INTRODUCTION

In 1996, Mc George Bundy the national security adviser of President Kennedy and Johnson, a gentleman described as one of the best and the brightest to shape American foreign policy began to write his memoirs in collaboration with Gordon M Goldstein. With Bundy's sudden death his memoirs could not be completed. But Goldstein has built on their collaboration in an original and provocative work of history to publish "Lessons in Disaster: Mc George Bundy and the Path to War in Vietnam." In 2008.

"I had a part in a great failure. I made mistakes of perception, recommendation and execution. If I have learned anything I should share it".

These words of Mc George Bundy were shared with Gordon M. Goldstein a week before Bundy's sudden death.

Since the publication of Lessons in Disaster in 1997 new evidence revealed several Bundy blunders and JFK's assassination and the Vietnam War.^[1-9]

The aim of this study is to project odds of certainty that Mc George Bundy was a mole in JFK's White House based upon Mc George Bundy's record.^[1-9]

Method

Bundy's actions consistent or inconsistent with him being a mole were analyzed to project odds of occurrence random versus not random based upon the probability theory of flipping a coin x consecutive times with heads coming up x times.

$R=1/2^X$; (R) representing random occurrence and (X)representing number of Bundy errors.

We will review Bundy's performance under the following headings:
 - A. Bundy actions before JFK's White house
 - B. Bundy actions at JFK's White House.
 - C. Bundy actions after JFK's death.

Bundy Actions before JFK's White House

A graduate of Yale, Mr. Bundy taught government and was dean of the faculty of arts and sciences at Harvard before serving Presidents Kennedy and Johnson in the White House.^[1]

He had attended the private Dexter School in Brookline Massachusetts and the Groton School before entering Yale as a freshman despite refusing to write a required essay for the entrance exam. He would also outsmart the vision test by memorizing the eye chart to enter the army.^[1]

In the U.S. Army Bundy deciphered intelligence intercepts for Admiral Alan Kirk, the commander of U.S. naval forces in the Sicily and Normandy invasions of World War II.^[1]

Surprisingly the Harvard University made an exception for Bundy to teach history without a Ph. D. the only person in the history of Harvard to be granted professorship. Bundy was an FBI asset at Harvard.^[2]

Bundy actions before JFK's White House^[3]

1. Refused to write a required essay for Yale entry.
2. Cheated eye exam to enter the army.
3. Was an FBI asset at Harvard.
4. In the U.S. Army Bundy deciphered intelligence intercepts for Admiral Alan

Kirk, the commander of U.S. naval forces in the Sicily and Normandy invasions of World War II.

Bundy at JFK'S White House

Fletcher Prouty served as the chief of special operations for the Joint Chiefs of staff during the Kennedy years. As the author of "the CIA, the Plot to Assassinate President John F Kennedy" "Prouty documented McGeorge Bundy's blunder during the Bay of Pigs Operation -the first international crises the president faced soon after he was elected to be our 35th president: Bundy single handedly sabotaged the Bay of Pigs operation.^[3]

By means of intelligence data it had been determined that Castro had 10 combat capable aircraft therefore on April 15 two days before the landing a group of modified B26 flew over the Havana area and destroyed seven of these aircraft 3 T33 jet aircraft had flown to a base in the Santiago area that afternoon. One of the CIA's spy aircraft located them parked wingtip to wingtip on a

small air base. The dawn air strikes authorized by JFK were essential to destroy the 3 T33s on the ground.

Mc George Bundy without JFK's consent telephoned General CP Cabell CIA to inform him that the dawn air strikes the following morning should not be launched until they could be conducted from a strip within the beachhead.

Bundy also misrepresented his Bay of Pigs blunder in "Brigades My Fault" that appeared on the Op-ed page of the New York Times and October 23, 1977.

On August 24th a cable drafted by Hilsman and Forrestal unauthorized by the usual vetting and approval, sent a green light for a coup D'état to the US. Ambassador in Saigon, Henry Cabot Lodge in violation of JFK's Vietnam strategy.^[3,4]

Bundy admitted that Forrestal's August 24, 1963 cable was correct in principle claimed that he did not know about the cable because "it was a weekend and I cut myself out on weekends".^[4]

By signing NSAM 263 JFK ordered the withdrawal of military from Vietnam In October 1963.^[3,4]

On 11/02/1963, Bundy from the White House situation room was in ongoing communication with Lucien Conien the CIA's station chief was not just a passive observer of the coup D'état in Vietnam and the assassinations of Diem brothers. It made no sense for the president to support a violent overthrow of the Diem Brothers whom he personally liked.^[3,4]

