus should accordingly be limited.

Currency and units of Presentation

In this Draft Prospectus, all figures are presented in Indian Rupees (₹) of the Republic of India.

Except where stated otherwise in this Draft Prospectus, all figures are presented in lakhs of Indian Rupees (₹) unless otherwise specified.

Industry and Market Data

Unless stated otherwise, industry and market data used throughout this Draft Prospectus has been obtained from industry publications. Industry publications generally state that the information contained in those publications has been obtained from sources believed to be reliable but that their accuracy and completeness are not guaranteed and their reliability cannot be assured. Accordingly no investment decision should be made on the basis of such information. Although our Company believes that industry data used in this Draft Prospectus is reliable, it has not been independently verified. Also, data from these sources may not be comparable. Similarly, internal reports, while believed by us to be reliable, have not been verified by any independent sources.

The extent to which the market and industry data used in this Draft Prospectus is meaningful depends on the reliability of the data.

FORWARD LOOKING STATEMENTS

This Draft Prospectus contains certain statements that are not statements of historical fact and are in the nature of forward-looking statements, generally can be identified by words or phrases of similar import. All statements regarding our expected financial condition and results of operations and business plans and prospects are forward-looking statements. These forward-looking statements include statements as to our business strategy, revenue and profitability and other matters discussed in this Draft Prospectus that are not historical facts.

All forward-looking statements are subject to risks, uncertainties and assumptions about us that could cause actual results, performance or achievements to differ materially from those contemplated by the relevant statement.

Actual results may differ materially from those suggested by the forward looking statements due to risks or uncertainties associated with our expectations with respect to, but not limited to, regulatory changes pertaining to the our businesses and our ability to respond to them, our ability to successfully implement our strategies, our growth and expansion, technological changes, our exposure to market risks, general economic and political conditions in India and which have an impact on our business activities or investments, the monetary and fiscal policies of India, inflation, deflation, unanticipated turbulence in interest rates, equity prices or other rates or prices, the performance of the financial markets in India and globally, changes in domestic laws, regulations and taxes and changes in competition in our industry.

Important factors that could cause actual results to differ materially from our expectations include, but not limited to, the following:

- < Any increase in the levels of non-performing assets, whatsoever, would adversely affect our business and results of operations;
- < Any volatility in interest rates which could cause our Gross Spreads to decline and consequently affect our profitability;
- < Changes in the value of Rupee and other currency changes;
- < Unanticipated turbulence in interest rates or other rates or prices; the performance of the financial and capital markets in India and globally;
- < Changes in political conditions in India;
- < The rate of growth of our Loan Assets;
- < The outcome of any legal or regulatory proceedings we are or may become a party to;
- < Changes in Indian and/or foreign laws and regulations, including tax, accounting, banking, securities, insurance and other regulations; changes in competition and the pricing environment in India; and regional or general changes in asset valuations;
- < Any changes in connection with policies, statutory provisions, regulations and/or NHB directions in connection with HFCs, including laws that impact our lending rates and our ability to enforce our collateral;
- < Emergence of new competitors;
- < Performance of the Indian debt and equity markets;
- < Occurrence of natural calamities or natural disasters affecting the areas in which our Company has operations;
- < The performance of the financial markets in India and globally;
- < Our ability to attract and retain qualified personnel; and
- < Other factors discussed in this Draft Prospectus beginning on page 11.

For further discussion of factors that could cause our actual results to differ from our expectations, please refer to the sections on "Risk Factors" and "Industry Outlook" of our Prospectus beginning on pages 54 and 65 respectively.

By their nature, certain market risk disclosures are only estimates and could be materially different from what actually occurs in the future. As a result, actual future gains or losses could materially differ from those that have been estimated. Forward looking statements speak only as on the date of this Draft Prospectus. The

forward-looking statements contained in this Draft Prospectus are based on the beliefs of management, as well as the assumptions made by and information currently available to management. Although we believe that the expectations reflected in such forward-looking statements are reasonable at this time, it cannot assure investors that such expectations will prove to be correct or will hold good at all times. Given these uncertainties, investors are cautioned not to place undue reliance on such forward-looking statements. If any of these risks and uncertainties materialise, or if any of our underlying assumptions prove to be incorrect, our actual results of operations or financial condition could differ materially from that described herein as anticipated, believed, estimated or expected. All subsequent forward-looking statements attributable to us are expressly qualified in their entirety by reference to these cautionary statements. Neither our Company or the Lead Managers or Co-Lead Managers, nor any of their respective affiliates has any obligation to, and do not intend to, update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition. Our Company, Lead Managers and Co-Lead Managers will ensure that investors in India are informed of material developments in relation to the Company until the time of the grant of listing and trading permission by the Stock Exchange(s).

SECTION II - RISK FACTORS

An investment in NCDs involves a certain degree of risk. You should carefully consider all the information contained in this Draft Prospectus, including the risks and uncertainties described below, before making an investment decision. The risk factors set forth below do not purport to be complete or comprehensive in terms of all the risk factors that may arise in connection with our business or any decision to purchase, own or dispose of the NCDs. The following risk factors are determined on the basis of their materiality. In determining the materiality of risk factors, we have considered risks which may not be material individually but may be material when considered collectively, which may have a qualitative impact though not quantitative, which may not be material at present but may have a material impact in the future. Additional risks, which are currently unknown or now deemed immaterial, if materialises, may in the future have a material adverse effect on our business, financial condition and results of operations. The market prices of the NCDs could decline due to such risks and you may lose all or part of your investment including interest thereon.

Unless specified or quantified in the relevant risk factors below, we are not in a position to quantify the financial or other implication of any of the risks described in this section. This Draft Prospectus also contains forward-looking statements that involve risks and uncertainties. Our results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including events described below and elsewhere in this Draft Prospectus. Unless otherwise stated, the financial information used in this section is derived from and should be read in conjunction with reformatted financial statements of our Company as of and for the Half Year ended September 30, 2013, the Financial Year ended March 31, 2013, March 31, 2012, March 31, 2011, March 31, 2010 and March 31, 2009, in each case prepared in accordance with Indian GAAP, including the annexure and notes thereto.

Internal Risk Factors

1. ***We are subject to certain legal proceedings and any adverse decision in such proceedings may have a material adverse effect on our business and results of operations.***

We are subject to a number of legal proceedings. We incur a substantial cost in defending these proceedings before a court of law. Moreover, we are unable to assure you that we shall be successful in any or all of these actions. In the event we suffer any adverse order, our reputation may suffer and may have an adverse impact on our business and results of operations.

For further details of the legal proceedings that we are subject to, please refer to the chapter titled **Outstanding Litigations** on page 186.

2. ***We have been issued notices by the NHB and any adverse decision may affect our business.***

NHB has issued us a show cause notice dated September 20, 2010 alleging contraventions of Paragraphs 24 and 26 of the HFC (NHB) Directions, 2010 and as to why IIHFL should continue to be regarded as a housing finance company. We have vide letter dated October 6, 2010 clarified the position and have furnished information as was requisitioned by NHB. There has been no further communication in this matter. In the event NHB takes an adverse decision, our business may be adversely affected.

Further, NHB has also issued us a showcause notice dated May 6, 2013 and subsequently imposed a penalty of ₹ 5,000 vide letter dated July 16, 2013 for non-reporting of opening of branches. We have vide our letter dated November 8, 2013 paid the above penalty. **Outstanding Litigations** on page 186.

Further, we may receive similar notices in the future where our business may suffer if we do not have satisfactory responses to the said notices.

3. ***Any increase in the levels of non-performing assets, whatsoever, would adversely affect our business, results of operations and financial condition.***

With the growth in our business, we expect an increase in our Loan Assets. Should the overall credit quality of our loan portfolio deteriorate, the current level of our provisions may not be adequate to cover further increases in the amount of our NPAs. Moreover, there also can be no assurance that there will be no further deterioration in our provisioning coverage as a percentage of Gross NPAs or otherwise, or that the

percentage of NPAs that we will be able to recover will be similar to our past experience of recoveries of NPAs. As of September 30, 2013, the gross value of NPAs on our books of accounts was ₹ 33.67 million which is 0.46 % of the value of our total Loan Book. While we believe that we have adequately provided for NPAs to cover known or expected losses which may arise in our asset portfolio, any increase in the level of final credit losses will adversely affect our business and future financial performance.

The NHB guidelines prescribe the provisioning required in respect of our outstanding loan portfolio. Should the overall credit quality of our loan portfolio deteriorate, the current level of our provisions may not be adequate to cover further increases in the amount of our NPAs. Our provisions for NPAs were ₹ 5.05 million as on September 30, 2013, which represented 15 % of gross NPAs.

We have expanded rapidly in the three years ended March 31, 2013 and intend to continue our efforts to originate new housing loans, which may result in higher NPAs in the future on account of new loans made or on account of nonpayment of installments or equated monthly installments. There can be no assurance that our provisions will be adequate to cover any further increase in the amount of NPAs or any deterioration in our NPAs on account of existing or new loans made. If we are required to increase our provisioning in the future due to increased loan losses, this may result in a reduction of our net worth, and adversely affect our capital adequacy ratio which may require us to raise further capital to maintain our capital adequacy ratio.

Further, provisioning norms may be revised by NHB and become more stringent. For instance, the NHB Directions, 2010 have been amended by notification no. NHB.HFC.DIR.3/CMD/2011 dated August 5, 2011 and further amended by NHB *vide* notification no. NHB.HFC.DIR.4/CMD/2012 dated January 19, 2012, and this has, amongst other things, increased provisioning norms for HFCs. For further details, please refer to the chapter *Key Regulations and Policies* on page 203.

Further, there can be no assurance that we will be able to recover any or all the outstanding amounts due under any of the defaulted loans and may not be able to realise the expected value of the collateral. Any or a combination of some or all of these factors may have material adverse effect on our business, results of operations and financial condition.

