

CHAPTER ONE

MYRIAD

ANOMALY RULES

NEMESIS: MYRIAD

In the Nemesis: Myriad Ingress Anomalies, Agents will be striving to defeat the Nemesis villain named Myriad. Myriad holds one of the key pieces that is keeping the Niantic researchers trapped. The strongest Faction will reap the greatest rewards and be given first selection of advantages from the NIA for the final battle with Nemesis.

During a three-hour period in each city, an Anomaly Zone will form around certain XM Portals. These Portals will be visibly ornamented in the scanner. Ingress Agents will be competing in three key areas:

UNIQUE PORTAL HACKS

Hack as many different Anomaly Zone Portals as possible during the three-hour period. This combats Myriad's plan to shut down the Portal Network.

SHARD BATTLE

Create links to move Myriad Shards to designated Research Portals. This helps to capture Myriad.

LONGEST LINK PATH

Create the longest path of links, starting from one of several designated Base Portals and continuing to other Anomaly Zone portals. This will help re-establish the link between our world and the multiverse.

Do these three things and you will defeat Myriad. For more information, see the [Myriad Rules Details and FAQ](#).

COME TO ONE OF THE IDENTIFIED ANOMALY ZONES.

DEFEAT MYRIAD AND ULTIMATELY DEFEAT NEMESIS.

THEY ARE COMING FOR YOU. WILL YOU RISE TO THE CHALLENGE?
