ABSTRACT

Introduction: Stanley Kubrick, a legendary movie director died in his sleep in London England on 03/07/1999. According to published reports Kubrick's death was attributed to a heart attack. 15 years after Kubrick's death an audio visually recorded interview of Kubrick conducted by Jeremy Bernstein a British reporter revealed Mr. Kubrick's alleged confession: "Apollo flights are my masterpiece and the greatest fraud perpetrated on humanity". **Objective:** To determine the authenticity of Stanley Kubrick's audio -visual recorded confession. **Method:** Application of probability theory to diverse observations consistent or inconsistent with the authenticity of Stanley Kubrick's confession. **Results:** 32 independent observations are consistent with authenticity and inconsistent with lack of authenticity of Kubrick's confession. The oddsof authenticity is %.99.9999. **Conclusion:** Stanley Kubrick's confession confirming that the Apollo flights were fictional movies directed by him Is authentic.

INTRODUCTION

Stanley Kubrick, the legendary movie director died in his sleep in London England on 03/07/1999 six days after his videorecorded confession.^[1] Kubrick requested his confession not to be released for 15 years after his death. Kubrick had no history of heart disease and (to the surprise of many) no autopsy was conducted.

In 1958,11 years before the Apollo moon missions Van Allen observed that intense radiation made manned flights into deep space impossible.^[2] Van Allen and his associates from the State University of Iowa had first published their observations of high-intensity radiation around the earth in an article published in Journal of Jet Propulsion in 1958^[2]:

We surmise that the radiation we have found is closely related to the soft radiation previously detected during rocket flights in the auroral zone. The radiation intensity necessary just to blank the Geiger tube is equivalent to 60mr/hr. In this connection the recommended permissible those for human beings is 0.3 r/week. The present radiation is 0.3 r in five hr or less.

In 1959 Van Allen published an article in Scientific American^[3]

So far the most interesting and least expected result of the men's explanation are the immediate vicinity of the earth is the discovery that our planet's range by a region to be exact two regions of high energy radiation extending many thousands of miles into space. The discovery is of course troubling to astronauts; somehow the human body will have to be shielded from this

radiation even on a rapid transit through the region.

In 2001, Safe Passage, published by Institute of Medicine reported (4): Radiation exposure. Is perhaps an even greater risk from travel beyond Earth's orbit. Little is. Presently known about the interaction with this known ionizing form of radiation and DNA cells and tissues of astronauts. There are no data on the effects of the terrestrial exposure to such protons and high atomic number, high energy particles that flood space. Beyond. Earth orbit. Furthermore, there is no way to predict when solar outbursts with their higher levels of radiation will occur, and no current practical way to protect spacecraft. Two members from them..

There is no scientific publication by Van Allen or any other researcher to state that the dangers from passing through the Van Allen radiation belt have been solved.. Winson Wu suggested that Van Allen had little choice but to go along with the official line for his research heavily relied on governmental funds (4).

For the record sometime in the summer of 2018, I was informed by the British authorities upon my written request that there was no postmortem exam report of Stanley Kubrick . After I misplaced this letter my second phone attempt resulted in a quick response.: We're unable to honor your request because you're not a family member.

OBJECTIVE

To determine the authenticity of Stanley Kubrick's audio visual recorded confession.

METHOD

Application of probability theory to diverse data related to the Apollo 11 flight to the moon, consistent or inconsistent with the authenticity of Stanley Kubrick's confession. The following represents the source of data.

1. Salerian AJ. Does Scientific Integrity Matter? *Annals of Psychiatry and Clinical Neuroscience*, 2019; 2(3): 1018.
2. Salerian AJ The sensitive dependence of complex systems on initial errors and that discovery of water on the moon. *Journal of Space Exploration* volume 10 issue seven, 2021.
3. Salerian AJ, Apollo flights and the hazards of radiation, *HSOA Journal of Physical Medicine Rehabilitation and Disabilities*, 2021; 7: 061.
4. Salerian, AJ. The Apollo 11 Crew and Microgravity. *J Phys Med Rehabil Disabil*, 2019; 5: 038.
5. Kubrick S. www.youtube.com
6. NBC news. 8/27/2009 The Associated Press reported that the Dutch National Museum the moon rock presented to the Dutch prime minister by Neil Armstrong is petrified wood made on the earth.
7. Ball JR, Evans Jr CH, Editors Safe Passage; Astronaut care for exploration missions, Institute of Medicine, National Academy Press, 2001.
8. Barnes, J., Kring, D., Tartèse, R. et al. An asteroidal origin for water in the Moon. *Nat Commun*, 2016; 7: 11684.
9. Greenwood, J., Itoh, S., Sakamoto, N. et al. Hydrogen isotope ratios in lunar rocks indicate delivery of cometary water to the Moon. *Nature Geosci*, 2011; 4: 79–82.
10. Hauri EH, Weinreich T, Saal AE, Rutherford MC, Van Orman JA, High Pre-Eruptive Water Contents Preserved in Lunar Melt Inclusions. *Science*, 2011; 213-215.
11. Ganapathy R, Laul JC, Morgan JW, Anders E, Moon: Possible Nature of the Body That Produced the Imbrian Basin, from the Composition of Apollo 14 Samples. *Science*, 07 Jan. 1972; 175(4017): 55-59.
12. Witze A, Fresh look at Apollo Moon rocks reveals Solar System secrets, 2019; *Nature* 567(7749).
13. Van Allen, J. A., Radiation Belts around the Earth *Scientific American*, March 1959; 200(3): 39-47
14. Buckley Jr JC, Gaffney FA, Lane BD, Levine DE, Waterbaugh SH, Wright SJ, Yancy Jr CW, Meyer DM, Blomquist CG, (1996b), Orthostatic intolerance after space flight. *Journal of Applied Physiology*, 81(1): 7-18.
15. Wisniewski G (2007), One Small Step, Page 146., Clair view Books, East Sussex.
16. Fetzer J H, Palacek M (2012.) I suppose we did not go to the moon either, 91. Moonrock Publishers.