4. ***The primary security for the loans disbursed by our Company is the underlying property. In the event of default, we may not be able to realize the expected value of the collateral on loans due to fluctuating real estate prices and/or enforce the security under the SARFAESI Act in time or at all and this may have a material adverse effect on our business, results of operations and financial condition.***

The primary security for the loans disbursed by our Company is the underlying property and the value of this security is largely dependent on housing market conditions prevalent at that time. The value of the collateral on the loans disbursed by our Company may decline due to adverse market conditions including an economic downturn or a downward movement in real estate prices. Failure to recover the expected value of collateral could expose our Company to losses and, in turn, result in a material adverse effect on our business, results of operations and financial condition.

Following the introduction of the SARFAESI Act and the subsequent extension of its application to J q w u k p i " H k p c p e g " E q o r c p k g u . " y g " c t g " c n n q y g f " v q " h q t g e r whose loan has been classified as nonperforming. Although the enactment of the SARFAESI Act has strengthened the rights of creditors by allowing expedited enforcement of security in an event of default, there is still no assurance that we will be able to realize the value of our security, in full or in part. The DRT has the power to issue a stay order prohibiting the lender from selling the assets of a defaulted borrower. As a result, there can be no assurance that any foreclosure proceedings would not be stayed by the DRT or any other relevant authority. In addition, delays on our part to take immediate action, delays in bankruptcy foreclosure proceedings, economic downturns, defects in security and fraudulent transfers by borrowers, may hinder our ability to realize the full value of security. In the event that a regulatory agency asserts jurisdiction over the enforcement proceedings, creditor actions can be further delayed. Therefore, there can be no assurance that we will be able to foreclose on collateral on a timely basis, or at all, and if we are able to foreclose on the collateral, that the value will be sufficient to cover the outstanding amounts owed to us which may result in a material adverse effect on our business, results of operations and financial condition.

5. ***We may be impacted by volatility in interest rates which could cause our Gross Spreads to decline and consequently affect our profitability.***

We are exposed to interest rate risks as a result of lending to customers at fixed/ floating interest rates and in amounts and for periods which may differ from our funding sources. While we seek to match our interest rate positions to minimise interest rate risk, we are unable to assure you that significant variation in interest rates will not have an effect on our results of operations. Moreover, volatility in interest rates is sensitive to factors which are beyond our control, including the monetary policies of the RBI, deregulation of the financial sector in India, domestic and international economic and political conditions, inflation and other such considerations. In a rising interest rate environment, if the yield on our interest-earning assets does not increase simultaneously with or to the same extent as our cost of funds, or, in a declining interest rate environment, if our cost of funds does not decline simultaneously or to the same extent as the yield on our interest-earning assets, our net interest income and net interest margin would be adversely impacted. There can be no assurance that we will be able to adequately manage our interest rate risk in the future and any significant increase in interest rates would adversely affect our business and results of operations.

6. We are subject to various regulatory and legal requirements. Also, future regulatory changes may have a material adverse effect on our business, results of operations and financial condition.

The operations of a HFC in India are subject to various regulations framed by the Ministry of Corporate Affairs and the NHB, amongst others. We are also subject to the corporate, taxation and other laws in effect in India which require continued monitoring and compliance. These regulations apart from regulating the manner in which a company carries out its business and internal operation, prescribe, various periodical compliances including but not limited to filing of forms and declarations with the relevant registrar of companies, and the NHB. Pursuant to NHB regulations, HFCs are currently required to maintain a minimum Capital to Risk Weighted Assets Ratio of 12% collectively shall not be less than 12% of their aggregate risk weighted assets and their risk adjusted value of off-balance sheet items. *Please refer to the "Key Regulations and Policies" page 203. We are subject to NHB regulations in relation to minimum capital adequacy requirements and a decline in our CRAR will require us to raise fresh capital which may not be available on favourable terms or at all, which may affect our business, results of operations and financial condition.*

Furthermore, we are also subject to changes in Indian laws, regulations and accounting principles. There can be no assurance that the laws and regulations governing companies in India will not change in the future or that such changes or the interpretations or enforcement of existing and future laws and rules by governmental and regulatory authorities will not affect our business and future financial performance. In particular, decisions taken by regulators concerning economic policies or goals that are inconsistent with our interests, could adversely affect our results of operations. The introduction of additional government controls or newly implemented laws and regulations, depending on the nature and extent thereof and our ability to make corresponding adjustments, may result in a material adverse effect on our business, results of operations and financial condition and our future growth plans.

We cannot assure you that we will be able to adapt to new laws, regulations or policies that may come into effect from time to time with respect to the housing finance industry in general. Further, changes in tax laws may adversely affect demand for real estate and therefore, for housing finance in India. These laws and regulations and the way in which they are implemented and enforced may change from time to time and there can be no assurance that future legislative or regulatory changes will not have a material adverse effect on our business, financial condition and results of operations. Further we cannot assure you that our Company will continue to be in compliance with these requirements in a timely manner or at all.

7. We are subject to NHB regulations in relation to minimum capital adequacy requirements and a decline in our CRAR will require us to raise fresh capital which may not be available on favourable terms, or at all, which may affect our business, results of operations and financial condition.

In India, pursuant to NHB Directions, 2010 including amendments made thereto, HFCs are currently required to maintain a minimum capital to risk weighted asset ratio consisting of Tier I and Tier II capital which collectively shall not be less than 12% of their aggregate risk weighted assets and their risk adjusted value of off-balance sheet items. According to the NHB Directions, 2010 including amendments made thereto, at no point can our total Tier II capital exceed 100% of the Tier I capital. For further details, please refer to *Key Regulations and Policies* page 203.

As at September 30, 2013, our capital to risk weighted asset ratio was 49.49%.

requirements. As our asset book grows our CRAR may decline and this may require us to raise fresh capital. There is no assurance that NHB will not increase the minimum capital adequacy requirements. Should we be required to raise additional capital in the future in order to maintain our CRAR above the existing and future minimum required levels, we cannot guarantee that we will be able to obtain this capital on favourable terms, in a timely manner or at all.

Therefore, there is no guarantee that our Company will be able to access capital as and when required for growth. Further, if we fail to meet the capital adequacy requirements, NHB may take certain actions, including but not limited to restricting our lending activities, investment activities, and suspending certain of our activities and imposing restrictions on the payment of dividends. This could materially and adversely affect our business, results of operations and financial condition.

8. *Certain housing loans offered by HFCs are eligible for fiscal incentives by the Government of India. If some or all of these incentives are reduced or withdrawn, this may result in a material adverse effect on our business, results of operations and financial condition.*

Government of India has been providing certain fiscal incentives to the housing finance industry. Pursuant to Section 36(1)(viii) of the IT Act subject to fulfillment of conditions therein, the lower of (i) amount transferred to a special reserve account created for the purpose of the said section, (ii) 20% of the profits derived from the business activities as computed under section 28 of the IT Act but before claiming deduction under the said section, or (iii) 200% of the paid-up share capital and general reserve on the last day of the previous year minus the balance of the special reserve account on the first day of the previous year, is allowed as a deduction and is not subject to income tax. Transfer made to the aforesaid special reserve, in FY13, stood at ₹ 28 million, *i.e.* 20% of our PAT and our effective tax rate for FY13 was 28.9%.

If some or all of these incentives cease to be available or reduced to HFCs, this may have an adverse effect on our business, financial condition and results of operations.

9. *Our business requires substantial capital, and any disruption in funding sources would have a material adverse effect on our liquidity and financial condition.*

Our liquidity and ongoing profitability are, in large part, dependent upon our timely access to, and the costs associated with, raising capital. Our funding requirements historically have been met from a combination of borrowings such as term loans and working capital limits from banks and selling of our loan portfolio to other lenders such as banks, and issuance of commercial paper, non-convertible debentures on private placement basis. Thus, our business depends and will continue to depend on our ability to access diversified low-cost funding sources.

Changes in laws of the country applicable to our Company can disrupt funding sources which would have a material adverse effect on our liquidity and financial condition.

10. *Increasing competition in the Indian housing finance industry and our inability to effectively compete with other organisations operating in the housing finance industry may result in slower growth which may result in decline in our profitability which may have a material adverse effect on our business, results of operations and financial condition.*

Our Company faces competition from other organisations operating in the housing finance industry in India, including without limitation to scheduled commercial banks and other HFCs. The sector has also seen a lot of interest from new entrants who have commenced their housing finance business in recent times. The seeming attractiveness of and growth opportunities in the housing finance industry have resulted in increased competition from other lenders in the housing finance market, including scheduled commercial banks and other HFCs. Our ability to compete effectively with such lenders will depend, to some extent, on our ability to raise low cost funding in the future and to lend at competitive rates to maintain our profitability. If we are unable to compete effectively with other participants in the housing finance industry, our business and future financial performance may be adversely affected.

Furthermore, as a result of increased competition in the housing finance industry in India, home loans are becoming increasingly standardised and terms such as waiver of prepayment penalty, floating rate interest options, lower processing fees and monthly rest periods are becoming increasingly common. There can be

no assurance that our Company will be able to react effectively to these or other market developments or compete effectively with new and existing players in the increasingly competitive housing finance industry. Increasing competition may also result in slower growth and/or a reduction in our NIM, and consequently may have an adverse effect on our business, results of operations and financial condition. Certain banks and HFCs, have in the past, introduced teaser rate home loan schemes, wherein the interest rates are fixed for a pre-determined period of time and relatively lower than prevailing market rates, with a view to attract new customers. Such teaser rate schemes introduced by our competitors may result in an increase in prepayment of loans and may have an adverse effect on our business, results of operations and financial condition.

