

Nexstim Receives an Upgrade Order from a German University Hospital

Press release, Helsinki, 16 December 2024 at 9 AM (EET)

Nexstim Plc (NXTMH:HEX) ("Nexstim" or "Company") has received an upgrade order for an NBS System 5 from a university hospital in Germany. The hospital is an existing customer that is upgrading their Nexstim system.

Nexstim's NBS (Navigated Brain Stimulation) System 5 is CE marked and FDA approved for presurgical mapping of the speech and motor cortices of the brain. In addition to its motor and speech mapping features, this specific system also includes therapeutic capabilities that allow the system to be used for the treatment of major depression and chronic neuropathic pain.

Mikko Karvinen, CEO of Nexstim, comments: *"This customer represents the neurosurgery community that we have been successfully serving for long. We value the work that our long-time customers have done over the years in terms of both treating patients and conducting research. We are about to enter a new phase with the distribution of our diagnostics solutions in the German market, but the strong relationships with these customers remain important for us."*

About Nexstim Plc

Nexstim is a Finnish, globally operating growth-oriented medical technology company. Our mission is to enable personalized and effective diagnostics and therapies for challenging brain diseases and disorders.

Nexstim has developed a world-leading non-invasive brain stimulation technology for navigated transcranial magnetic stimulation (nTMS) with highly sophisticated 3D navigation providing accurate and personalized targeting of the TMS to the specific area of the brain.

Nexstim's Diagnostics Business focuses on commercialization of the Navigated Brain Stimulation (NBS) system. The NBS System 5 is the only FDA cleared and CE marked navigated TMS system for presurgical mapping of the speech and motor cortices of the brain.

Nexstim's Therapy Business markets and sells the NBS System 6 which is FDA cleared for marketing and commercial distribution for the treatment of major depressive disorder (MDD) in the United States. In Europe, the NBS 6 system is CE marked for the treatment of major depression and chronic neuropathic pain.

Nexstim shares are listed on Nasdaq First North Growth Market Finland.
