bySecurityScorecard and Top of KLAS for cyber security

By connecting their digital innovations to clinical workflows and the unified patient record, life sciences companies can bring approved innovations to the clinic faster and elevate the healthcare experience.

What our Customers say

"We really are working as we are trying to bring the joint power of two portfolios together, and making it accessible to customers as soon as possible."

Sukhveer Singh
Global Head of Healthcare Insights
Roche Information Solutions at Roche

What our partners say

"This, interoperable layer, is really where Innovaccer has been able to pull together not only the real-world data, but they're able to bring that across the value chain with their ability to actually convert all of this data into usable format."

Susan Aroyan
Analytics Lead
Healthcare and Life Sciences, AWS

Innovaccer Inc., the Health Cloud company, is a leading San Francisco-based healthcare technology company committed to helping healthcare care as one. The Innovaccer® Health Cloud unifies patient data across systems and settings, and empowers healthcare organizations to rapidly develop scalable, modern applications that improve clinical, operational, and financial outcomes. Innovaccer's solutions have been deployed across more than 1,000 care settings in the U.S., enabling more than 37,000 providers to transform care delivery and work collaboratively with payers and life sciences companies. Innovaccer has helped organizations unify health records for more than 24 million people and generate more than \$600 million in savings.