- 11. Our business is particularly vulnerable to volatility and mismatch in interest rates, which could be inter-alia due to the monetary policies of the RBI, deregulation of the financial sector in India, domestic and international economic and political conditions. Any volatility in our rates of borrowing and lending may adversely affect our NIM which may in turn have a material adverse effect on our business, results of operations and financial condition.**

Our operations are particularly vulnerable to volatility and mismatch in interest rates. Interest rates have been highly volatile due to many factors some or all of which may be beyond our control, including the monetary policies of the RBI, deregulation of the financial sector in India, domestic and international economic and political conditions. Our NIM and profitability directly depend on the difference between the average interest rate at which we lend and the average interest rate at which we borrow. If interest rates decline, we may have to pass on the reduced interest rates to our borrowers even though we may not be able to get a reduction in the interest rates from some or all of our lenders, simultaneously or at all, thereby affecting our NIM. Further, if we do not pass on the reduced interest rates to our borrowers, it may result in some of the borrowers prepaying the loan to take advantage of the reduced interest rate environment, thereby impacting our growth and profitability. If interest rates rise, some or all of our lenders may increase the interest rates at which we borrow resulting in an increase in our effective cost of funds. We may or may not be able to pass on the increased interest rates to our borrowers simultaneously with the increase in our borrowing rates, or at all, thereby affecting our NIM. Further, an increase in interest rates may result in some of our borrowers prepaying their loans by arranging funds from other sources, thereby impacting our growth and profitability. Additionally, an increase in interest rates could reduce the overall demand for housing finance and impact the growth of our Company.

Our total borrowings outstanding as on February 15, 2014 and March 31, 2013 ` 5,700 million and ` 2,050 million respectively. Though we have maintained a NIM of 8.09 % and 8.21 % in the Half Year ended September 30, 2013 and the Financial year ended March 31, 2013 respectively, there can be no assurance that we will be able to adequately manage our interest rate risk in the future, and if we are unable to do so, this could have an adverse effect on our NIM which could in turn have a material adverse effect on our business, results of operations and financial condition.

- 12. Y g " c t g " f g r g p f g p v " q p " K K H N . " q w t " R t q o q v g t ø u " R t q o q v g t . we enjoy in the industry and our brand name and any factor affecting the business and reputation of IIFL may have a concurrent adverse effect on our business and results of operations.**

C u " q p " f c v g . " K K H N " f k t g e v n { " j q n f u " ; r e Our clients from IIFL w t " R t q o and our Promoter and also significantly benefit from the goodwill that IIFL enjoys in the market. We believe that this goodwill ensures a steady inflow of business. In the event IIFL is unable to maintain the quality of its services or its goodwill deteriorates for any reason whatsoever, our business and results of operations may be adversely affected. Moreover, we have not entered into any formal arrangements for w u c i g " q h " v j g " ö K K H N ö " d t c p f " p c o g " operate in a competitive j k e j " k u environment, and we believe that our brand recognition is a significant competitive advantage to us. Any failure to retain our Company name may deprive us of the associated brand equity that we have developed which may have a material adverse effect on our business and result of operations.

- 13. Q w t " v t c f g o c t m " ö K K H N " J q o g " N q c p u ö " k u " p q v " t g i k u v g t g f " c p f our ability to defend our trade mark in infringement or passing off proceedings.**

We have not yet filed application for registering the below mentioned trademark under the Trade Marks Act, 1999.

| Sr. No. | Trade Mark/ Logo |
|---------|---|
| 1. |  |

There can be no assurance that our trade mark application will be accepted and registered in future. Further, our application for the registration of trademark may be opposed by third parties, and we may have to incur significant cost and spend time in litigations in relation to these oppositions. In the event we are not able to obtain registration, we may not be able to avail the legal protection and legal remedies (in case of infringement) or prohibit unauthorized use of such mark by third parties by means of statutory protection, available as a proprietor of registered trademarks.

14. We carry out our business operations through branch/regional offices of IIFL. Any dispute in relation to the lease of the premises would have an adverse effect on our business operations.

We do not own the premises from where we carry out our business. Further, Our Company operates from premises which are rented or leased by IIFL at different locations. If any of the owners of these premises do not renew the agreements under which we occupy the premises or terminate the agreements in accordance with the agreement or renew such agreements on terms and conditions that are unfavorable to our Company, we may suffer a disruption in our operations which could have a material adverse effect on our business.

15. If we are unable to manage our growth effectively, our business and financial results could be adversely affected.

A principal component of our strategy is to continue to grow by expanding the size and geographical scope of our business. This growth strategy will place significant demands on our management, financial and other resources. It will require us to continuously develop and improve our operational, financial and internal controls. Continuous expansion increases the challenges involved in financial management, recruitment, training and retaining high quality human resources, preserving our culture, values and entrepreneurial environment, and developing and improving our internal administrative infrastructure. Failure to train our employees properly may result in an increase in employee attrition rates, require additional hiring, erode the quality of customer service, divert management resources, increase our exposure to high-risk credit and impose significant costs on us. If we grow our Loan Book too rapidly or fail to make proper assessments of credit risks associated with new borrowers, a higher percentage of our loans may become non-performing, which would have a negative impact on the quality of our assets and our financial condition. Any inability on our part to manage such growth could disrupt our business prospects, impact our financial condition and adversely affect our results of operations.

16. Our growth will depend on our continued ability to access funds at competitive rates which are dependent on a number of factors including our ability to maintain our credit ratings. Our inability to secure the requisite financing and at competitive interest rates could have an adverse effect on our business, results of operations and financial condition.

Our business depends and will continue to depend on our ability to access funding sources at competitive rates. Our ability to raise funds on acceptable and competitive terms is a function of various factors including, amongst others, our current and future results of operations and financial condition, our risk management policies, our credit rating, our brand equity and policy initiatives in India and developments in the international markets affecting the Indian economy. Our continued growth will depend, among other things, on our ability to avail requisite financing and at competitive interest rates. Our inability to secure the requisite financing and at competitive interest rates could have an adverse effect on our business, results of operations and financial condition.

The cost and availability of capital is, amongst other factors, also dependent on our rating. Our Company currently has the following ratings for various debt instruments and has not been downgraded or suspended.

| Credit Rating Agency | Instrument | Date | Ratings | Rated Amount in Million |
|----------------------|---------------------------|-------------------|---------------------|----------------------------|
| CRISIL | Long Term Bank Facilities | December 12, 2011 | CRISIL AA- (Stable) | 1,000.00 |

| Credit Rating Agency | Instrument | Date | Ratings | Rated Amount in Million |
|----------------------|-------------------------------------|-------------------|-------------------------------------|-------------------------|
| CRISIL | Long Term Debt-NCD | June 19, 2013 | CRISIL AA- (Stable) | 500.00 |
| ICRA | Short Term Debt | February 13, 2014 | [ICRA] A1+ | 550.00 |

and ability to meet obligations. Any downgrade or suspension of existing and/or future credit ratings would increase borrowing costs and constrain access to capital and debt markets and, as a result, would negatively affect the business and the results of operations and financial condition of our Company. In addition, downgrading or suspension of our existing credit ratings could increase the possibility of additional and more onerous terms and conditions (including restrictive covenants) being added to any new or existing financing arrangements, which could again affect the results of operations and financial condition of our Company.

Any inability to secure sufficient funding on favourable terms or at all could have a material adverse effect on our business, results of operations and financial condition.

- 17. We are required to obtain and maintain certain licenses and approvals for our business and in the event we are unable to obtain and maintain such licenses and approvals in a timely manner or at all, our business, results of operations and financial condition may be adversely affected.**

We require certain licenses, approvals, permits and registrations in order to undertake our business activities. These include registration with the NHB. We are also required to maintain licenses under various state Shops and Establishment Acts for some of our offices. Failure by us to comply with the terms and conditions to which such permits or approvals are subject, and/or to renew, maintain or obtain the required permits or approvals may result in the interruption of our operations and may have a material adverse effect on our business, financial condition and results of operations.

- 18. If we are unable to adapt to technological changes in line with changes in market conditions and the requirements of our customers, this may result in a material adverse impact on our business, results of operations and financial condition.**

Our success will depend in part on our ability to respond to technological advances in the business in which we operate, on a cost-effective and timely basis. The development and implementation of such technology solutions entails technical and business risks. There can be no assurance that we will be able to adapt or upgrade our existing technologies and successfully implement new technologies. If we are unable, for technical, legal, financial or other reasons, to adapt in a timely manner to changing market conditions, customer requirements or technological changes, it may adversely affect our business, results of operations and financial condition.

- 19. Any adverse event with respect to our central depository and/or electronic data processing department may have an adverse effect on our business, results of operation and financial condition.**

The title deeds deposited by our borrowers are kept at a centralized operations unit maintained by us at Chennai. It is operated by the centralized operations team. We maintain all the title deeds in fire and burglary proof vaults. In case of any adverse event which affects the central depository and/or our electronic data processing department, including loss of documents, will affect our loan monitoring ability, enforcement of security and accordingly our business reputation may be impaired. A combination of some or all of these factors may result in a failure to realize the value of the security, which may in turn have a material adverse effect on our business, results of operations and financial condition.