RESULTS

32 independent observations are consistent with Stanley Kubrick's confession "Apollo flights were my masterpiece and the greatest fraud perpetrated on humanity" and inconsistent with his confession. The

odds of this observation being correct is % 99.999.

1. The Stanley Kubrick confession without any evidence of fraud (1).
2. Sudden death of Stanley Kubrick six days after his recorded confession.
3. No protests or legal actions against the reporter by NASA for defamation..
4. No autopsy following a sudden death of a person in good health with no history of heart disease.
5. Written instructions by Kubrick for his confession not to be public knowledge for 15 years after his death suggesting his awareness of potential dangers for violations of national security regulations.
6. CIA's record of punishing violations of National security i.e. William Colby.
7. A NASA image of Apollo 11 published in *National Geographic Magazine* (11/24) showed evidence of artificial lighting (image A)
8. And NASA image of Apollo 11. Shows. 3 astronauts. On the moon surface. Contrary to NASA claims. That only two astronauts. Walk down the moon. And the third. Stayed. In the spaceship (IMAGE B)
9. A NASA image of Apollo 11) showed evidence of artificial lighting (Image C).
10. The Dutch National Museum: A moon rock presented to the Dutch Prime Minister by Neil Armstrong and Buzz Aldrin was made of wood and came from the earth (image D,E).
11. 4 peer reviewed articles consistent with the authenticity of Stanley Kubrick's confession on YouTube recorded by a British reporter: "Apollo 11 was my masterpiece" (6,7,8,9).
15. The manufacturer of Hasselblad.: Hasselblad Camera cannot operate in the extreme temperatures on the moon surface (10).
16. 2011 Institute of Medicine. Report: "Manned flights to the moon and beyond are Unsafe" (11).
17. Massive farm subsidies to the Soviet Union with to keep the Soviet officials quiet at the height of the Cold War with the US In aggressive pursuit of weakening the Soviet empire.
18. Unauthorized disappearance of Audio visual recordings of original Apollo 11.
19. Deep space is radioactive and no evidence that Teflon and aluminum offer effective protection for astronauts.
20. No scientific evidence of safety for manned flights travel into deep space.
21. Death of Laika, a Soviet space Dog that traveled to deep space (10)
22. The very unusual coincidence of Stanley Kubrick specifically demanding the first public showing of his movie on the very anniversary of Apollo 11.
23. Symbolic associations of Kubrick's movie "Shining" revealing numbers and images associated with Apollo 11.
24. Physical impossibility of Neil Armstrong's voice from the moon being heard In Houston or

Washington DC Because of radiation interference of sound waves.

25. Very unlikely and uncharacteristic violation by Neil Armstrong to take home. Apollo 11 Items In violation of NASA rules.
26. Gus Grissom who hung a lemon on his desk to express his feelings about Apollo 1 and two fellow astronauts were killed on January 27, 1967.
27. Scott Grissom, the son of Gus Grissom and a pilot himself, was allowed to investigate the deadly accident by NASA. He concluded that his father was killed by sabotage: a switch was hot wired to kill 3 astronauts after the capsule was filled with pure oxygen. Grissom's death is also consistent with cerebro-genocide.
28. Accidental death. Of Astronaut Gus Grissom Following His public protests of Engineering deficiencies Of the spacecraft.
29. On April 21, 1967, Thomas Baron (a NASA consultant safety specialist) testified before a congressional committee in FL citing 20,000 mechanical flaws of Apollo 1 as of December 1966, making the target date of launching the Apollo mission impossible.
30. Thomas Baron, his wife and 2 daughters were murdered just 2 days following his testimony supposedly by homicide/suicide but with no any medical evidence supporting the cause of death. Baron's death was consistent with the concept of cerebro-genocide.
31. Apollo Astronaut James Irwin, a newborn Christian died suddenly on the way to a radio station. Irwin's sudden death was another that is consistent with cerebro-genocide.
32. Countless NASA visual recordings from the Apollo 11 mission show no visible stars from the moon.

By Toby Sterling

It's not green cheese, but it might as well be.

The Dutch national museum said Thursday that one of its prized possessions, a rock supposedly brought back from the moon by U.S. astronauts, is just a piece of petrified wood.

8/27/2009 The Associated Press reported that the Dutch National Museum the moon rock presented to the Dutch prime minister by Neil Armstrong is petrified wood made on the earth.

DISCUSSION

Kubrick's sudden death would seem to be consistent with what could be called cerebro- genocide, understood as the organized killings of thought leaders who expose facts special interests want suppressed. Abundant and compelling evidence suggests that the Apollo missions were fictional and filmed on a sound stage rather than the surface of the moon.

How did the moon hoax last 60 years?

- A. Propaganda: Social media and television seem to have greater power than scientific truth: We have watched Neil Armstrong not once, but thousands of times to step down from a spaceship and say "A giant step for mankind".
- B. Our blind trust of NASA and our Presidents.
- C. I propose a new phenomenon :Kubrick syndrome:
 - a. Inability to recognize catastrophic errors by icons or iconic institutions.
 - b. Lack of time or interest to study a cause and effect relationship between sudden deaths of people and tragic events.

CONCLUSION

We can say with scientific certainty that Stanley Kubrick was a victim of cerebrogenocide genocide. And the odds of this observation being correct is 99.999%.

It would be very helpful for our intelligent agencies to honor the spirit of the Hippocratic Oath and our Constitution.
