

The #1 data platform for healthcare

Integrate patient data across systems and settings, deliver actionable insights at the point of care, collaborate across care teams, and achieve better health outcomes with Innovaccer's Best in KLAS Data & Analytics Platform.

The Innovaccer® Health Cloud empowers healthcare organizations to integrate and activate data from any source, unifying patient records to create a 360-degree view. By ingesting, aggregating, and normalizing data across systems and settings, providers can process clinical and claims data and share insights across their enterprise to deliver whole-person care.

As the industry's first and only full-stack platform built for healthcare, the Innovaccer Health Cloud combines its Data Activation Platform, Application Suite, Innovation Toolkit, and Innovation Accelerators to propel transformation in healthcare. The Innovaccer Health Cloud provides actionable insights that improve clinical, financial, and operational outcomes—everything you need to accelerate the innovation of breakthrough provider solutions.

Access unified patient records

Improve health outcomes for stratified populations

Enable patient-centered, SDoH-inclusive care

Drive innovation on a single enterprise data fabric

“With Innovaccer’s solution, we are not only transforming patient care, but also driving significant savings in our IT operating expenses.”

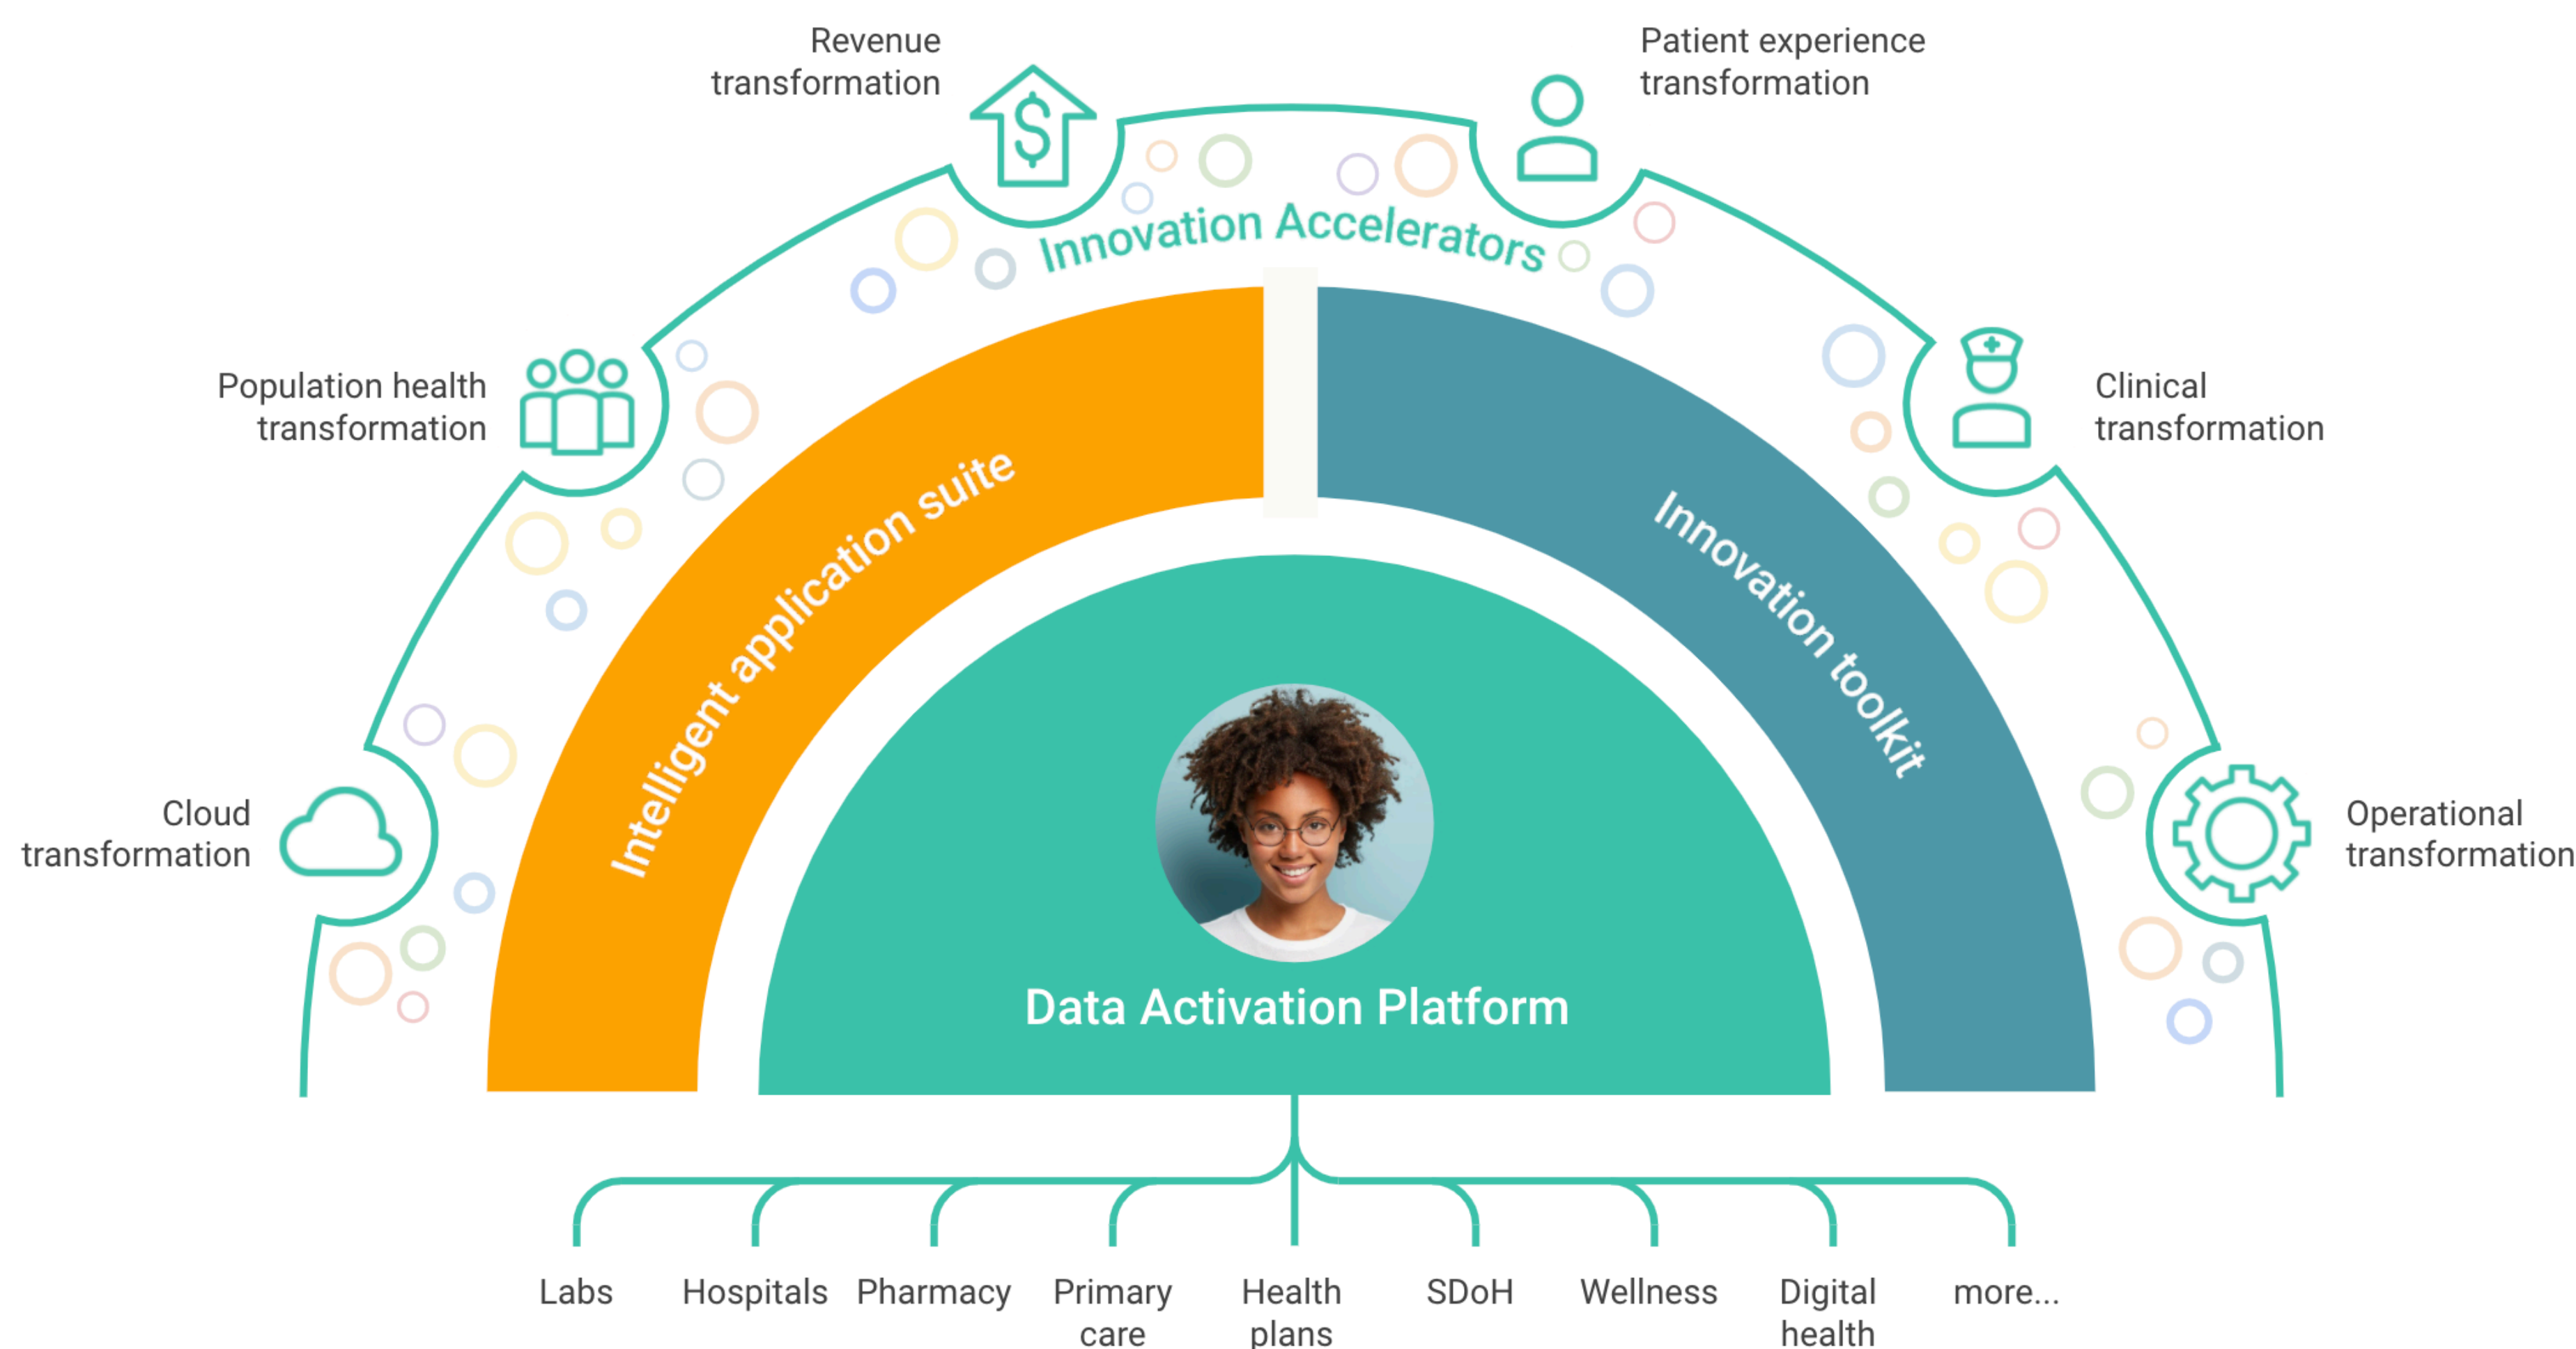

“The Innovaccer Health Cloud gives us a platform to align with many disparate EHRs and provide clinical insights that help our physicians improve population health.”

The Innovaccer Health Cloud for providers

Equip providers with an intelligence platform to integrate data and enable data-driven decision-making.

A powerful suite of solutions for providers

Population Health Management

- Access data integration and platform services
- Enable population health analytics
- Integrate care management
- Apply provider facing interfaces
- Ensure 360-degree patient engagement

Provider Cloud Data Platform

- Employ a unified data model
- Ensure robust data quality monitoring
- Secure bidirectional interoperability through FHIR APIs
- Set up ML-based syntactic and semantic data mapping
- Deploy a comprehensive analytics platform (FaaS)

Referral Management

- Conduct comprehensive network analysis
- Use a central referral team (CRT) module
- Ensure point-of-care referrals
- Apply provider facing interfaces
- Achieve EHR interoperability

Patient CRM

- Automate workflows
- Deploy intelligent segmentation
- Track downstream ROI
- Run omni channel campaigns

Contact Center

- Track patient requests
- Automate patient engagement workflows
- Ensure appointment adherence
- Address grievances quickly

Digital Health Innovation

- Automate patient care workflows
- Apply advanced analytics
- Customize care delivery

About Innovacer

Innovacer Inc., the Health Cloud company, is a leading San Francisco-based healthcare technology company committed to accelerating innovation in healthcare. The Innovacer® Health Cloud empowers healthcare organizations to integrate data from any source—electronic health records, clinical, claims, labs, pharmacy, genomics, social determinants of health, devices, government sources, and more—to create a 360-degree view of the patient that enables whole-person care. The company's portfolio of Innovation Accelerators empowers technology teams and digital innovators to rapidly develop scalable, modern applications that improve clinical, financial, and operational outcomes. More than 200,000 providers, as well as payers and life sciences organizations, have used the Innovacer Health Cloud to unify more than 39 million patient records and generate more than \$600 million in savings across 1,000 care settings. Innovacer is the #1 rated Data and Analytics Platform by KLAS, and the #1 rated population health technology platform by Black Book.