- 20. We have entered into an Assignment Agreement with Dena Bank to sell certain loans from our outstanding loan portfolio. Our business, financial condition and results of operations could be adversely affected due to some of the restrictions imposed under such agreements or downgrade in the ratings of our securitized debt or if such assignment of loan is held to be unenforceable.**

We have sold and assigned a group of similar loans from our outstanding loan portfolio to Dena Bank in return for an upfront fixed consideration. As of March 31, 2013 and September 30, 2013, our outstanding portfolio of assigned loans was ` 2,687.1 million and ` 2,103.8 million respectively, constituting 43.8% and 22.5% of our gross loan portfolio. Under the assignment agreement, we have provided credit enhancement through fixed deposits with banks. If the relevant bank does not realize the receivables due under such assigned loans, the relevant bank would have recourse to cash collateral and the underlying security. We are also liable to indemnify the relevant bank in the occurrence of an event of default stated under such assignment agreements. We make a general provision for all loans and specific provisions on our non-performing loans. Further any downgrade in the ratings of our securitized debt may lead to additional collaterals required to be provided. In the event the cash collateral underlying the security and general provisioning are inadequate, and the assigned loans are put back to us, this could have a material adverse effect on our operating results and financial condition.

Further, in January 2009, the High Court of Gujarat held that the provisions of the Banking Regulation Act, 1949 do not permit banks to assign debt due to them, including the assignment of debt between two banks. However, on appeal, the Supreme Court of India reversed the decision of the Gujarat High Court and held that a bank to bank transfer of debt is not barred by law. If, in the future, the Assignment Agreement entered into by us is held to be unenforceable by a court of law, we may be required to terminate the Assignment Agreement and may suffer losses.

- 21. We may have to comply with stricter regulations and guidelines issued by regulatory authorities in India. If we are unable to comply with any such regulatory requirements, our business and results of operations may be materially and adversely affected.**

We are regulated principally by and have reporting obligations to the NHB. We are also subject to the corporate, taxation and other laws in effect in India. In recent years, existing rules and regulations have been modified, new rules and regulations have been enacted and reforms have been implemented which are intended to provide tighter control and more transparency. Moreover new regulations may be passed that restrict our ability to do business. For example, regulatory restrictions on securitisation may be extended to bilateral assignment transactions, resulting in loss of arbitrage options.

We cannot assure you that we will not be subject to any adverse regulatory action in the future. Further, these regulations are subject to frequent amendments and depend upon government policy. The costs of compliance may be high, which may affect our profitability. If we are unable to comply with any such regulatory requirements, our business and results of operations may be materially and adversely affected.

- 22. Unfavourable regulatory changes could have an adverse impact on HFCs business and profitability, including our Company.**

HFCs in India work under the regulations of the NHB. Any adverse changes in the regulatory framework are likely to have an adverse impact on the business and the financial performance of the HFCs including our Company. Some of the recent regulatory changes include, increase in the standard asset provisioning requirement, removal of pre-payment penalty for floating rate housing loans, change in eligibility and restriction on bank lending to HFCs under priority sector classification for banks, uniformity in the interest rate changed to new and old customers and restriction on Loan to value (LTV) ratio etc are expected to have an adverse impact on the business and financial performance of the HFCs.

- 23. We are subject to certain restrictive covenants in our loan documents, which may restrict our operations and ability to grow and may adversely affect our business.**

There are restrictive covenants in the agreements we have entered into with our lenders. These restrictive covenants require us to maintain certain financial ratios and seek the prior permission of these banks/financial institutions for various activities, including, amongst others, selling, leasing, transferring or otherwise disposing of any part of our business or revenues, effecting any scheme of amalgamation or

reconstitution, implementing a new scheme of expansion, taking up an allied line of business or making any amendments to Memorandum and Articles of Association. Such restrictive covenants in our loan documents may restrict our operations or ability to expand and may adversely affect our business. For details of these restrictive covenants, please refer to the chapter **Financial Indebtedness** on page 141.

- 24. Our success depends in large part upon our management team and key personnel and our ability to attract, train and retain such persons. Our inability to attract and retain talented professionals, or the resignation or loss of key management personnel, may have an adverse impact on our business and future financial performance.**

Our ability to sustain our rate of growth depends significantly upon our ability to manage key issues such as selecting and retaining key managerial personnel, developing managerial experience to address emerging challenges and ensuring a high standard of client service. In order to be successful, we must attract, train, motivate and retain highly skilled employees, especially branch managers and product executives. If we cannot hire additional qualified personnel or retain them, our ability to expand our business will be impaired and our revenue could decline. We will need to recruit new employees, who will have to be trained and integrated into our operations. We will also have to train existing employees to adhere properly to internal controls and risk management procedures. Failure to train and motivate our employees properly may result in an increase in employee attrition rates, require additional hiring, erode the quality of customer service, divert management resources, increase our exposure to high-risk credit and impose significant costs on us. Hiring and retaining qualified and skilled managers are critical to our future, as our business model depends on our credit-appraisal and asset valuation mechanism, which are personnel-driven operations. Moreover, competition for experienced employees can be intense. Our inability to attract and retain talented professionals, or the resignation or loss of key management personnel, may have an adverse impact on our business and future financial performance.

- 25. We may not be able to successfully sustain our growth plans. In absence of sustained rate of growth our Company may face adverse impact on our business and future financial performance.**

In recent years, our growth has been fairly substantial. Our growth plan includes growing our secured lending and expanding our retail customer base. There can be no assurance that we will be able to sustain our growth plan successfully or that we will be able to expand further or diversify our product portfolio. If we grow our Loan Book too rapidly or fail to make proper assessments of credit risks associated with new borrowers, a higher percentage of our loans may become non-performing, which would have a negative impact on the quality of our assets and our financial condition.

We also face a number of operational risks in executing our growth strategy. We have experienced growth in our Mortgage Loans business as part of our growth strategy. Our rapid growth exposes us to a wide range of increased risks, including business and operational risks, such as the possibility of growth of NPAs, fraud risks and regulatory and legal risks. Our ability to sustain our rate of growth also significantly depends upon our ability to recruit trained and efficient personnel and retain key managerial personnel, maintain effective risk management policies, continuing to offer products which are relevant to our target base of clients, developing managerial experience to address emerging challenges and ensuring a high standard of client service. We will need to recruit new employees, who will have to be trained and integrated into our operations. We will also have to train existing employees to adhere properly to internal controls and risk management procedures. Failure to train our employees properly may result in an increase in employee attrition rates, erode the quality of customer service, divert management resources, increase our exposure to high-risk credit and impose significant costs on us.

- 26. Our insurance coverage may not adequately protect us against losses. Successful assertion of one or more large claims against us could adversely affect our business, financial condition and results of operations.**

Being part of IIFL Group, our employees get covered under the group insurance policy availed by IIFL to cover the life of full time and permanent employees of IIFL Group. The insurance policy, however, may not provide adequate coverage in certain circumstances and are subject to certain deductibles, exclusions and limits on coverage. Further, we do not have insurance policies to cover any damage or loss suffered by us. A successful assertion of one or more large claims against us could adversely affect our business, financial condition and results of operations.

27. Any change in control of our Promoter or our Company may correspondingly adversely affect our operations and profitability.

As on February 14, 2014, our Promoter holds 100% of our paid up Equity Share capital. If our Promoter ceases to exercise direct control over our Company and/or there is change in direct control over our Promoter, as a result of any transfer of shares or otherwise, our business, profitability and results of operations could be adversely affected.

28. As a housing finance company we have exposure to Real Estate sector and any factor affecting this sector could adversely affect our business and result of operations.

Our lending products include Mortgage Loans, which includes Retail Mortgage Loans and Corporate Mortgage Loans. These loans are bifurcated into Housing Loans and Loans Against Property. As of September 30, 2013, we have extended loans and advances aggregating to ₹ 7,264.30million. In the event the real estate sector is adversely affected due to any reason whatsoever, the value of our collaterals may diminish which may affect our business and results of operations in the event of a default in repayment by our clients.

29. Our inability to assess, monitor and manage risks inherent in our business could adversely affect our business.

We are exposed to a variety of risks, including competition risk, liquidity risk, interest rate risk, credit risk, operational risk and legal risk. Our hedging strategies and other risk management techniques may not be fully effective in mitigating our risks in all market environments or against all types of risk, including risks that are unidentified or unanticipated. Some methods of managing risks are based upon observed historical market behavior. As a result, these methods may not predict future risk exposures, which could be greater than the historical measures indicated. Other risk management methods depend upon an evaluation of information regarding markets, customers or other matters. This information may not in all cases be accurate, complete, up-to-date or properly evaluated. Management of operational, legal or regulatory risk requires among other things, policies and procedures properly to record and verify a number of transactions and events. Although we have established these policies and procedures, they may not be fully effective.

Our future success will depend, in part, on our ability to respond to new technological advances and emerging banking and housing finance industry standards and practices on a cost-effective and timely manner. The development and implementation of such technology entails significant technical and business risks. There can be no assurance that we will be able to successfully implement new technologies or adapt its transaction processing systems to customer requirements or emerging market standards.

30. Our Company is exposed to many operational risks which could materially impact our business and results of operations.

Our Company is exposed to many types of operational risks. Operational risk can result from a variety of factors, including failure to obtain proper internal authorizations, improperly documented transactions, failure of operational and information security procedures, computer systems, software or equipment, fraud, inadequate training and employee errors. We attempt to mitigate operational risk by maintaining a comprehensive system of internal controls, establishing systems and procedures to monitor transactions, maintaining key back-up procedures, undertaking regular contingency planning and providing employees with continuous training. Any failure to mitigate such risks could adversely affect our business and results of operations.

31. Our Promoter holds 100% of the paid up equity share capital (directly and through its nominees) of our Company, which will enable them to influence the outcome of matters submitted to shareholders for approval.

As on February 14, 2014, our Promoter holds 100 % of the paid up equity share capital (directly and through its nominees) and has the ability to control our business including matters relating to any sale of all or substantially all of our assets, the timing and distribution of dividends and the election or termination of appointment of our officers and directors. This control could delay, defer or prevent a change in control of our Company, impede a merger, consolidation, takeover or other business combination involving our Company, or discourage a potential acquirer from making a tender offer or otherwise attempting to obtain

e q p v t q n " q h " q w t " E q o r c p { " g x g p " k h " k v " k u " k p " q w t " E q o r c p { continues to exercise significant control over our Company, it may influence the material policies of our Company in a manner that could conflict with our interests. Our Promoter may have interests that are adverse to our interests and may take positions with which we do not agree.

