

Population Health Management for pediatrics

Innovaccer empowers pediatric providers with tools to help them focus on what matters most: delivering high-quality care to children. Accelerate innovation with longitudinal patient records, intuitive clinical workflows, automatic record updates, and robust patient-matching algorithms - all within a single platform to improve outcomes and increase efficiency.

Pediatric care is unique, so risk-sharing providers need an accurate view of what's happening with patients. And with health systems increasingly turning to telehealth and virtual care, there has never been more data to drive accessibility, increase quality, and improve the cost effectiveness of care.

Our Pediatric Population Health Management solution brings together information spanning multiple pediatric care settings and clinicians. Powered by the Innovaccer Health Cloud, this solution gives providers a complete view of patients that goes beyond clinical data and empowers organizations to drive smarter interventions with point-of-care insights and deliver family-centered pediatric care.

Integrate all of your data into one place

Family-centered care

Robust patient- matching algorithm

Proactive alerts for immunization

Improved pediatric quality scores

Location-agnostic care

Customer Wins

ELEVATE HEALTH

\$6M

The Innovaccer Health Cloud for pediatric care organizations

Radically interoperable and integrative to break healthcare data silos, unify data into a single longitudinal patient record, and provide actionable insights.

Single Source of Truth

Get an in-depth contract management view, robust patient matching and flagging, and unique Medicaid IDs for newborns

Customized Care Plans

Assign care protocols, automate worklists for scheduling appointments, and enable timely alerts to avoid care gaps

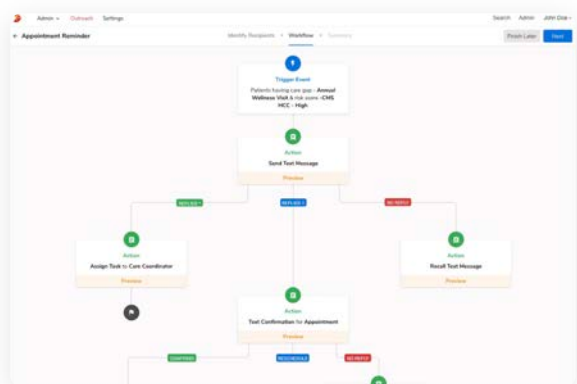

Virtual Pediatric Care

Book same-day appointments, connect with care teams in real time, and address children's emotional health and well-being to optimize pediatric care

A complete solution for true value-based care

Address the Long-term Needs of Patients

- Get timely alerts and updates for upcoming immunizations
- Leverage built-in assessments and care protocols
- Automate workflows for care plans

Enhance Care Coordination

- Get actionable point-of-care insights
- Streamline virtual engagement with your patients and their families to improve communication
- Enable interoperability and seamless EMR integration