Should we also consider a strange coincidence under Bundy's watch of JFK's cabinet being away on an aircraft with a temporarily disabled communication on 11/22/1963?^[3]

Not simply a major error but rather evidence of treason is a top secret memo James Fetzer, PhD and I found on NSA's Web page that instantly vanished after we had copied it. This 11/21/1963 memo written one day before the assassination signed by Lucien Conien, CIA's Saigon Chief and the man who orchestrated the Dealey Plaza ambush would report the planned execution of JFK.^[5]

Accidentally or not Lucien Conein's photo in the background of JFK's limo passing was circulated by AP.^[6]

My educated guess: This was a" warning " to internal or external foes." Look, who's in charge of America? Don't mess with Texas!"

Bundy Errors at JFK's White House^[9]

1. Reversal of JFK's orders at Bay of Pigs.
2. Alteration of NSAM 55.

3. August 24,1963 cable authorizing Coup D'état in Vietnam
4. Bundy claims he did not know about the cable because "it was a weekend and I cut myself out on weekends"
5. October hand- written note from Hilman to Lodge authorizing Coup D'état In Vietnam.
6. Coup D'Etat In Vietnam.
7. Murders of Diem brothers.
8. Arrangement of JFK's cabinet to be away on November 22,1963.
9. Transient lost communication with the White House coinciding with JFK's assassination
10. November 21 NSA memo.

Bundy After JFK

What is so telling about" Lessons in Disaster "is the absence of any rational explanation as to how Bundy masterminded a dramatic 180° reversal of President Kennedy's NSAM 263 -orders to end the US military engagement in Vietnam -to launch the Vietnam War.

The reversal is worthy of emphasis. JFK 's presidency was defined by his determination to deal with international political or military conflicts through diplomatic means.

A very short time after the assassination President Johnson would declare war on Vietnam.

Bundy Errors after JFK^[12]

1. Lost JFK's white house tapes of November 1963.
2. Never spoke with McNamara after he published In Retrospect suggesting complicity by Bundy to sabotage JFK's Vietnam strategy
3. Never investigated November 21, 1963, pre-assassination memo.
4. Became one of the architects of the Vietnam war./reversal of 263.NSAM
5. Never investigated a high level conspiracy/jfk assassination
6. Never investigated Lucien Conein's, CIA's Saigon station chief being in Dallas on 11/22/1963.
7. Not stopping a routine budget meeting at the Pentagon
8. No discussion on the Honolulu meeting in his memoirs?
9. No mention of the Pentagon meeting in his memoirs.
10. No mention of personal response to the news of JFK assassination?
11. Wrong date Early November Honolulu meeting
12. Brigades My Fault, NY Times, October 23, 1979.

RESULTS

Review of 27 Bundy mishaps before, consistent or inconsistent with Mc George Bundy being a mole in JFK's White House suggests Bundy was a mole. Certainty of this observation being correct is %99.9999.

DISCUSSION

William Colby's 1975 Senate Intelligence Committee detailing successful infiltration of media are of essence to understand Bundy's foreign policy Influence. It has taken more than six decades to expose Bundy's tragic violations of the Constitution as an asset for the FBI and CIA that led to President Kennedy's assassination and the Vietnam War.

McGeorge Bundy was a mole dressed as a Machiavellian national security adviser in the White House who once as an undergraduate said "I believe in the dignity of the individual, in government by law, in respect for the truth, and in a good God; these beliefs are worth my life and more; they are not shared by Adolf Hitler."

A few decades after offering such wisdom what was Bundy thinking by the aircraft bringing JFK's body as he greeted Jackie, still stained with her husband's blood with Bundy under his arm the files for the new president :The best performance of a great public servant doing his duty.

Bundy theatrics have been exposed thanks to scientific advances that enable us to instantly differentiate Government Sanctioned Assassinations GSA from random murders.

Overwhelming Evidence. Supported by. Mathematics. Suggest. Mark George Bondy was a mall in JFK's White House. Certainty of this observation being correct is %.99.999.

We can acknowledge with scientific certainty that an amazing number of brave Americans among them - James Forrestal, Pritzer, William Colby., William Sullivan, Stanley Kubrick, Lyndon B Johnson were silenced after revealing government sanctioned crimes. We will never know whether Bundy was getting ready to reveal his part in those deaths when he too suddenly died.

Ensuring governmental honesty and transparency may help us prevent future wars and genocide as witnessed by government sanctioned killings of JFK RFK MLK and many others who were silenced to coverup the American Coup D'état.