32. *Our results of operations could be adversely affected by any disputes with employees.*

Currently, none of our employees are members of any labour union. While we believe that we maintain good relationships with our employees, there can be no assurance that we will not experience future disruptions to our operations due to disputes or other problems with our work force, which may adversely affect our business and results of operations.

33. *High levels of customer defaults could adversely affect our business, financial condition and results of operations.*

We are subject to customer default risks including default or delay in repayment of principal or interest on our loans. Customers may default on their obligations to us as a result of various factors including bankruptcy, lack of liquidity, lack of business and operational failure. If borrowers fail to repay loans in a timely manner or at all, our financial condition and results of operations will be adversely impacted.

34. *Significant fraud, system failure or calamities could adversely impact our business and results of operations.*

We seek to protect our computer systems and network infrastructure from physical break-ins as well as fraud and system failures. Computer break-ins and power and communication disruptions could affect the security of information stored in and transmitted through our computer systems and network infrastructure. We employ security systems, including firewalls and password encryption, designed to minimize the risk of security breaches. Although we intend to continue to implement security technology and establish operational procedures to prevent fraud, break-ins, damage and failures, there can be no assurance that these security measures will be adequate. A significant failure of security measures or operational procedures could have a material adverse effect on our business and our future financial performance. Although we take adequate measures to safeguard against system-related and other frauds, there can be no assurance that it would be able to prevent frauds.

We are exposed to many types of operational risks, including the risk of fraud or other misconduct by employees and unauthorized transactions by employees. Although we have been careful in recruiting all our employees, we have in the past been held liable for the fraudulent acts committed by our employees adversely impacting our business. Our reputation could be adversely affected by significant frauds or other misconduct by employees.

35. *We depend on the accuracy and completeness of information provided by our potential borrowers. Our reliance on any misleading information given by potential borrowers may affect our judgment of credit worthiness of potential borrowers, and the value of and title to the collateral, which may affect our business, results of operations and financial condition.*

In deciding whether to extend credit or enter into other transactions with potential borrowers, we rely on information furnished to us by potential borrowers, and analysis of the information by independent valuers and advocates. To further verify the information provided by potential borrowers, we conduct searches with CIBIL for creditworthiness and encumbrances on collateral. We also verify information with registrar and sub-registrar of assurances for encumbrances on collateral. We follow the KYC guidelines as prescribed by the NHB on the potential borrower, collect opinions from other financial institutions, verify the place of business or place of employment as applicable to the potential borrower and also verify the details with the caution list of NHB as circulated from time to time. Such information includes representations with respect to the accuracy and completeness of information relating to the financial condition of potential borrowers, and independent valuation reports and title reports with respect to the property secured. We have framed our policies to prevent frauds in accordance with the KYC guidelines issued by NHB dated October 11, 2010 mandating the policies of the HFC to have certain key elements, including *inter-alia* a customer acceptance policy, customer identification procedures, monitoring of transactions and risk management. Further our Company has a well-established and streamlined credit appraisal process. We cannot assure you that information furnished to us by potential borrowers and analysis of the information by independent

valuers or the independent searches conducted by us with CIBIL and NHB will be accurate, and our reliance on such information given by potential borrowers may affect our judgment of the credit worthiness of potential borrowers, and the value of and title to the collateral, which may affect our business, results of operations and financial condition.

36. Failure to comply with internal procedures and inaccurate appraisal of credit may adversely impact our business and results of operations.

We may be affected by failure of employees to comply with internal procedures and inaccurate appraisal of credit or financial worth of our clients. Inaccurate appraisal of credit may allow a loan sanction which may eventually result in a bad debt on our books of accounts. In the event we are unable to check the risks arising out of such lapses, our business and results of operations may be adversely affected.

37. We have entered into a number of related party transactions and may continue to enter into related party transactions, which may involve conflict of interest.

We have entered into a number of related party transactions, within the meaning of AS 18. Such transactions may give rise to current or potential conflicts of interest with respect to dealings between us and such related parties. Additionally, there can be no assurance that any dispute that may arise between us and related parties will be resolved in our favour. For further details, please refer to statement of related party transactions in *the Significant Accounting Policies and Notes to Accounts on the T g h q t o c v v g f " H k p e k c n S i g n i f i c a n t A c c o u n t i n g P o l i c i e s a n d N o t e s t o A c c o u n t s o n t h e*

Risks pertaining to this Issue

38. There are certain risks in connection with the NCDs being unsecured.

The NCDs will be in the nature of subordinated debt and hence the claims of the holders thereof will be subordinated to the claims of other secured and other senior unsecured creditors of our Company. Further, since no charge upon the assets of our Company would be created in connection with the NCDs, in the event of default in connection therewith, the holders of NCDs may not be able to recover their principal amount and/or the interest accrued thereon in a timely manner, for the entire value of the NCDs held by them or at all. Accordingly, in such a case the holders of NCDs may lose all or a part of their investment therein. Further, the payment of interest and the repayment of the principal amount in connection with the NCDs would be subject to the requirements of NHB, which may also require our Company to obtain a prior approval from the NHB in certain circumstances.

39. We are required to create a debenture redemption reserve equivalent to 25% of the value of the NCD offered through this Issue and we may not have access to adequate funds to redeem the full quantum of the NCDs at the closure of the redemption period which may adversely affect your rights and profitability.

Section 117C of the Companies Act, 1956 states that any company that intends to issue debentures must create a debenture redemption reserve to which adequate amounts shall be credited out of the profits of the Company until the debentures are redeemed. The Ministry of Company Affairs, Government of India, v j t q w i j " v j g k t " p q v k h k e c v k q p " f c v g f " H g d t w c t { " 3 3 . " 4 2 3 5 * ð F T T ö + " q h " c " x c n w g " g s w k x c n g p v " v q " 4 7 ' " q h " v j g " f g d g p v V j g " F T T " k u " h w p f g f o f i t e v e r y y e a r . c S i n c e t h e v a l u e o f t h e r e s e r v e i s r e q u i r e d t o b e minimum 25% of the cumulative value of the NCDs on offer, we may not have adequate funds to redeem the NCDs at the close of the redemption period, which may adversely affect your rights and profitability.

40. Changes in interest rates may affect the price of our NCDs which frequently accompany inflation and/or a growing economy, are likely to have a negative effect on the price of our NCDs.

All securities where a fixed rate of interest is offered, such as our NCDs, are subject to price risk. The price of such securities will vary inversely with changes in prevailing interest rates, i.e. when interest rates rise, prices of fixed income securities fall and when interest rates drop, the prices increase. The extent of fall or rise in the prices is a function of the existing coupon, days to maturity and the increase or decrease in the level of prevailing interest rates. Increased rates of interest, which frequently accompany inflation and/or a growing economy, are likely to have a negative effect on the price of our NCDs.

41. You may not be able to recover, on a timely basis or at all, the full value of the outstanding amounts and/or the interest accrued thereon in connection with the NCDs.

Our ability to pay interest accrued on the NCDs and/or the principal amount outstanding from time to time in connection therewith would be subject to various factors inter-alia including our financial condition, profitability and the general economic conditions in India and in the global financial markets. We cannot assure you that we would be able to repay the principal amount outstanding from time to time on the NCDs and/or the interest accrued thereon in a timely manner or at all.

42. Any downgrading in credit rating of our NCDs may affect the value of NCDs and thus our ability to raise further debts.

Our ability to pay interest accrued on the NCDs and/or the principal amount outstanding from time to time in connection therewith would be subject to various factors inter-alia including our financial condition, profitability and the general economic conditions in India and in the global financial markets. We cannot assure you that we would be able to repay the principal amount outstanding from time to time on the NCDs and/or the interest accrued thereon in a timely manner or at all.

43. You may be subject to Indian taxes arising on the sale of the NCDs.

Sales of NCDs by any holder may give rise to tax liability in India, as discussed in section entitled **Statement of Tax Benefits**.

44. There is no active market for the NCDs on the WDM segment of the stock exchanges. As a result the liquidity may fail to develop and market prices of the NCDs may accordingly be adversely affected.

There can be no assurance that an active market for the NCDs on the WDM segment of the exchanges will develop. If an active market for the NCDs fails to develop or be sustained, the liquidity and market prices of the NCDs may be adversely affected. The market price of the NCDs would depend on various factors inter alia including (i) the interest rate on similar securities available in the market and the general interest rate scenario in the country, (ii) the market for listed debt securities, (iii) general economic conditions, and, (iv) our financial performance, growth prospects and results of operations. The aforementioned factors may adversely affect the liquidity and market price of the NCDs, which may trade at a discount to the price at which you purchase the NCDs and/or be relatively illiquid.

External Risk Factors

45. We cannot predict the effect of the proposed notification of the Companies Act, 2013 on our business.

The Companies Act, 2013 is expected to replace the existing Companies Act, 1956. The Act provides for, among other things, changes to the regulatory framework governing the issue of capital by companies, corporate governance, liability, class action suits, and the inclusion of women directors on the boards of companies. The Act is expected to be complemented by a set of rules that shall set out the procedure for compliance with the

substantive provisions of the Companies Act. In the absence of such rules, it is difficult to predict with any degree of certainty the impact, adverse or otherwise, of the Act on the Issue, and on the business, prospects and results of operations of the Company. Further, as mentioned above, certain provisions of the Act have already come into force and the rest shall follow in due course. In event some or all of the provisions of the Act and the rules thereto are notified prior to the consummation of the Issue, we may have to undertake certain additional actions that we are not currently aware of (in the absence of the rules), which may result in delay of the Issue.

