

Nexstim Receives NBS System 6 Order from US Customer

Press release, Helsinki, 2 July 2025 at 9 AM (EEST)

Nexstim Plc (NXTMH:HEX) ("Nexstim" or "Company") has received an order for an NBS 6 system from an existing customer in the United States. The customer is an experienced user of the Nexstim therapy system that is now upgrading their device.

The NBS 6 is a new generation Nexstim system that makes the Company's clinically established, e-field navigated TMS (transcranial magnetic stimulation) technology more user-friendly than ever before. The NBS 6 system is currently CE-marked for the treatment of major depression and chronic neuropathic pain in the EU, and FDA-cleared for the treatment of major depressive disorder (MDD) in the United States.

Mikko Karvinen, CEO of Nexstim, comments: *"This order came from a customer that has successfully treated patients with our earlier generation therapy system for a long time. We are now very happy about them continuing their active Nexstim use with a new NBS 6 system treating MDD as well as for training purposes."*
