1. Any recent increased or atypical mortalities? (last 4 weeks).

N/A

If yes, detail:

2. Any increased mortalities? (since last inspection.)

N/A

If yes, detail:

3. How are mortalities disposed of?

If other detail:

Treatments and Medicines

1. Any treatments? (since last inspection)

N/A

If yes, detail:

Other:

Health status and Results of Surveillance

1. Any disease on site? (since last inspection)

N/A

If yes, detail:

2. Has any animal health surveillance been carried out by, or on behalf of, the business?

3. Any significant results?

If yes, detail:

Sea lice

1. Has the site experienced sea lice problems in the previous 4 years?

N/A

If yes, detail:

2. Have lice levels stayed below the suggested criteria for treatment in the CoGP since the last inspection?

If no, detail:

3. Have average adult female sea lice (L. salmonis) numbers per fish been at a level of 3 or above (prior to w/b 10/6/19) or 2 or above (from w/b 10/6/19) since the last inspection?

4. If yes to 3, have these been reported to the Fish Health Inspectorate? If no, see comment.

5. Does the site have treatment discharge consents relevant to sea lice?

If yes, detail:

6. Have therapeutic treatments or the actions taken had a significant impact upon the lice levels recorded?

If no, detail:

7. Is there a signed documented farm management agreement or statement relevant to the site and CoGP

Farm Management Area (or equivalent)?

8. Is the CoGP Farm Management Area (or equivalent) fallowed synchronously on a single year class basis?

Escapes/Containment

1. Any reported escapes? (check prior to phone call)
2. Any escapes? (since last inspection)

N/A

If yes, detail:
(include date)

FISH HEALTH INSPECTORATE VISIT REPORT

SUMMARY FOR INFORMATION OF SITE OPERATOR

BUSINESS No FB0449**SITE No** FS0862**INSPECTOR** [REDACTED]**DATE OF CASE** 08/07/2020**SITE NAME** Loch Grey (Loch an Eilean Liath)**CASE No** 20200258

Routine surveillance frequency assessment under the Aquatic Animal Health (Scotland) Regulations 2009

The above site was contacted in accordance with the Aquatic Animal Health (Scotland) Regulations 2009, and to meet the requirements of European Community Council Directive 2006/88/EC.

The information required for the public record of aquaculture production businesses regarding this site was verified and where necessary updated. No mortality levels exceeding the reporting criteria have been recorded since the last inspection.

The site has been fallow since 30th January 2015 and there are currently no plans to restock the site. It will be made inactive following an inspection from the fish health inspectorate of the empty facilities.

Should you wish to restock the site in the future it must first be re-activated. This can be done by submitting an authorisation amendment application, satisfactory site specific bio-security measures plans and the relevant permissions remaining in place.

Please contact myself or the duty inspector should you require any further information or have any queries regarding this report.

Signed:

[REDACTED]