46. *Our results of operations have been, and may continue to be, adversely affected by Indian and international financial market and economic conditions.*

Our business is highly dependent on Indian and international markets and economic conditions. Such conditions in India include fluctuations in interest rates; changes in consumer spending; the level of consumer confidence; housing prices; corporate or other scandals that reduce confidence in the financial markets, among others. International markets and economic conditions include the liquidity of global financial markets, the level and volatility of debt and equity prices and interest rates, investor sentiment, inflation, the availability and cost of capital and credit, and the degree to which international economies are expanding or experiencing recessionary pressures. The independent and/or collective fluctuation of these conditions can directly and indirectly affect demand for our lending finance and other financial products, or increase the cost to provide such products. In addition, adverse economic conditions, such as declines in housing values, could lead to an increase in mortgage and other home loan delinquencies and higher write-offs, which can adversely affect our earnings.

Global financial markets were and continue to be extremely volatile and were materially and adversely affected by a significant lack of liquidity, decreased confidence in the financial sector, disruptions in the credit markets, reduced business activity, rising unemployment, declining home prices and erosion of consumer confidence. These factors have contributed to and may continue to adversely affect our business, financial condition and results of operations.

47. *Financial difficulties and other problems in certain financial institutions in India could cause our business to suffer and adversely affect our results of operations.*

We are exposed to the risks of the Indian financial system, which in turn may be affected by financial difficulties and other problems faced by certain Indian financial institutions. Certain Indian financial institutions have experienced difficulties during recent years. Some co-operative banks (which tend to operate in rural sector) have also faced serious financial and liquidity crises. There has been a trend towards consolidation with weaker banks, NBFCs and HFCs being merged with stronger entities. The problems faced by individual Indian financial institutions and any instability in or difficulties faced by the Indian financial system generally could create adverse market perception about Indian financial institutions, banks and NBFCs. This in turn could adversely affect our business, our future financial performance, our

48. *Terrorist attacks, civil unrest and other acts of violence or war involving India and other countries could adversely affect the financial markets and our business*

Terrorist attacks and other acts of violence or war may negatively affect our business and may also adversely affect the worldwide financial markets. These acts may also result in a loss of business confidence. In addition, any deterioration in relations between India and its neighboring countries might result in investor concern about stability in the region, which could adversely affect our business.

India has also witnessed civil disturbances in recent years and it is possible that future civil unrest as well as other adverse social, economic and political events in India could have a negative impact on us. Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse impact on our business and the market price of our NCDs.

49. *Natural calamities could have a negative impact on the Indian economy, particularly the agriculture sector, and cause our business to suffer*

India has experienced natural calamities such as earthquakes, a tsunami, floods and drought in the past few years. The extent and severity of these natural disasters determines their impact on the Indian economy. The

erratic progress of the monsoon in 2012 affected sowing operations for certain crops. Further, prolonged spells of below normal rainfall or other natural calamities could have a negative impact on the Indian economy thereby, adversely affecting our business.

50. *Changes in the global economic environment and the actions of international rating agencies could have a negative impact on our business.*

Any adverse revision in the ratings of international agencies may adversely impact our ability to raise additional financing, the interest rates and other commercial terms at which such additional financing is available. This could have a material adverse effect on our business and financial performance, our ability to raise financing for onward lending and the price of our NCDs.

51. *Instability of economic policies and the political situation in India could adversely affect the fortunes of the industry*

There is no assurance that the liberalization policies of the government will continue in the future. Protests against privatization could slow down the pace of liberalization and deregulation. The Government of India plays an important role by regulating the policies and regulations that govern the private sector. The current economic policies of the government may change at a later date. The pace of economic liberalization could change and specific laws and policies affecting the industry and other policies affecting investments in our country could disrupt business and economic conditions in India and thereby affect our business.

Unstable domestic as well as international political environment could impact the economic performance in the short term as well as the long term. The Government of India has pursued the economic liberalization policies including relaxing restrictions on the private sector over the past several years. The present Government has also announced policies and taken initiatives that support continued economic liberalization.

The Government has traditionally exercised and continues to exercise a significant influence over many aspects of the Indian economy, including interest rates, changes in Government policy, taxation, social and civil unrest but also by other political, economic or other developments in or affecting India.

52. *Companies operating in India are subject to a variety of central and state government taxes and surcharges.*

Tax and other levies imposed by the central and state governments in India that affect our tax liability include: (i) central and state taxes and other levies; (ii) income tax; (iii) value added tax; (iv) turnover tax; (v) service tax; (vi) stamp duty; and (vii) other special taxes and surcharges which are introduced on a temporary or permanent basis from time to time. Moreover, the central and state tax scheme in India is extensive and subject to change from time to time. For example, a new tax code is proposed to be introduced in the Indian Parliament.

The statutory corporate income tax in India, which includes a surcharge on the tax and an education cess on the tax and the surcharge, is currently 32.45 %. The central or state government may in the future increase the corporate income tax it imposes. Any such future increases or amendments may affect the overall tax efficiency of companies operating in India and may result in significant additional taxes becoming payable. Additional tax exposure could adversely affect our business and results of operations.

53. *Financial instability in other countries could disrupt our business.*

The Indian market and the Indian economy are influenced by economic and market conditions in other countries. A loss of investor confidence in the financial systems of other emerging markets may cause volatility in Indian financial markets and indirectly, in the Indian economy in general. Any worldwide financial instability could also have a negative impact on the Indian economy, including the movement of exchange

rates and interest rates in India.

In the event that the current difficult conditions in the global credit markets continue or if the recovery is slower than expected or if there any significant financial disruption, this could have an adverse effect on our cost of funding, loan portfolio, business, prospects, results of operations and financial condition

PROMINENT NOTES

1. This is a public issue of NCDs by our Company aggregating upto ` 1,000 million with an option to retain over-subscription upto ` 1,000million, aggregating to a total of 2,000 million.

| ** The debt-equity ratio post the Issue is indicative since it includes assumed cash flows on account of the present issue of ` 2,000.00 million which is added to debts, net of repayments, amounting to ` 5,700.00 million as at February 15, 2014. | | | | |

Our Corporate Structure

OUR STRENGTHS

Our Parentage

Y g " d g n k g x g " y g " d g p g h k v " g z v g p u k x g n { " h t q o " q w t " R t q o q v g t Promoter IIFL, which is a diversified financial services company with a pan-India presence. IIFL is a well-established brand among retail, institutional and corporate investors in India. IIFL along with its subsidiaries offers a wide range of products and services including retail broking, institutional equities, commodities and currency broking, wealth advisory, credit & finance, insurance broking, asset management, financial products distribution & investment banking. IIFL offers advisory/ broking/ distribution services in certain overseas locations through its overseas subsidiaries. The IIFL brand is associated with trust, knowledge leadership and high quality services. We believe we have been able to leverage on our Promoter to grow our business, build relationships and also attr c e v " v c n g p v 0 " Y g " g z v g p u k x g n { " n g x g t c i g " w r q p " understanding of the market and customer needs.

We depend on IIFL and our Promoter for support, operations and common infrastructure. We believe we can further leverage upon the branch network of IIFL for expansion, new product launch & building scale.

Secured Loan Book and Strong Asset Quality

We provide only secured finance which ensures lower NPAs and lesser recovery related problems. The Mortgage Loans are secured with mortgage of residential property, land, commercial properties, which are either under construction or fully developed. As a policy, we lend up to 65% of value of property for Loan against Property and up to 90%/80%/75% for Home Loans based on loan amount and in line with NHB guidelines. We believe this policy provides us a cushion against possible defaults. We believe that our robust credit approval mechanisms, credit control processes, audit and risk management processes and policies help us maintain the quality of our loan portfolio

We are adequately capitalized to fund our growth

Y g " c t g " u w d l g e v " v q " e c r k v c n " c f g s w c e { " t c v k q " * ð E C T ö + " t g s

to maintain a minimum of 12% as prescribed under the Prudential Norms of NHB based on our total capital to risk weighted assets. As part of our governance policy, we ordinarily maintain capital adequacy higher than statutorily prescribed CAR. As of September 30, 2013 and March 31, 2013 our capital adequacy ratio computed on the basis of applicable NHB requirement was 49.49% and 43.17% as compared to a minimum of capital adequacy requirement of 12% stipulated by NHB for FY13.

Set forth below is our capital adequacy ratio for the last five fiscal years.

| Year | As at September 30, 2013 | FY 2013 | FY 2012 | FY 2011 | FY 2010 | FY 2009 |
|------------------------|--------------------------|---------|---------|---------|---------|---------|
| Capital Adequacy Ratio | 49.49 | 43.17 | 46.86 | 41.07 | 140.36 | Nil |

Access to cost effective funding sources

Our fund requirements are currently predominantly sourced through term loans from banks, issue of redeemable non-convertible debentures on private placement basis and commercial paper. We believe that we have developed stable long term relationships with our lenders and have established a track record of timely servicing of our debts. We also place commercial paper and access inter-corporate deposits.

We believe that we have been able to achieve a relatively stable cost of funds despite the difficult conditions in the global and Indian economy and the resultant reduced liquidity and an increase in interest rates, primarily due to effective treasury management and innovative fund raising programs. We believe we are able to borrow from a range of sources at competitive rates.

Set forth below is our Average Cost of Borrowing for the last five fiscal years.

| Year | Half year ending September 30, 2013 | FY 2013 | FY 2012 | FY 2011 | FY 2010 | FY 2009 |
|---------------------------|-------------------------------------|---------|---------|---------|---------|---------|
| Average Cost of Borrowing | 12.16% | 12.41% | 11.84% | 10.77% | 9.82% | 10.48% |

Well Defined Processes

We believe our well defined business processes ensure complete independence of function and segregation of responsibilities. Our robust credit approval and credit control processes, centralized operations unit, independent audit unit for checking compliance with the prescribed policies and approving all loans at transaction level and risk management processes and policies provide for multiple checks and verifications for both legal and technical parameters, including collateral valuation and title search, document verification and fraud and KYC check, personal meetings with clients and audit before disbursement of loans above a specific limit.

