Safend Encryptor full data hard disk encryption

They may take your computer, but not your information

Solving encryption complexities and needs, Safend Encryptor, a smooth-running and transparent data encryption tool, fully protects your company's private information.

An at-a-click company-wide encryption and decryption solution which employs the strong and recognized AES-256 algorithm, Encryptor balances between productivity and performance without interfering with daily work activities.

A true single-sign-on product, providing a secure answer for data at rest, Encryptor also offers advanced decryption and data recovery services via a machine-specific one-time only server key.

Safend DPS, the Data Protection Suite

One DPS suite, one DPS agent

Protector:
controlling port
and device endpoints
and media encryption

Encryptor:
transparent encryption
on laptops and PCs

Inspector:
inspects, classifies and
blocks sensitive data leakage

Discoverer:
locates and maps
sensitive data at rest

Auditor:
immediate risk detection
on WiFi ports/devices
connected to endpoints

Reporter:
regulatory compliance
reports and security
log summaries

Full compliancy to data security regulations and privacy standards

- Transparent access to encrypted data via a Windows login
- Strong decryption and data recovery tools
- Automatic generation and storage of encryption keys prior to actual encryption
- Detailed logs and reports on security breaches, encryption status and administrative activities
- Multi-tiered anti-tampering capabilities, fully protecting organizational data
- Automatic synchronization with Active Directory

Multi-factor authentication

Transparent provisions for multi-factor authentication devices that change user customized login interfaces.
For example: smart cards, USB tokens and biometric IDs supported by Windows.

Supported by Safend Encryptor

- Common criteria EAL2 certified
- FIPS 140-2 validated

System Requirements: Management Console
- Windows 7 SP1 (x86, x64): Pro, Enterprise, Ultimate
- Windows 8 (x86, x64): Pro, Enterprise
- Windows 8.1 (x86, x64): Pro, Enterprise
- Windows 10 (x86, x64): Pro, Enterprise
- Windows 10 Anniversary (x86, x64): Pro, Enterprise
- Windows 10 Creator (x86, x64): Enterprise
- Windows Server 2008 SP1
- Windows Server 2008 R2 SP1
- Windows Server 2012
- Windows Server 2012 R2
- Windows Server 2016

System Requirements – Server
- Windows Server 2008 SP1
- Windows Server 2008 R2 SP1
- Windows Server 2012
- Windows Server 2012 R2
- Windows Server 2016

System Requirements – Agent
- Windows 7 SP1 (x86, x64): Pro, Enterprise, Ultimate
- Windows 8 (x86, x64): Pro, Enterprise
- Windows 8.1 (x86, x64): Pro, Enterprise
- Windows 10: Pro, Enterprise
- Windows 10 Anniversary (x86, x64): Pro, Enterprise
- Windows 10 Creator (x86, x64): Enterprise

About Safend, a SuperCom Company

Safend are providers of security products designed to protect against corporate data loss via comprehensive data encryption, port control, device control and content inspection solutions.
With over 3,000 customers worldwide and 3 million licenses sold, Safend software is deployed by multi-national enterprises, government agencies, healthcare organizations and small to mid-sized companies across the globe.
Founded in 1988, SuperCom is a leading global provider of advanced tracking, identification and security solutions.
Working as partners and promoting transparency and ethical business practices with their investors and with over 3500 customers and 20 governments, SuperCom is a publicly traded company on the NASDAQ National Market (SPCB).
