Security measures

The website uses generally accepted information security techniques within the industry, such as SSL, data entered on a secure page, firewalls, access control procedures and cryptographic mechanisms, with the aim of preventing unauthorised access to data. To achieve these purposes, the USER agrees that the PROVIDER will obtain data for the purpose of the corresponding access control authentication.

The PROVIDER undertakes not to allow any transaction that is or is considered illegal by the credit card brands or the acquiring bank, which may or has the potential to damage their goodwill or negatively influence them.

The following activities are prohibited by the card brands' programmes: the sale or offer of a product or service that does not comply with all laws applicable to the Buyer, Issuing Bank, Merchant or Cardholder.