For our Mortgage Loans the credit department evaluates proposals focusing on both the borrower and the security on various legal and technical parameters like title reports from empanelled lawyers. We believe our procedures have ensured that the eventual write off due to non-recovery have remained less than 0.1% of Loan Book during the last three fiscals.

Access to Extensive Distribution and Branch Network

Our Mortgage Loans business is sourced through direct sales and regional offices of our Promoter. Additionally we have access to the pan India branch and distribution network of IIFL Group and we leverage the extensive distribution network of the IIFL Group for sourcing business. We also source our Mortgage Loans from our wide network of DSAs and other alternate channels (i.e. the staff and client base of IIFL Group). We propose to set up additional branches across India to further strengthen our geographic reach and customer service and distribution points.

We believe that access to such an extensive distribution network enables us to service and support our existing customers from proximate locations which gives our customers easy access to our services and enables us to reach new customers. We believe we can leverage on this existing branch network for further expansion, new product launch and building scale.

Experienced Management Team

The Board of Directors comprises of 6 directors with significant experience in the banking and finance sector.

The members of our executive management team also have significant experience in the products and services offered by us. We believe that our senior management and talented and experienced executives are and would continue to be the principal drivers of our growth and success in all of our businesses. We believe that the extensive relevant experience and financial acumen of our management and executives provides us with a distinct competitive advantage. Our management organization structure is designed to support each product line by a dedicated team of executives with substantial experience in their particular business segment.

Technology, Analytics and Credit bureau usage

We believe that our robust loan management system, analytic ability and extensive usage of the credit bureau and other allied KYC procedures offer us a significant competitive advantage. Our systems have the capability of end to end customer data capture, computation of income, collateral data capture, and repayment management. Our loan approval is controlled by the loan application system. We believe our monthly analytics reports including through the-door and credit information tracking are efficient tools for ensuring risk management-controls & compliance.

Our systems are custom designed for our services and help us reduce people contact time and enhance our processes and operational excellence. Our systems fully integrate businesses in every aspect bringing together various departments in simple transitions and customer information updates. Technology gives us the ability to integrate cash flows in real time and allows us better informed decision making with instantaneous access to record and information.

OUR STRATEGIES

Our key strategy is to gradually grow retail focused mortgage assets, leveraging technology to achieve operational efficiency and to leverage extensive branch network of our parent, particularly in the unbanked and under-banked regions of the country. Key elements of our strategy are:

Retail Focus

Given the potential, our focus is to grow diversified retail mortgage assets. We will continue to focus primarily on residential mortgage assets and to maintain a conservative loan to value ratio across all loan products. We will focus on gaining size and scale in our existing product portfolio. We believe that lending for residential assets across various geographies will allow us to build a healthy loan book.

Operational Efficiency

Operational efficiency is the key to grow retail focused loan portfolio and will form the backbone of our product and service delivery. We intend to continuously improve our operating processes and customer turnaround time to get higher efficiency. As a result, we expect to deliver a superior customer experience. We also intend to further strengthen our risk management systems to maintain asset quality so that growth does not come at the cost of quality.

Technology driven

We will continue to bank on cutting edge technology solutions. We will continue to invest in our IT infrastructure as we believe technology and system driven processes will help us scale up the retail oriented loan assets. System driven risk management processes will help us in growth without comprising on the quality of assets. We expect that technology will help us reduce operating costs and reduce turnaround time. We will continue to rely on proprietary system for loan processing and booking. The in-house loan application system has been built utilizing the expertise of the business and technology teams. We will also source best in-class industry applications, including credit bureaus, if needed due to growing size of the organization.

Extensive Branch Network

A good distribution network is very important for retail lending business and we plan to continue to leverage K K H's branch network. IIFL has developed a vast distribution network across the country with a large customer base across different product and service offerings. This facilitates customer acquisition, maintain high service standards and timely collections resulting in improved portfolio performance and profitability.

STATEMENT OF TAX BENEFITS

Under the current tax laws, the following tax benefits *inter-alia* will be available to the Debenture Holders as mentioned below. The tax benefits are given as per the prevailing tax laws and may vary from time to time in accordance with amendments to the law or enactments thereto. The Debenture Holder is advised to consider in his own case the tax implications in respect of subscription to and redemption of the NCDs after consulting his tax advisor as alternate views are possible.

To the Debenture Holder

A. INCOME-TAX

I. To the Resident Debenture Holder

1. Interest on NCD received by Debenture Holders would be subject to tax at the normal rates of tax in accordance with and subject to the provisions of the I.T. Act. No income tax is deductible at source as per the provisions of section 193 of the I.T Act on interest on debentures in respect of the following:
 - (a) In case the payment of interest on debentures to resident individual or HUF Debenture Holder by a company in which the public are substantially interested in the aggregate during the financial year does not exceed ₹ 5000 provided the interest is paid by an account payee cheque;
 - (b) When the Assessing Officer issues a certificate on an application by a Debenture Holder on satisfaction that the total income of the Debenture Holder justifies no/lower deduction of tax at source as per the provisions of Section 197(1) of the I.T. Act; and that certificate is filed with the Company BEFORE THE PRESCRIBED DATE OF CLOSURE OF BOOKS FOR PAYMENT OF DEBENTURE INTEREST.
 - (c) When the resident Debenture Holder with PAN (not being a company or a firm or a senior citizen) submits a declaration in the prescribed Form 15G verified in the prescribed manner to the effect that the tax on his estimated total income of the previous year in which such income is to be included in computing his total income will be nil as per the provisions of section 197A (1A) of the I.T. Act. However, under section 197A (1B) of the I.T. Act, Form 15G cannot be submitted nor considered for exemption from deduction from tax at source if the aggregate of income of the nature referred to in the said section, viz. dividend, interest, etc. as prescribed therein, credited or paid or likely to be credited or paid during the Previous year in which such income is to be included exceeds the maximum amount which is not chargeable to tax, as may be prescribed in section 10(1) of the I.T. Act. In 2013, the maximum amount of income not chargeable to tax in case of individuals (other than senior citizens and super senior citizens) and HUFs is ₹ 200,000; in case of resident senior citizens (who are 60 or more years of age but less than 80 years of age at any time during the financial year) is ₹ 250,000 and in case of resident super senior citizens (who are 80 or more years of age at any time during the financial year) is ₹ 500,000 for Previous Year 2013-14. Senior citizens who are 65 years or more of age at any time during the financial year, enjoy the special privilege to submit a self-declaration in the prescribed Form 15H for non-deduction of tax at source in accordance with the provisions of section 197A (1C) of the I.T. Act even if the aggregate income credited or paid or likely to be credited or paid exceeds the maximum amount not chargeable to tax i.e. ₹ 250,000 for FY 2013-14 provided that the tax due on total income of the person is NIL. In all other situations, tax would be deducted at source as per prevailing provisions of the I.T. Act; Form No.15G WITH PAN / 15H WITH PAN / Certificate issued u/s 197(1) has to be filed with the Company before the prescribed date of closure of books for payment of debenture interest. Further, section 87A provides a rebate of 100 percent of income-tax or an amount of ₹ 2,000 whichever is less to a resident individual whose total income does not exceed ₹ 500,000.
 - (d) On any securities issued by a company in a dematerialized form and is listed on recognized stock exchange in India. (W.e.f. June 1,2008).
2. Under section 2 (29A) of the I.T. Act, read with section 2 (42A) of the I.T. Act, a listed debenture is treated as a long term capital asset if the same is held for more than 12 months immediately preceding the date of its transfer. Under section 112 of the I.T. Act, capital gains arising on the transfer of long

term capital assets being listed securities are subject to tax at the rate of 10% of capital gains calculated without indexation of the cost of acquisition. The capital gains will be computed by deducting expenditure incurred in connection with such transfer and cost of acquisition of the debenture from the sale consideration.

In case of an individual or HUF, being a resident, where the total income as reduced by the long term capital gains is below the maximum amount not chargeable to tax, then the long term capital gains shall be reduced by the amount by which the total income as so reduced falls short of the maximum amount which is not chargeable to income-tax and the tax on the balance of such long-term capital gains shall be computed at the rate mentioned above.

In addition to the aforesaid tax, a surcharge of 10% (if net income exceeds ` 10,000,000) of such tax liability, in the case of firms and a surcharge of 5% (if net income is in the range of ` 10,000,000 to ` 100,000,000) & 10% (if net income exceeds ` 100,000,000) of such tax liability, in case of domestic companies is also payable. A 2% education cess and 1% secondary and higher education cess on the total income tax (including surcharge) is payable by all categories of taxpayers

3. Short-term capital gains on the transfer of listed debentures, where debentures are held for a period of not more than 12 months would be taxed at the normal rates of tax in accordance with and subject to the provisions of the I.T. Act. The provisions related to maximum amount not chargeable to tax, surcharge and education cess described at para 2 above would also apply to such short-term capital gains.
4. In case the debentures are held as stock in trade, the income on transfer of debentures would be taxed as business income or loss in accordance with and subject to the provisions of the I.T. Act.
5. **HOWEVER IN CASE WHERE TAX HAS TO BE DEDUCTED AT SOURCE WHILE PAYING DEBENTURE INTEREST, THE COMPANY IS NOT REQUIRED TO DEDUCT SURCHARGE, EDUCATION CESS AND SECONDARY AND HIGHER EDUCATION CESS.**
6. The said issue of debentures qualifies as eligible investment under section 11(5)(ix) of the Income Tax Act, 1961 by a charitable trust.

II. To the Non Resident Indians

1. A non-resident Indian has an option to be governed by Chapter XII-A of the I.T. Act, subject to the provisions contained therein which are given in brief as under:
 - a) Under section 115E of the I.T. Act, interest income from debentures acquired or purchased with or subscribed to in convertible foreign exchange will be taxable at 20% (plus applicable surcharge, education cess and secondary & higher education cess), whereas, long term capital gains on transfer of such Debentures will be taxable at 10% of such capital gains without indexation of cost of acquisition (plus applicable surcharge, education cess and secondary & higher education cess). Short-term capital gains will be taxable at the normal rates of tax in accordance with and subject to the provisions contained therein.
 - b) Under section 115F of the I.T. Act, subject to the conditions and to the extent specified therein, long term capital gains arising to a non-resident Indian from transfer of debentures acquired or purchased with or subscribed to convertible foreign exchange will be exempt from capital gain tax if the net consideration is invested within six months after the date of transfer of the debentures in any specified asset or in any saving certificates referred to in clause (4B) of section 10 of the I.T. Act in accordance with and subject to the provisions contained therein.
 - c) Under section 115G of the I.T. Act, it shall not be necessary for a non-resident Indian to file a return of income under section 139(1) of the I.T. Act, if his total income consists only of investment income as defined under section 115C and / or long term capital gains earned on transfer of such investment acquired out of convertible foreign exchange, and the tax has been deducted at source from such income under the provisions of Chapter XVII-B of the I.T. Act in accordance with and subject to the provisions contained therein.

- d) Under section 115H of the I.T. Act, where a non-resident Indian becomes a resident in India in any subsequent year, he may furnish to the Assessing Officer a declaration in writing along with return of income under section 139 for the assessment year for which he is assessable, to the effect that the provisions of Chapter XII-A shall continue to apply to him in relation to the investment income (other than on shares in an Indian Company) derived from any foreign exchange assets in accordance with and subject to the provisions contained therein. On doing so, the provisions of Chapter XII-A shall continue to apply to him in relation to such income for that assessment year and for every subsequent assessment year until the transfer or conversion into money of such assets.
2. In accordance with and subject to the provisions of Section 115I of the I.T. Act, Non-Resident Indian may opt not to be governed by the provisions of Chapter XII-A of the I.T. Act. In that case, please refer to para A (2, 3 and 4) for the tax implications arising on transfer of debentures.
3. Under Section 195 of the I.T. Act, the company is required to deduct tax at source at the rate of 20% on investment income and at the rate of 10% on any long-term capital gains and as referred to in section 115E; at the normal rates for Short Term Capital Gains if the payee Debenture Holder is a Non Resident Indian. The provisions related to surcharge and education cess described above would also apply to such income/gains.
4. As per section 90(2) of the I.T. Act read with the circular no. 728 dated October 30, 1995 issued by the CBDT, in the case of a remittance to a country with which a Double Tax Avoidance Agreement (DTAA) is in force, the tax should be deducted at the rate provided in the Finance Act of the relevant year or at the rate provided in the DTAA, whichever is more beneficial to the assessee. However, submission of tax residency certificate, containing prescribed particulars is a mandatory condition for availing benefits under any DTAA. In terms of Chapter XA of the Income Tax Act general Anti Avoidance Rule may be invoked notwithstanding anything contained in the Act. By this Rule any arrangement entered into by an assessee may be declared to be impermissible avoidance arrangement as defined in that Chapter and the consequence would be interalia denial of tax benefit, applicable w.e.f 1-04-2016.
5. Alternatively, to ensure non deduction or lower deduction of tax at source, as the case may be, the Debenture Holder should furnish a certificate under section 197(1) or section 195 (3) of the I.T. Act, from the Assessing Officer before the prescribed date of closure of books for payment of debenture interest.

III. To the FIIs

In accordance with and subject to the provisions of section 115AD of the I.T. Act on transfer of debentures by FIIs, long term capital gains are taxable at 10% (plus applicable surcharge and education and secondary and higher education cess) and short-term capital gains are taxable at 30% (plus applicable surcharge and education and secondary and higher education cess). The cost indexation benefit will not be available. Further, benefit of provisions of the first proviso of section 48 of the I.T. Act will not apply. Income other than capital gains arising out of debentures is taxable at 20% in accordance with and subject to the provisions contained therein.

In addition to the aforesaid tax, in case of foreign corporate FIIs where the net income is in the range of ` 10,000,000 to ` 100,000,000 , a surcharge of 2 % of such tax liability and if the net income exceeds ` 100,000,000 a surcharge of 5% of such tax liability is also payable. A 2% education cess and 1% secondary and higher education cess on the total income tax (including surcharge) is payable by all categories of taxpayers.

The Finance Act, 2013 (by way of insertion of a new section 194LD in the I.T. Act) provides for lower rate of withholding tax at the rate of 5% on payment by way of interest paid by an Indian company to FIIs and Qualified Foreign Investor in respect of rupee denominated bond of an Indian company between June 1, 2013 and June 1, 2015 provided such rate does not exceed the rate as may be notified by the Government.

In accordance with and subject to the provisions of section 196D (2) of the I.T. Act, no deduction of tax at source is applicable in respect of capital gains arising on the transfer of debentures by FIIs.

The provisions at para II (4 and 5) above would also apply to FIIs.

IV. To the Other Eligible Institutions

All mutual funds registered under Securities and Exchange Board of India or set up by public sector banks or public financial institutions or authorised by the Reserve Bank of India be exempt from tax on all their income, including income from investment in Debentures under the provisions of Section 10(23D) of the I.T. Act subject to and in accordance with the provisions contained therein.

B. WEALTH TAX

Wealth-tax is not levied on investment in debentures under section 2(ea) of the Wealth-tax Act, 1957.

C. GIFT TAX

Gift-tax is not levied on gift of debentures in the hands of the donor as well as the donee because the provisions of the Gift-tax Act, 1958 have ceased to apply in respect of gifts made on or after October 1, 1998. **HOWEVER, IF ANY INDIVIDUAL OR HUF, RECEIVES THESE DEBENTURES OF THE AGGREGATE VALUE OVER ₹ 50,000 FROM ANY PERSON OR PERSONS WITHOUT CONSIDERATION OR RECEIVES THESE DEBENTURES FOR A CONSIDERATION WHICH IS LESS THAN AGGREGATE FAIR MARKET VALUE OF THE DEBENTURES BY AN AMOUNT EXCEEDING FIFTY THOUSAND RUPEES, THERE WILL BE LIABILITY TO INCOME TAX TO THE EXTENT PROVIDED IN SECTION 56(2)(VII) OF THE INCOME TAX ACT 1961 TO SUCH RECEIVER. HOWEVER, THE DEBENTURES RECEIVED AS GIFTS FROM ANY RELATIVE AS DEFINED IN SECTION 56 (2)(VII) OF THE INCOME TAX ACT WILL NOT ATTRACT INCOME TAX LIABILITY IN THE HANDS OF THE RECEIVER.**

SECTION IV - ABOUT OUR COMPANY

INDUSTRY

Housing Industry in India

The growth of the Indian economy and the resultant rise in the per capita income are stepping up the pace of urbanisation. This, along with the increasing availability of finance, has resulted in a growth in demand for housing in the past few years. As per CRISIL estimates, the housing stock in India stands at around 148 million in Fiscal 2013, as compared to around 103 million in Fiscal 2003.

Further improvements in the macro-economic scenario, coupled with associated demographic changes in population such as changing age-mix, increasing nuclearisation of families, etc., are expected to give an added impetus to the growth of the housing industry in India.

Key Demand Drivers

◀ **Population growth backed by favourable demographics**

India had an estimated population of more than 1.2 billion people, representing an estimated 250.6 million households in 2012 as compared to more than 1.0 billion people representing 197.2 million households in 2002. The growth in the number of households is a result of growth in population and changing income demographics, especially in urban areas. India's population grew at a slower CAGR of 1.6 per cent between 2001-2011 as compared to 2.0 per cent growth between 1991-2001. The population growth is expected to slow down further to 1.2 per cent in the current decade.

The increase in population has a direct bearing on the requirement for housing units and, through this, on floor space area requirements. The number of households is likely to rise with change in age-mix, growing number of nuclear families, continuous urbanisation and growing penetration of finance. Moreover, in the current scenario, population growth is occurring in younger age brackets. As per CRISIL Research estimates this translates into a tremendous increase in working population, thereby leading to greater demand for housing.

India - Population growth

◀ **Shortage of Housing Stock**

Despite strong growth in housing supply in recent years, India still faces a shortage of houses, especially in urban areas. As per the Report of the Technical Group on Urban Housing Shortage for the 12th Five Year Plan, 14.99 million units or no dwelling unit to live in at the beginning of the 12th Five Year Plan. The housing shortage in urban India was estimated to stand at 18.78 million units, as of March 1, 2012, the break-up of which is shown below:

Urban Housing Shortage (In Mn, %)

As various government and private agencies build additional housing stock for reducing this shortfall, it will lead to additional demand for housing loans.

◀ **Increasing Urbanisation**

The share of urban population has been increasing steadily from 28.1 per cent in 2002 to 31.4 per cent in 2012. The urban population has grown at a much higher CAGR of 2.8% vis-à-vis the overall CAGR of 1.6% for the decade of 2001-2011.

Urbanisation is expected to accelerate with expected CAGR of 2-2.5% vis-à-vis the overall population CAGR of 1.3% between 2010 to 2015. This difference in growth rates implies that the gap between urban and rural population will narrow. Urbanisation has a twin impact on housing demand. On the one hand, it reduces the area per household, and on the other, there is an increasing need for more nuclear families, leading to the formation of more number of households.
